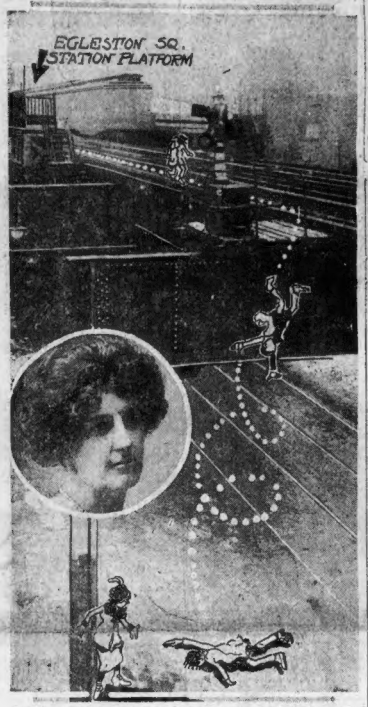
MYSTERY FALL FROM TRACKS OF ELEVATED

Today By ARTHUR BRISBANE SEE PAGE THREE



HOW LYNN MAN FELL FROM STRUCTURE

Mrs. William G. Bell of Emory terrace (inset) saw Lawson's body hit the pavement, and others saw the fall, but no one seems to have seen the start of the accident at the Eggleston square station, and the police are unable to find a cause for the action. Lawson is in City Hospital in a dying condition.

MULLOWNEY EXONERATED

$100,000 GEMS GONE, SEEK MELROSE MAN

DYING IN FALL FROM 'L' IN ROXBURY

Robert D. Lawson of Lynn is dying at City Hospital. How he fell under the Elevated structure at Eggleston square is mystifying the police.

A woman declares she saw his body hitting the pavement at Washington and Beethoven streets with terrific impact from "somewhere out of the air."

Rail Commissioner Harry Rozmann and Harry Christie in an auto nearly ran over Lawson's body as it lay in the street, close to the gutter. Rozman also says he observed a body falling.

The police are completely baffled.

STATE PROBE OF KEROSENE THAT KILLED THREE

State detectives are conducting an investigation as the result of three deaths in Massachusetts this week from burns due to explosions of kerosene.

Samples of kerosene already tested have shown as high as 10 per cent. gasoline.

Frank Slavin, thirty-eight years old, of No. 10 Grant street, Taunton, is the latest victim. Slavin is dying at the Morton Hospital, Taunton, following explosion of a can of kerosene with which he was lighting his kitchen fire today.

A woman was killed at New Bedford and a man at Fall River in the same manner. Both of these instances were on Tuesday.

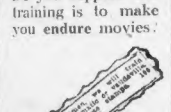
State Detective George O. Mansfield is at Taunton today. Mansfield found that the can which Slavin used was blown to bits. He took a specimen nfrom another can of kerosene in the same building and will have it tested.

Slavin's screams awakened two men living in the same house. As they entered the kitchen on the second floor, Slavin leaped from the window. He was aflame from head to foot. Two men passing by obtained blankets and wrapped Slavin in them, rolling him in the snow. Little hope is held out for his recovery.

The state police are trying to ascertain if the law is being violated in the sale of kerosene which contains such a percentage of gasoline as to make it an explosive.

Meantime they are warning against the use of kerosene in lighting fires.

Do you suppose this training is to make you endure movies?



No, ladies and gentlemen, the "object of the meeting" is to train you into making movies—to make the public weep or laugh. An example of the many opportunities appearing on the American's Classified Ad. Page every day. Read!

AROUSES IRE OF DR. MAHONEY

Dr. Mullowney's Counsel Makes Him Admit He Didn't Want Publicity

Reference to a conference with District Attorney Thomas C. O'Brien and an admission by Dr. Francis X. Mahoney, health commissioner, that he did not want publicity, featured the hearing today of Dr. Patrick H. Mullowney, suspended as deputy health commissioner, for failure to return Christmas gifts from the Richmond Live Poultry Company.

Abraham Kabitzsky, twice convicted in Boston courts, sent to Dr. Mullowney two $100 bills, a box of cigars and a turkey on December 24, along with the season's greetings.

When the hearing started Dr. Mahoney was presiding. Then at the insistence of Attorney Damon E. Hall of the firm of Hurlburt, Jones & Hall, the commissioner was sworn as a witness.

Attorney Hall, counsel for Dr. Mullowney, tried to get Dr. Mahoney to admit that the proper course of action was not to return the presents but to keep them as evidence against Kabitzsky.

DR. MAHONEY'S IRE.

This got the official goat of the commissioner and he roared:

"I was his witness. If he had returned the gifts as I ordered I should have been the responsible party."

Asked Hall: "Would you have advised him to return the gifts, if a representative of the district attorney's office had told him not to?"

"I should have wanted that in writing."

"You wanted this settled without publicity, didn't you?"

Dr. Mahoney grew red and shouted: "Why should we want publicity. I wanted to protect this department. I wanted Kabitzsky to know that no one need send gifts to get a square deal."

Previously Dr. Mahoney admitted

Boston American Is Again First; War Debt News a Beat

First news that the American Debt Funding Commission had agreed to an interest rate of 5 per cent. for the first ten years and 4½ per cent. thereafter was contained in an exclusive dispatch to the Boston American from David M. Church, London correspondent of the Boston American, on Saturday, January 27. Chancellor Baldwin made the terms public on his return to England.

STANDARD BOOSTS OIL PRICES AGAIN

Pittsburgh, Pa., Feb. 1 (By International News Service).—Standard Oil today boosted Pennsylvania, southwestern New York and West Virginia grades of oil from 10 to 25 cents a barrel at the wells. This boost is another step in the price-boosting war between Standard Oil and the independents.

A new style of quotations went into effect today, and Standard quotes prices handled by its various subsidiary pipe line companies rather than by grades, as heretofore.

New York transit is advanced 25 cents to $3.80. The following four companies' crude runs are boosted a dime to $3.65, it in reality being the Pennsylvania grade of crude: National Transit, Southwestern Pipe Line, Eureka Pipe Line and Buckeye Pipe Line.

The following three grades are advanced 10 cents and new prices are: Cabell, $2.61; Somerset heavy, $2.30; Somerset light, $2.55.

ATTACKS CHASE AS "LIAR"

Watch and Ward Man Near a Fist Fight With Dennis McGillicuddy at State House

The State House hearing on Mayor Curley's bill to transfer the licensing power of the city to the Mayor almost broke up today by what threatened to become a fist fight between Dennis McGillicuddy, president of the Massachusetts Liquor Dealers' Association, and J. Frank Chase, secretary of the Watch and Ward Society.

McGillicuddy called Chase a liar.

Lewis R. Sullivan, former member of the Governor's Council, accused him of sending "phoney" telegrams.

The trouble started when Chase, speaking against Curley's bill, said:

"In the old days liquor dealers tied up with the social evil ring. Don't give them a chance with this bill to go back to their evil ways."

Having thus delivered himself of his opinion, Mr. Chase started to leave the council room of the legislative committee on cities, where the

TURK PACT REJECTED BY RUSSIA

Curzon and Tchitcherin in Angry Clash at Lausanne Conference

Angora, Feb. 1. (By International News Service).—The Turkish Nationalist government, in a manifesto "to the Mohammedan world," explaining why Turkey would not yield Mosul oil fields to the British, contends they are part of the Turkish State.

Lausanne, Feb. 1 (By International News Service).—George Tchitcherin, people's commissar for foreign affairs in the Soviet government, formally announced today to the Near East Peace Conference that Russia rejects the Allied peace terms for future status of the Turkish Straits.

Russia wished to bar foreign warships from passage there, but the allies would not consent.

Marquis Curzon, head of the British delegation, told the conference he believed the Russians had been allowed to talk long enough.

"Their viewpoint is certainly known," said the exasperated British statesman.

Ismet Pasha, head of the Turkish delegation, had sought to reopen discussions of the Turkish Straits for the benefit of the Russians.

Tchitcherin demanded the subcommittee considering the straits give the Russians a hearing.

This drew Curzon's fire and he declared, "The Allies will not reopen the Turkish Straits deliberations."

"I serve notice, then, that Russia will not sign the Turkish Straits convention," responded Tchitcherin. "Russia does not consider that the Lausanne Treaty applies to her. She reserves all her just and legal rights to consider the Turkish Straits open to her until she signs a pact satisfactory to her."

Ismet said he would hand in the Turkish reply to all questions on Sunday.

France Reserves Right to Separate Treaty

London, Feb. 1 (By International News Service).—The British Foreign Office today received a note from France reserving the right to make a separate treaty with Turkey if the Lausanne peace conference breaks down.

Lord Curzon, British Foreign Secretary and head of the British delegation in the Near East peace conference, has notified the French and Italians that he will not remain at Lausanne after Sunday under any circumstances.

Pope Prays for Peace in Ruhr

Rome, Feb. 1. (By International News Service).—Alarmed over the Ruhr situation and possibility of war, Pope Pius XI. today issued an appeal for pacification.

As exclusively told by International News Service a week ago, the Pope is deeply anxious over conditions in Central Europe. He fears not only war, but a red wave of Bolshevism in Germany. He has conferred with members of the Vatican government and expressed the view that mediation should be attempted when the opportunity offered.

MEXICO TAKES LAND OWNED BY U. S. FIRM

Los Angeles, Feb. 1.—Nearly two million acres of land held by the Palomas Land & Cattle Company in the state of Chihuahua, Mexico, has been expropriated by a decree under Article 27 of the Mexican constitution, E. J. Marshall of Los Angeles, president of the company, announced. The land lies along the international border near Columbus, N. M.

CRAWL UP REDHOT FIRE ESCAPE, SAVE 13

New York, Feb. 1 (By International News Service).—With virtually all avenues of escape cut off thirteen persons had resigned themselves to death today during a fire in their home in Brooklyn. They were saved by heroic efforts of four policemen, who crawled up a hot fire escape and carried them down. The neighborhood was in a panic until the people were brought to safety.

SALESMAN VANISHES ON TRIP

Left New York Over a Month Ago, Supposedly for Boston, With Fortune in Jewels

New York, Feb. 1.—Police and detectives are searching New York and adjoining States for George R. Bruns, a salesman for the jewelry firm of Segman & Abrahams, who disappeared December 28 while in possession of jewelry samples valued at $100,000 belonging to half a dozen firms.

Bruns vanished after he had supposedly started on a business trip to Boston. He had with him a number of valuable diamonds which he was to sell on commission.

Among the firms which had turned jewelry over to Bruns for disposition to alleged customers are Hans Brasseler, $12,000; F. W. Reach & Co., $7,500; A. E. Betteridge, $3,000; Louis Gray, $1,000, and Eugene d'Avella, $900.

When Bruns did not returns after a reasonable length of time the jewelers compared notes and learned he had not been heard from in more than a month.

Police investigations revealed that a George Bruns and wife had registered at Hotel Pennsylvania on December 12 and remained there until

Continued on Page 2, Column 1.

BOSTON AMERICAN TO PRINT COUE'S 'DAY BY DAY' BOOK

The Boston American will commence publication tomorrow of M. Emile Coue's book, "Self Mastery Through Conscious Auto-Suggestion."

The sale of M. Coue's book was stopped even while the famous pharmacist of Nancy was lecturing on the platform of Tremont Temple.

Thousands of persons who tried to obtain the book as they left after hearing Coue in Tremont Temple were disappointed.

Each day the Boston American will give its readers a liberal installment of M. Coue's writings.

In addition the Boston American will publish each day comment on M. Coue's teaching by some prominent citizen. This is the only authorized publication of M. Coue's book. The Boston American will print the whole book.

Thousands jammed Tremont Temple during the three lectures given by the famous Frenchman. Thousands wanted to hear him but Tremont Temple could not accommodate any more. Every one will be able to read the theories of M. Coue, as explained in his book, in the Boston American.

Men and women of every creed and religion are interested in the man

Continued on Page 2, Column 1.

LATEST!

MULLOWNEY EXONERATED OF BRIBE CHARGE

Dr. Francis X. Mahoney, Health Commissioner, this afternoon, after a lengthy hearing exonerated Dr. Patrick H. Mullowney, suspended Deputy Health Commissioner, of any dishonesty in connection with his failure to return Christmas gifts of $200, box of cigars and a turkey. The commissioner said the suspension was for "disobedience of orders" and because he questioned "Dr. Mullowney's integrity." It is expected the case will go to the Suffolk Superior Court.

LAST OF RUSSIAN REFUGEE SHIPS IN

Manila, Feb. 1 (By Associated Press).—The last three belated Russian refugee ships arrived today, making a total of eleven now at Mariveles quarantine station. Admiral Stark, commander of the Vladivostok exiles, and his chief of staff, Captain Firmin, have been invited to the ball to be given tomorrow night by the Legislature in honor of Governor-General Wood.

THE WEATHER

Boston and Vicinity: Unsettled, probably snow or rain late tonight and Friday; not much change in temperature; moderate variable winds.

Sun rises at 6:53; sets at 4:58.
Moon rises at 3:13 p. m.
High tide at 10:38 a. m., 11:20 p. m.

Temperatures: Maximum, 39 at 10 a. m.; minimum, 30 at 9 a. m.; average, 31.5.

Light all vehicles at 5:38 p. m.

MELROSE SALESMAN DISAPPEARS WITH $100,000 IN GEMS

VANISHES ON TRIP TO BOSTON

Continued from First Page.

December 30. They gave as their address Melrose, Mass.

About the middle of December he is said to have paid his rent six months in advance at his home in Corona and told the janitor he was going away "on a long business trip." The family departed a few days later, just prior to the time Bruns left with the gems.

Mrs Herbert Page of Corona, a sister of Mrs. Bruns, today told of the manner in which the family left home and declared she could not account for their absence. She said she did not believe her sister had lived at the Hotel Pennsylvania during the period covered by the Bruns protection.

Hindenburg Brigade Formed to Resist "Annexation"

Dusseldorf, Feb. 1 (By Associated Press).—Dr. Gruetzner, President of Rhenish Prussia, in an interview in the Cologne Gazette, says he has information that the French wish to annex the Ruhr, and installation of their own customs system is the first step.

When this was called to the attention of French General Headquarters, officials replied it was probably for resisting annexation that a brigade of young men escaped from the Ruhr since occupation, organizing at Hanover under the name "Hindenburg Brigade." The French say this force numbers several thousand, fully armed.

LEXINGTON HOME OF PONZI ENTERED

The former residence of Charles Ponzi, Slocum road, Lexington, was entered, as was also the garage, it has been discovered. None of the costly fixtures had been taken. Two doors of the garage had been forced, as if by an axe.

WORK WILL TAKE FALL'S PLACE IN CABINET

(Copyright, 1923, by International News Service.)

Washington, Feb. 1.—Dr. Hubert Work of Colorado, who came into government service two years ago as an Assistant Postmaster-General, later succeeding Will Hays in the Cabinet, will be the successor to Albert B. Fall as Secretary of the Interior.

President Harding has informed friends that he intends transferring Dr. Work to the Interior Department, and the news is expected to stop the headlong rush that a dozen candidates have been making for the post, mostly Republican "lame ducks"—defeated in the November elections.

No final decision has been made on the Postmaster-Generalship, but in high Republican circles the expectation prevails that the job will go to Senator Harry S. New of Indiana, a warm personal friend and old colleague of the President's in the Senate. Senator New will retire from the Senate at the expiration of the present session.

Another candidate understood to be under consideration is Albert D. Lasker, chairman of the Shipping Board.

NEW TINTS IN ROUGE CAN'T BE WASHED OFF

ELEANOR OLDFIELD.

Hairdresser's model, showing, at right, latest fashion in milady's headdress, and at the left, applying the new "permanent complexion," which can be removed only by the use of alcohol. It comes in all colors.

COMPLEXIONS NOW MADE PERMANENT

Milady may now have her choice of eighteen shades of hair. She may change the color each week. And of more, if possible, moment "complexions that won't rub off" have been discovered.

Announcement of these latest boons to beauty was made at the closing session of the third annual convention of the Ladies' Hairdressers' Association in Horticultural Hall. A style show was the final feature of the event.

Members of the association admitted that there was one drawback to the usage of the new "permanent complexions." They may be compounded in all tints. They will survive severest tests of weather. They may be worn in swimming. The drawback is, however, that they can be removed only with alcohol.

Cases of intoxication from fumes of "complexion remover" may yet be clogging the police courts.

'ALIVE' BUT WILL BE PUT IN GRAVE

Phoenix, Ariz., Feb. 1.—The body of George W. Stevenson, pronounced dead by physicians eight days ago but declared by his family to be in a state of suspended animation, was prepared for burial after County Physician Harry J. Felch and City Physician I. L. Garrison had performed an autopsy.

Stevenson, formerly a physician, renounced medicine in favor of evolution, which led him to the belief that the mind controls the body even to the extent of enabling temporary departure of life in order that the body may be revivified with all the diseases eliminated.

Eight days ago Stevenson "passed out." Eight physicians pronounced him dead. Since then there had been no sign of animation. Yet the family insisted that he was not dead but merely in a state of "suspended animation."

BRITISH ACCEPT SETTLEMENT WITH RELIEF

By DAVID M. CHURCH
International News Service Staff Correspondent

London, Feb. 1.—Changes of government will not affect the British decision to pay the United States the British war debt upon terms imposed by the American government, it was formally announced today. Even if the Tory Administration should give way to a labor government (based upon economy and taxation decrease) the payments will be made on scheduled time.

"We owe the money to the United States irrespective of our opinion of the American terms and it is better to pay quickly as possible instead of quibbling," said Ramsay MacDonald, leader of the Labor Party and chief of the opposition in the House of Commons.

"We must pay quickly and we must pay with good grace.

"I cannot understand why the press and public have been carrying on about the debt we owe to the United States," said George Bernard Shaw, famous writer.

BANKERS RELIEVED.

"We borrowed the money and we must pay it. There seems to have been a number of irresponsible people who thought we might beg off or negotiate for a ridiculously low rate of interest. That is a foolish idea and no one with respect for his country would entertain it for a minute."

There was relief in banking circles that Great Britain had settled the debt question by accepting the American terms with the 3 per cent. interest rate. It is pointed out that 3 per cent. is a lower interest rate than could have been obtained from any other nation.

Bankers declare Great Britain is getting a better bargain and she realizes, in view of the fact that the United States government is paying 4¼ per cent. upon the money it obtained to lend to Great Britain, France and the other allies.

R. H. Brand, a member of Lazar Brothers, international bankers, praised the British decision. "We shall gain by it," he said. "Any nation or individual gains by living up to his word. It means a heavy burden, but we can and will pay in dollars."

BRITAIN WILL BENFIT.

British newspapers, almost as a whole, compliment the cabinet upon its speedy decision upon a troublesome international problem.

It is believed the following results will be apparent at once:

1—British trade will improve.

2—British credit will gain.

3—The pound sterling will rise probably to normal value.

The chief difficulty is taxation. It will be impossible for the government to reduce taxes although it may find means of keeping them at present level. It is possible that the government may attempt to raise a domestic loan to pay off the back interest on the American debt this year.

Debt Payments May Be $200,000,000 a Year

Washington, Feb. 1.—More details of the action toward funding Britain's debt to the United States were expected through diplomatic channels today and upon the completeness of these advices will depend how far the American Commission can go at today's meeting in outlining its next move.

Various estimates of the annual payments ranged from $135,000,000 to more than $200,000,000. The interest rate of 3 per cent. effective for the first ten years, would, on its face, mean a payment of about $135,000,000 a year, but other phases of the program may operate to change this amount.

AROUSED IRE OF DR. MAHONEY

Continued from First Page.

he did not know a gift to a public official can be construed as a bribe under the statutes; that he did not think Kabitzskey had intended the presents as bribes, but rather had intended to "make a good fellow out of himself."

Witness testified: "Inasmuch as his firm was just starting in business, I was willing to give Kabitzskey the benefit of the doubt." Then he acknowledged that he knew "Kabitzskey had been in court twice."

HOW THE GIFTS CAME.

Dr. Mahoney gave his version of Dr. Mullowney's report to him of how the gifts had come to his house and how his daughter had opened the package. He said:

"He asked me, 'Do you think I am being framed?' I said: 'I do not know, what makes you think so?' Then I said to him: 'If I were you I would send everything back to protect myself and have witnesses and get a receipt, if this is possible.' He didn't return the gifts and I suspended him for failure to carry out my orders."

Hall, in cross-examination, sought to bring out that Dr. Mahoney had suspended Dr. Mullowney for "failure to obey the instructions 'If I were you I would send everything back to protect myself' plus the alleged failure to do so." He failed.

REPORTER TESTIFIES.

Henry Bird, reporter for the Boston Herald, testified to an interview with Dr. Mullowney. He asked Dr. Mullowney why he had failed to carry out Dr. Mahoney's order to return the gifts. Dr. Mullowney replied he was waiting for certain papers to be signed. Bird quoted Dr. Mullowney as adding:

"As the turkey was perishable I ate it and gave a money order for its value to the Finance Commission."

ATTACKS CHASE AS "LIAR"

Continued from First Page.

hearing was being held. McGillcuddy leaped to his feet and yelled:

"Wait a minute. I've got something to say before you leave here. When you say the liquor dealers tied up with the vice ring, you speak a deliberate lie.

"I am also opposed to the bill transferring the licensing power to a Mayor, and particularly to the present Mayor. But what you said was a lie."

Chase shrugged and left the room. McGillcuddy followed him into the corridor, grabbed him by the arm and repeated the statement that what Chase had said was a lie.

BIG MEN FACE EACH OTHER.

Sullivan appeared at this moment and said:

"Chase is the man who sent phoney telegrams to the legislature to vote against the Sunday Baseball Bill. What can you expect from a guy like that?"

A crowd gathered. Chase is a big man, in splendid physical condition. It is not generally known he was a football player at Harvard in his youth. McGillcuddy is even larger in size and girth.

Somebody stepped between the two men just as it seemed that McGillcuddy was preparing to swing on Chase. Chase shook McGillcuddy's hand off his arm and beat a dignified retreat to the elevator.

Coue Bags And Beads New Fad

FLORA WHITE.

Have you bought your Coue handbag, girls? They've just come to town and are quite the rage. Just imagine what a boon one is at a bargain rush. Some one tramples on your corn. You stop, open your Coue handbag, take out the Coue beads that are sold with them and repeat soothingly, but firmly," I feel no pain, I feel no pain." Miss Flora White of Cambridge is shown above with one of the new bags.

WILL PUBLISH COUE BOOK

Continued from First Page.

who has made famous the slogan—"Every day, in every way, I am getting better and better."

Mary Garden, famous star of the Chicago Opera Company, says that Coue's teaching cured her of a serious throat affliction weeks before she ever set eyes on the author.

Can reading his book, as Mary Garden did, cure you?

Coue says that our unconscious self presides over all our actions, whatever they are.

He is not a doctor, he does not claim to be a professor. He is just plain Coue, as he says himself. But plain Coue has set millions of people in the world talking of him and his theory, which he says, is as old as the Gospel of St. Paul. Hundreds of thousands of persons are following his teachings. Not one-half of one per cent. of these hundreds of thousands have ever seen him.

They are following his teachings through his book.

This is the book which will be published in the Boston American.

The first instalment will appear in the Boston American tomorrow, and thereafter "day by day." Order it in advance of your newsdealer.

Mary Garden Suggests Coue Institute Here

Boston may have an institute for the teaching of the auto-suggestion doctrines of Emile Coue, author of the now famous "day by day in every way," for no lesser person than Mary Garden, prima donna of the Chicago Opera Company will make the suggestion to the little chemist of Nancy.

It has been reported that a part of the profits of M. Coue's present tour will be devoted to the establishment of Coue centres in different parts of the country. Just before leaving the city M. Coue expressed himself as "greatly pleased" with his reception here.

Furthermore, he has a very high regard for Miss Garden and is one of his most enthusiastic admirers, and who intends going to his own central Institute in France in March for several weeks.

Accepts Pastorate

Rev. Francesco Argento has accepted a call to the pastorate of the French Protestant Church which holds its services in the Central Congregational Church, Newbury street.

COUE'S SERVICE IS PRAISED BY FR. CORRIGAN

Coue has done a great service to humanity, says Rev. Jones J. Corrigan, S.J., Boston College, but there is danger of a hysteria of auto-suggestion.

Father Corrigan was addressing a large meeting of the League of Catholic Women at the League House, No. 1 Arlington street. His subject was "Psycho-Analysis and Auto-Suggestion."

Coue's great service, said Father Corrigan, is in reasserting and re-establishing in the world the principle that suggestion and mental attitude have a direct bearing on body health.

Psycho-analysis, he said, is a science confined mainly to phenomena of the soul or mind.

He urged utmost care in bringing up children to the end that they may not be unduly frightened or given the impression that they are mentally inferior because, the speaker said, early impressions on the child mind often have lasting results that are serious.

The Freudian theory of psycho-analysis was denounced for its degrading philosophy of life.

Of auto-suggestion Father Corrigan said the coming of Coue is likely to bring about a hysteria of auto-suggestion propaganda among persons not familiar with the Coue theory or practice.

This mysteria, he went on, may go so far in instances as to induce many persons to discard the services of doctor or physician, which, he said, Coue never intended them to do.

GALLIVAN WILL GO IF HE HAS TO CRAWL

By Cosmopolitan News Service.

Washington, Feb. 1.—"I will go if I have to crawl all the way," is the way Representative Gallivan of South Boston, Mass., today expressed himself, after he had received an invitation from the New York American to become one of a party being arranged by that paper and at that paper's expense to travel by special train to Savannah, Ga., for the purpose of welcoming, on or about February 7, the American troops who are returning from extended duty on the Rhine.

But Gallivan will not have to crawl to Savannah. He couldn't if he wanted to, for he has been for several weeks undergoing a severe siege of rheumatism which is now letting up.

Secretary of War Weeks, so Gallivan said, announced some days ago that he would not go to Savannah to welcome the returning soldiers, and this was today confirmed by Weeks' office where it was said that the secretary would not leave Washington during the remaining days of Congress.

At Weeks' office it was learned, however, that General Pershing is to go to Savannah to give the glad hand of welcome to the boys.

DYING IN FALL FROM 'L'

Continued from First Page.

They declare that the position of the body does not indicate that Lawson either jumped or fell from the elevated, but they are confronted with the facts of a fractured skull and other injuries that could have been caused only by a fall from the height of the structure.

Investigation among Eglseton square station and Elevated train employes failed to reveal any knowledge of Lawson prior to the finding of his body. It having been first assumed that he either leaped off the rear of an Elevated train or from the structure itself.

Deepening the mystery is the firm belief of Mrs. Lawson, who lives with her husband at No. 39 Wilmer terrace, Lynn, that he had no knowmotive for suicide. She stated that he is a mechanic in the employ of the Boston & Maine Railroad and that she did not know of any reason why he should have been in the vicinity of Eglseton square. The Lawsons have a three-year-old child.

Ball Commissioner Roxmiller and his companion, Christie, carried Lawson from where they found him, some 75 feet beyond the station platform, to a nearby drug store. Thence he was taken to City Hospital, where it is believed that he has only a slim chance for recovery.

Identification was made from papers in Lawson's pockets. His wife was notified and is now at his bedside. She believes that he was either struck by an automobile or assaulted by robbers. Lawson was supposed to have been at work at the time of the finding of his body.

Mrs. William G. Bell of No. 2 Emery terrace, the woman who saw the body falling through the air, is insistent that it must have dropped from the elevated structure.

Plain French Words A Whispering Society Money Makes Peace

—By Arthur Brisbane—

Copyright, 1923, Star Co.

DE GOUTTE, French general, understands words and their meaning, uses them clearly:

"We came here to impose our will on Germany, and we shall stay until we have done so and broken her opposition."

The question that remains is, "How long will it take to break German opposition under the circumstances of disarmament?"

"AN INTENSELY Nationalistic German secret society," with "tatained German blood as the supreme test for eligibility" is started in Germany. The call reads: "Whisper your runic symbol. Call together all earnest champions of light and right."

A "whispering society" may be intensely patriotic, but these are days of long range guns, poison gas and flying machines. Whispering won't work as it used to.

MONEY, triumphant, makes war, and money, when it feels weak and flappy, may help to make peace. The French franc yesterday dropped below 6 cents. It was as low as 5.77. If it drops a little more peace may come nearer.

There is no money in Germany worth stealing except a little gold, which wouldn't amount to much, wouldn't pay for the French expedition.

Nothing will pay from now on but real work, economy and reconstruction. Pirates landed on a desert island must hunt goats and pick cocoanuts—they can't get much out of each other.

ENGLAND AGREES to the American plan for funding her debt to the United States.

For England that is better than for the United States, although we can use the money.

This country gives England sixty-two years to pay the debt, makes the interest only 3 per cent. for the first ten years and 3½ per cent. afterward. Our own government can't borrow at that price. If England went to the open market to borrow five thousand millions, she would borrow at 6 per cent. and her bonds would fall below par, as ours did when patriots were buying them at the urgent request of patrioteers.

THE DUKE OF YORK, son of the English King and soon to be married, will play a golf match with Frank Hodges, secretary of the Coal Miners' Union, on the miners' own golf course.

The Duke marries outside of royal blood and plays golf with a labor leader. That is "getting back to the people." England's rulers are adaptable and so they survive some others.

WE ARE REALLY getting close to practical flying. The government has agreed provisionally upon "rules of the road for air traffic." Flying machines when they land will have the right of way over everything, including pedestrians and vehicles, on the earth. The same with planes ready to start.

Look out for the flying machine; it won't look out for you.

By and by you will see human crowds scattering when a machine comes down as you used to see chickens scattering when the hawk made his swoop. Planes meeting in air will turn to the right; they mustn't dive over or under each other.

DIRIGIBLES will have the right of way over airplanes; balloons not dirigible will have the right of way over both. Flying men must not drop anything but ballast, and that must be water or fine sand.

All this will be more commonplace to our children, who will fly a great deal, traveling only short distances on the earth's surface, as you see birds walk.

THE INTERSTATE Commerce Commission tells the railroads they must issue mileage tickets at 20 per cent. below regular fares, good on all roads. The railroads weep, but shouldn't. Their trouble is prices too high. The difficulty facing them is the cheap motor

Continued on Page 11, Column 5.

VALENTINO TO STOP USE OF HIS NAME

RODOLPH VALENTINO

JEAN ACKER

New York, Feb. 1.—Rodolph Valentino will take legal steps to prevent his first wife, known on the screen as Jean Acker, from using the name of Mrs. Rodolph Valentino when she returns to finish her vaudeville engagement at the Palace Theatre. This statement was given out by Arthur Graham, attorney for Valentino.

Mr. Graham also replied to the published statements of Jean Acker's friends that Valentino had obtained his divorce while she was ill, out of work and unable to answer his charges of desertion. Mr. Graham said:

"Miss Acker left Valentino almost immediately after their marriage to go back to live with a young woman friend with whom she had resided before the marriage. Valentino tried unavailingly to persuade her to return to him and she did return once, a month or two later, but immediately left him again to reside with her young woman friend. At that time Miss Acker was prominent and in receipt of a large income and Valentino was obscure and poor.

"Later an action was instituted, each side asking for a divorce from the other on the ground of desertion. The court, after hearing Miss Acker and her witnesses, granted a divorce to Valentino, disallowing his wife's claim for alimony. Valentino thereafter agreed to pay her that sum. She now has no claim on him whatever, legal, moral, or otherwise."

5 ARE BURNED BY FIREBUG AT SPRINGFIELD

Springfield, Feb. 1.—Five persons were burned painfully today in a fire which destroyed some stores and a two-family house on Hancock street.

Damage was $40,000. The fire was incendiary in origin. An entire family was saved by the alarm spread by a cellie dog.

The injured:

Captain Richard L. Bolton of the Walnut street fire station, burned about the arms and hands.

Hoseman Joseph B. Cullen of the same station, burned about the hands.

Mrs. George Ernshaw, burned about the legs.

Her fourteen-year-old daughter, Frances Gevons, burned about the face.

Leo Kuhn, No. 199 Pendleton avenue, burned about the face and hands.

Captain Bolton, Hoseman Cullen and Kuhn effected heroic rescues.

Evidence that the rear of one of the stores destroyed had been soaked in kerosene lead to the incendiary theory, which is being investigated by the police.

The property destroyed consists of three stores and residence, Nos. 132, 134 and 136 Hancock street. Mrs. Ernshaw, her daughter, Frances and her ten-year-old son, Albert, live on the second floor of No. 132.

They were sound asleep when they were aroused by the frantic barks of the dog, "Scorry."

Escape by way of the stairs was cut off by the leaping flames.

Ladders were placed against the building. Mrs. Ernshaw is an invalid and could not move. She was carried out of her bed and down a ladder by Captain Bolton.

Frances was rescued in the same manner by Fireman Cullen. Kuhn, a civilian, seeing that the two firemen had been burned, climbed the ladder, got into Mrs. Ernshaw's flat and brought down Albert.

Arrests are expected to follow the police investigation of the fire.

FINED FOR WEARING MASONIC EMBLEM

Harry Smith of No. 286 Broadway street, and Ira Einstein, of No. 25 Monroe street, Lynn, both Masons grew tired of seeing Benjamin Morris, shoe dealer of No. 81 Monroe street, Lynn, wearing a Masonic emblem to which he was not entitled. They looked up the law, and today Morris was fined $20 in the Lynn court for unlawfully wearing the insignia, after his attorney had admitted that the facts were as Smith and Einstein stated. He paid.

Syracuse, N. Y.—Flying squadrons of the Syracuse district prohibition enforcement staff today seized a carload of beer on a railroad siding, confiscated 117 barrels of beer in a creamery and raided two hotels in Elmira.

NEW RHINE STATE IS PLANNED

Teuton Separatists, Berlin Announces, Are Agitating for Republic

Paris, Feb. 1 (By the Associated Press).—The French government has received information that the striking German railroad employes in the Ruhr had been paid two months' wages in advance by the German government. It is anticipated, therefore, they may hold out several weeks.

Paris, Feb. 1. (By International News Service).—The Allies (France and Belgium) are preparing to separate the railroads in the Rhineland and Ruhr from the rest of Germany, making them into an independent autonomous organization, L'Ouvre announced today.

This is believed to be the first definite step towards creating a new State in the Rhineland.

Berlin, Feb. 1.—Separatist agents and agitators in the Rhineland, in conference at Coblenz since the departure of the American troops, have been drafting plans for the proclamation of a Rhineland republic, says a Coblenz dispatch.

The contemplated coup is to be carried out with the aid of the French and Belgian military forces who will promptly proceed to proclaim martial law, seize all lines of communication and evict the German officials, the dispatch adds.

All Coal and Coke for Germany Is Cut Off

Duesseldorf, Feb. 1 (By the Associated Press).—The order prohibiting the export of coal and coke from the Ruhr to unoccupied Germany has been in force since midnight.

The French announce that should Germany fail to come to terms the interdiction upon exports will be extended to steel, iron and other manufactured articles now permitted to enter Germany.

The general railroad strike is effective at Mayence and Cologne and throughout the entire Ruhr Valley. One train daily, worked by French crews, is dispatched from Paris to Mayence, another from Paris to Cologne and a third from Paris to Coblenz and return.

At Ingersheim yesterday the Paris-Mayence express was switched off onto a blind siding, but the engineer succeeded in applying the brakes in time to avert a catastrophe.

With all the Ruhr customs posts, as well as many large warehouses in their possession, the French find that coal production is being considerably reduced.

Yesterday's production, slightly more than 50,000 tons, is less than half of the usual amount, and was the poorest showing for any day since the occupation began three weeks ago.

The patrols of French soldiers which have been enforcing law and order in the streets of Duesseldorf since the demonstrations of last Thursday were removed this morning. The curfew hour has been made 11 p. m., instead of 10 o'clock as formerly.

KIDNAPED IRISH SENATOR IS AGAIN FREE

Dublin, Feb. 1 (By Associated Press).—Senator John Bagwell, general manager of the Great Northern railway, who was kidnaped Tuesday night, is again a free man, it was officially announced today.

Whether he was released or escaped was not revealed. The Senate officials were simply told he was free.

Minister of Defence Mulcahy issued another proclamation today in which punishments are set forth for violations under the recent army order designed to prevent attacks against the army and the Free State.

The proclamation gives a last opportunity to those possessing documents, uniforms and plans for subversive operations to surrender them to the military authorities.

Dublin, Feb. 1 (By International News Service).—Many Republican leaders have been arrested in the last twenty-four hours and martial courts were busy today trying the prisoners. It is believed there will be many executions tomorrow.

Free State troops were defeated in a three-hour battle at Leitrim today. The Republicans captured the garrison and commandeered a train, departing with their prisoners for the mountains, after blowing up the Leitri railway terminal.

The gas supply of Tralee has been cut off by irregulars. This is said to be without bread and the industries are idle.

London, Feb. 1.—Reports from Dublin said "Republicans had blown up the home of Stephen Gwynn, principal lieutenant of John Redmond. The Free State Army Post, recently established at Baltimore was attacked by a Republican detachment and the garrison of thirty men captured.

New Brunswick, N. J.—Lew Dockstader, minstrel and vaudeville favorite, needs only a few days of rest to recover from a fall on an icy sidewalk here. Injuries to his back were not serious, as was thought at first.

DENOUNCES TRAINED NURSES

Medical Magazine Editor Attacks Them as Vulgarians and Profiteers

New York, Feb. 1.—The woman trained nurse is "crammed to the gullet with false pride and the self-learned tricks of a menial trade, inconceivably coarse as to mind and manners, in a word, a vulgarian."

According to the leading editorial in the February issue of the Medical Review of Reviews the editor and publisher of the Review, Frederic R. Robinson, says the editorial should be "of interest both to the admirers of the nurse and those who have groaned beneath her iron dominion."

The editorial declares that "drawing as does this profiteer on illness a salary twice the check paid many a college professor—her minimum charge is $8 the day in addition to all expenses such as board, lodging, laundry and traveling fees—she demands besides, what a shop girl would scorn to listen to: constant encomiums on her ability, flattery, sweet words and bribes of every kind.

"The modern nurse has been so much fussed over. The Medical Review of Reviews would sponsor a campaign to restore her to her moral equilibrium and her rightful place in the shade. Her rightful due is not more than $15 a week."

"A physician invariably adjusts his fees to the purse of the patient, but a member of this hardened-to-it sorority will not hesitate to desert a woman in child-birth if she is uncertain that her money will be forthcoming."

The Review charges, "upon the dangers which patients run by having attendant upon them one whose addiction to drugs is not the least of her frailties we shall not dwell."

AGENT WHO FAILED TO HEAT FACTORY FREED

Solomon Gross, agent for the property at Oxford and Washington streets, Lynn, was discharged in Lynn court today for failing to keep the shoe factory at that address warm enough when his attorney showed that the Board of Health regulation requiring a proper temperature had never been approved by the attorney-general. Last week more than 500 employes of the factory were obliged to quit work because of the cold. City Solicitor Patrick F. Shanahan argued that convictions for failure to heat the building had been secured in Boston, but Gross' attorney declared that the statute under which such convictions were secured expired today.

TWO COTTON BALES CRUSH TRUCK DRIVER

Two bales of cotton, weighing 1,000 pounds, fell on Jeffrey Allen of No. 1 Albion Place, Dorchester, in front of the Lynn Storage Warehouse on Wheeler street, Lynn, today, possibly breaking his back. Allen, who was chauffeur of the truck from which the cotton was being unloaded, was doubled up under the heavy bales. He was taken to the Lynn Hospital and X-rays taken of his back.

BULLETINS

Vladivostok, (By Associated Press).—Eight thousand Russians have been listed for deportation to European Russia. Most of them are former officials and sympathizers with the old Czarist regime.

Rome, (By International News Service).—The Tribuna and Mondo, opposing the Mussolini government, urged Italy to separate from the French and have nothing to do with occupation of the Ruhr.

Berlin (By A. P.)—The coal merchants of Kiel, according to the Vossische Zeitung, have decided not to deliver bunker coal to French or Belgian ships passing through the Kiel Canal.

54,000 Marks for $1 Today's Rate in Berlin

Berlin, Feb. 1 (By International News Service).—It was possible to obtain 54,000 German marks for one dollar in private transactions today. The normal pre-war value of 54,000 marks was $12,960.

Concord, N. H.—The building of the George H. Bartemus Company hay and grain dealers, was destroyed by fire early today. Damage is estimated at $15,000.

BABY DOLL' MUST RIDE IN LIMOUSINE

"BABY DOLL" BAKER

Girl involved with "Romeo" McGovern of Boston police brought back from Providence without formality of extradition. Courteously escorted to house of detention by Capt. Skillings in his limousine.

LOCKED UP IN POLICE OFFICE

Captain Skillings, Who Furnished Limousine to Take Her to Jail, Bars Everyone

"Baby Doll" Baker, looking not half of her thirty years, was locked up in the office of Captain Perley Skillings at the City Hall avenue station.

Reporters who wished to interview the Russian-booted, exotic young wife of Harry Baker, now doing life for murder, were barred from Captain Skillings' office.

Neither Joffre, nor Coue, nor any other dignitary recently visiting Boston, has been the recipient of so much municipal courtesy as has been accorded this piquant girl, who began her police record under the monicker of "Norwegian Nellie" Nelson. She's had everything except a key to the city.

Unquestionably there is a Senegambian in the woodpile.

What the big idea is—that's a mystery. But the facts are these:

FLED FROM BOSTON.

"Baby Doll" left Boston about the time Patrolman "Romeo" McGovern was arrested for his tempestuous romance with her. He was suspended from the force. His case came up recently before Municipal Court Judge Brackett.

McGovern was discharged in the face of a statement by Judge Brackett that the evidence clearly pointed to guilt.

Then, out of a clear sky, "Baby Doll" was found in Providence.

She was brought back to Boston today in the flivver of the City Hall police station. She was treated like a queen. When it was found desirable to take her to the House of Detention, she was conveyed there in Captain Skillings' own limousine.

But in Providence she made the statement that she had been given $100 to get out of Boston and to stay out of Boston and the State of Massachusetts during the trial of McGovern.

MYSTERY IN CASE.

In Providence she tried to kill herself by taking poison. She took an overdose, which saved her life.

Why did she attempt suicide?

Who gave her the money to get out of Boston?

These are two of the mysterious phases of the case.

Today she was taken before Judge Brackett, and Captain Skillings requested that her case be heard. In Providence she admitted she had been able to live free at a hotel by vamping one of the hotel clerks.

Judge Brackett hinted that the hearing should be conducted by Judge Burke.

She was taken before Judge Burke, pleaded not guilty, asked for a continuance—and the case against her was dismissed.

She was then taken to Captain Skillings' office. She was locked in. Reporters were denied permission to question. Captain Skillings refused to say what her status was, or why she was being held further in view of the dismissal of her case.

PATIENT HITS MATRON AT CITY HOSPITAL

Miss Eliza Foster, a matron at Boston City Hospital, was walking along one of the Ward K corridors today, when she was seized violently from behind.

Screaming, she struggled desperately to free herself from the grasp of William Crumm, a patient who was admitted to the hospital Sunday suffering from alcoholism.

As the two battled in the corridor supervisor James J. McDonald came on the run. McDonald seized Crumm and after a sharp struggle wrenched him away from the woman. Then McDonald made Crumm return to be bed, where watch was kept on him.

Crumm is twenty-four years old, colored, and lives at No. 17 East Lenox street, South End. Miss Foster is colored.

MRS. SOLOMON MYERS, OF ROXBURY, DEAD

Mrs. Solomon Myers, thirty-seven, prominent in Jewish philanthropic and charitable work, is dead at her home, No. 14 Esmond street, Roxbury, after a brief illness. Mrs. Myers was treasurer of the Roxbury Ladies Aid and Fuel Society. Her husband is a prominent Boston clothing merchant. Three children, Stanley, fifteen; George, thirteen, and Dorothy, nine, survive. Funeral will be held from the family residence tomorrow. Rabbi H. H. Rubenovitz Mishkan Tefila, Roxbury, will chant the service.

LAND SQUARES IN WALES CAUSE ALARM

Cardiff, Wales, Feb. 1 (By International News Service).—Reports of Welsh earthquakes have been current for twenty-four hours as the result of land collapses. They are believed to have been due to coal and tin mining operations. Residents of the town of Abertillery were alarmed by a sinking sensation. They rushed from their homes in panic. No damage was done beyond the collapse of a few buildings. A similar occurrence took place at Llanhilleth.

WOMEN MUST GO BACK TO THE CORSET

New York, Feb. 1.—Leon Bakst, Russian designer, just over from Paris, startled delegates and representatives of the organizations comprising the New York City Federation of Women's Clubs by declaring that American women must return to corsets.

With the "back to the corset" movement divinities with curves will retire in favor of the meagre Diana or Artemis, Bakst said. For women will make themselves look thin by use of dark colors and vertical designs.

"One finds a thousand graces in his voluntary imprisonment of the body," he said. "The woman is truly too much at her ease in the costume of today and such an attitude on her part is rarely able to satisfy for long art or taste.

"The svelte form of which the poet sings is obtained by artifice. Something tells me that to give an impression of grace and beauty it is necessary to be inconvenienced and to suffer and resort to artifice."

The silhouette was called by Bakst the "touchstone of the costume." This, he said, is never staple, but has been continually changing from a triangle with a large base to an exactly opposite figure.

"If one succeeds with the silhouette, that is what is most essential," he asserted. "Unfortunately, few women realize this. They think of their face, their hands, their feet, rather than of the general outline."

GERMAN ACTORS ARE BARRED IN FRANCE

Paris, Feb. 1.—Light has been thrown on the recent measures taken to drive German and Austrian performers from the French stage. Of forty-eight such performers who were engaged in Paris twenty-eight have returned to Germany and the remaining twenty are no longer appearing. A unanimous vote was taken that German attractions should not be allowed to appear for four years.

SOVIET ENVOY JOFFE ARRIVES IN TOKIO

Tokio, Feb. 1 (By the Associated Press).—A. A. Joffe, envoy plenipotentiary from the Soviet government to the Far East, arrived in Tokio today. He announced he had come for his health, at the invitation of Mayor Goto.

It is significant, however that Toshihiko Kawakami, Japanese minister to Poland, recently traveling by the Trans-Siberian Railway to investigate conditions in Russia for the Japanese government, has just arrived also.

A number of Socialists who scattered handbills at the station upon Joffe's arrival were arrested.

NEW 'TOSCA' IS SHOWN BY MUZIO

By ZOE FABER.

A "Tosca" new to the eyes and ears of Boston appeared at the Opera House last night when Claudia Muzio sang the role.

There have been Toscas and Toscas, but those who listened and watched the fascinating development of that famous character last night, will not for some time forget that they were held enthralled.

The opera was a distinct triumph for Muzio—the poet, with the exception of Cesare Formichi, as Scarpia, did not make any great impression one way or the other.

It was a night for Muzio and Formichi and they made the most of it—to the unending satisfaction of the audience.

Giulio Crimi sang Cavaradossi and he sang it decidedly better than he did last week. His aria in the last act (the apostrophe to Tosca) was a thoroughly good bit which carried with it an emotional touch that is not always present in the singing of this tenor.

The orchestra was under the baton of Pantzer, who made the honeyed melodies of Puccini sing their way into one's heart, whether or no.

Edith Mason Is Heard in the "Snow Maiden"

ZOE FABER.

Silk and satin costumes of the most brilliant reds, greens, cerulean blues and gold and silver stood out against a background which were Russian, painted in with a most exotic brush. Praise be to the artist whose imagination gave him such pictures and a management which would give him rein to express himself.

The fairy Snow Maiden, white from top to toe, was sung by Edith Mason and it seemed to us finer than her Mimi. That is to say, her voice was more appealing in this role. She did splendid work and was applauded sound and long.

BAKLANOFF SINGS WELL.

Mizguir was splendidly interpreted by Georges Baklanoff. The music is well suited to his thoroughly enjoyable voice and he seemed to enjoy his work immensely.

The old peasant couple, who were such an unalloyed joy in the recent Russian production were lacking in comparison as they appeared in the performance of the "Snow Maiden," by the Chicago Opera Company yesterday afternoon. Desire Defrere did all that he could to make it go with a swing but Maria Claessens is not at her best in anything that borders on broad comedy.

BIRDS IN PROFUSION.

Some perfectly fascinating dancing was done, especially dancing that was of the characteristic Russian type. All sorts of birds, from the naughty eagle to the little brown thrush, flapped their wings and hopped around in the opening scene. It was a difficult thing to make effective instead of ridiculous.

Rimsky-Korsakoff's music was once more charming under the baton of Richard Hageman.

Cyrene Van Gordon sang the "Spring Fay" role delightfully.

WINCHESTER TO HAVE MOTORCYCLE OFFICER

In order that the residents of Winchester may have more adequate police protection, especially in the outlying districts, the citizens of the town will be asked at the coming town meeting in March to vote on the question of appointing a motorcycle officer. All the members of the Board of Selectmen are backing the proposal as is Chief of Police William R. McIntosh.

BLUE TRIANGLE GIRLS TO GIVE EXHIBITION

A unique program showing the health-giving activities carried on at the Y. W. C. A. Blue Triangle, will be staged on Friday night by the girls who are enrolled in the gymnasium classes. The exhibition will take place in the large Triangle gymnasium and is open, free of admission, to the public. The events will be under the direction of Miss Ruth Page Sweet.

BABY'S LEG BROKEN BY BOY COASTER

Richard Wallace, two and a half years old, of No. 23 Ninth street, Charlestown, is at the City Hospital with a fractured leg. While on Monument avenue, Charlestown, with his brother, Master Ray Wallace, he was hit by a boy coaster. The baby was unconscious for a short time.

AUTO TRUCK FELLS MAN IN NEPONSET

While crossing the street at Neponset avenue and Victory road, Neponset, Sheldon Andrews, nineteen years old, of Princeton, Me., was struck and knocked down by an auto truck operated by Edward Herbert of No. 10 Willow place, Roxbury. At City Hospital he was found to be suffering from cuts and bruises about the head and a slight concussion of the brain.

Free to Asthma and Hay Fever Sufferers

Free Trial of Frontier Method That Anyone Can Use Without Discomfort or Loss of Time

We have a method for the control of Asthma, and we want you to try it at our expense. No matter whether your case is of long standing or recent development, whether it is present as Chronic Asthma or Hay Fever, you should send for a free trial of our method. No matter in what climate you live, no matter what your age or occupation, if you are troubled with Asthma or Hay Fever, our method should relieve you promptly.

We especially want to send it to those apparently hopeless cases, where all forms of inhalers, douches, opium preparations, fumes, "patent" smokers, etc., have failed. We want to show everyone at our expense, that our method is designed to end all difficult breathing, all wheezing, and all those terrible symptoms.

This free offer is too important to neglect a single day. Write now and begin the method at once. Send no money. Simply mail coupon below. Do it Today—you even do not pay postage.

FREE TRIAL COUPON

FRONTIER ASTHMA CO., Room 444T Niagara & Hudson Sts., Buffalo, N. Y.

Dandruff Surely Destroys the Hair

"USE LIQUID ARVON"

Girls—if you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you don't.

It does no good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arvon; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger tips.

By morning, most if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find, too, that all itching and digging of the scalp will stop, and your hair will look and feel a hundred times better. You can get liquid arvon at any drug store. Four ounces is all you will need, no matter how much dandruff you may have. This simple remedy never fails.

START FIGHT TO UNIONIZE W. VA. COAL MINES

New York, Feb. 1 (By International News Service).—Another intensive effort to organize the non-union miners of Logan county, West Virginia, will be attempted by District No. 17 of the United Mine Workers of America, it was announced today.

The last attempt to organize that field resulted in a protracted civil war which necessitated the calling out of Federal troops. More than 100 persons were killed during the fighting at that time. Efforts to enter it by union organizers invariably have resulted in the union men being repulsed, sometimes with loss of life.

There are over 20,000 non-union miners in the county.

The procedure to gain entrance into Logan county in this latest effort is through the law courts, the American Civil Liberties Union announced.

Attorneys for the Mine Workers' Union and the civil liberties group have gathered in Charleston, W. Va., today to make application for a Federal injunction to restrain Don Chafin, the sheriff, his deputies and the coal companies from interfering with the officers of the United Mine Workers in their efforts to enter and hold meetings in Logan County.

The injunction will also ask that the Logan County Coal Operators' Association be compelled to stop paying salaries to deputy sheriffs.

The injunction which the attorneys will ask for is based against intimidation, harassing, beating and assaulting union agents exercising their lawful rights in Logan County.

REV. E. J. VAN ETTEN CALLED TO TRINITY

The Rev. Edwin J. Van Etten, rector of Calvary Church Pittsburgh, has been called to the rectorship of Trinity Church, Copley Square, succeeding Bishop Alexander Mann.

Rev. E. J. Van Etten.

Dr. Van Etten was formerly assistant minister at Trinity Church and while there was one of the most popular of the younger preachers in the diocese of Massachusetts.

BIG BONUS FOR DURANT EMPLOYES

New York, Feb. 1.—If the workers in the Durant Motors Company plant at Long Island City turn out as many cars this month as in January, they will be given a 75 per cent. bonus.

"Miss Lawrence"

LEAH PELLETIER
Photo by Silverthorne.

The title of "Miss Lawrence 1923" awarded at the annual Newsboys' ball at Lawrence, went to Miss Leah Pelletier of No. 19 Franklin street, that city. The judges were F. H. Townsend of Worcester, Arthur Giles of Methuen and John Keany.

GOV. REILY TO QUIT WEEKS HINTS

Washington, Feb. 1.—Early retirement from office of E. Mont Reily, whose administration as Governor of Porto Rico has been attended by continual controversy in and out of the island, was forecast today in official quarters here.

Secretary Weeks said because of the condition of Governor Reily's health he "may not stay" in Porto Rico, although it is still his intention to return there.

General Clarence R. Edwards will be sent to Porto Rico to replace Reily, and Colonel Thomas W. Miller will succeed Forbes as head of the government's veteran activities.

General Edwards, who has had considerable experience as a colonial administrator, is understood to be acceptable to the Porto Ricans, who have conducted an unceasing drive to oust Governor Reily.

Plymouth	11:29	:05

F. M. Conine of Providence makes complaint that monthly ticket passengers on the New Haven railroad on the electrified line from Providence to Fall River are obliged to walk a mile or pay extra fare. His letter to the American reads:

"Why is the road allowed to issue a monthly ticket, collect money for the same, then take passengers within one mile of Fall River, to Brayton station, where one is requested to leave the train and walk because the drawbridge at that point is out of commission and has been condemned for the past five years?

"The take your money for passage and require passengers to walk the last mile. If the train runs through to Fall River and a person gets aboard at Brayton station and rides the mile to Fall River, he is charged ten cents for a one-mile ride. Why are they allowed to sell tickets and haul people over a bridge that has been unfit for service for the past five years?"

PATIENT LEAPS 3 STORIES TO DEATH

New York, Feb. 1.—William Hamme, twenty-five, a patient at Long Island College Hospital in Brooklyn, left his bed today and leaped three stories to death in the courtyard. He had been suffering from pneumonia.

The last time this sale was held was in August last year.

The next sale of the kind will not be held until next August—six months from now.

Choice of the House

Nothing Reserved—Except, as Usual, Fur Coats, Dress and Tuxedo Suits and Chauffeurs' Liveries

Semi-Annual Sale of MEN'S Suits MEN'S Overcoats MEN'S Topcoats

Take Your Pick and Pay Only $31.50

Never a thought about the former prices—or what the total losses on a sale like this amounts to. No matter what the cost—no matter how great the mark down—everything goes into the sale at this one price.

Perhaps it is this very heroic way of doing things that has given this once-in-six-months sale its great "go"—for "go" it certainly has—as you'll see. Occasionally it has happened that we have had to cancel the advertising and bring the sale to an end before schedule—because the stock gives out.

If you saw our Fur Sale this week—the department crowded with buyers—the lowest price on any garment $195 and then to $1600—you'd understand how sales go here—and the reason they sometimes end sooner than expected.

"Complete Clearance" is the order of things here at the end of the season. And this year—as much as ever—we must make a very thorough clearance before the new season opens. As you will see—we are making over the department. We are growing—expanding—and the workmen are on the job.

Pick out any Kirschbaum Suit or Overcoat in our stock and pay only $31.50

Pick out any of the smart clothing from Rochester's best maker of young men's clothing and pay only $31.50

Pick out any Suit from a well-known Baltimore maker and pay only $31.50

Suits and Overcoats from high-class New York City makers. Reduced to $31.50

Clothing from Boston makers $31.50

Plenty of long-wearing finished and unfinished worsteds. All reduced to $31.50

Blue Suits reduced to $31.50

Black Suits reduced to $31.50

Top Coats, imported and domestic fabrics $31.50

Many of the Suits and Overcoats have been in stock only a few weeks.

Come in and go all through the stocks. Look at every rack. Ask the sales force to show you anything or everything.

TARIFF TO COST PUBLIC THREE BILLIONS

New York, Feb. 1.—The cost of the new tariff to consumers was put at $3,000,000,000 by H. E. Mills, chairman of the Fair Tariff League, speaking before the National School of Democracy in the Hotel Commodore.

After explaining that both political parties base their tariff rates on the difference in the cost of production here and abroad, but that the Republicans usually make the duties from three to fifty times greater than this difference warrants, he said:

DOUBLED TO CONSUMERS.

"With the Fordney law, it seems impossible that manufacturers will add less than $1,500,000,000 to their prices, which is only 2 per cent. of our total manufactured products of $65,000,000,000 a year. This will be doubled to consumers at retail, making the cost to them $2,700,000,000, to which will be added $292,000,000, which the conservative American Farm Bureau Federation estimates to be the cost to consumers of the tariff on agricultural products. This makes a total cost of the Fordney tariff $3,000,000,000 in round figures.

"As the tariff on dutiable merchandise averages 40 per cent. it seems almost ridiculous to calculate that the duties will be applied to only 2 per cent. on our manufactured products of all sorts. The Aluminum Trust has added its entire tariff, plus freight to New York on imports, to prices. The Tile Trust got its rates increased from 25 to 44 per cent. and immediately added 15 per cent., or three-fourths of the increase, to its prices.

"Of a list of 84 drugs and chemicals, 83 raised their prices by all, or the greater part of the new tariff rates.

"Of a list of thirteen chemicals, whose tariff rates were increased, the prices have been advanced on all, while on five that were put on the free list, prices have been reduced.

CLOTHING HIGHER.

"Woolens have advanced until our clothing must cost 12 per cent. more. Cottons have advanced about 25 per cent., one-fourth of the advance being due to the increased prices on the raw material.

"The allors used to to make steel and iron lighter and stronger in automobiles and other products, have advanced greatly, several having doubled in price. An array of price-raising has set in that will not stop until the $3,000,000,000 estimated is reached."

"Let no one think that the Fordney rates were made with any good purpose as concerns the consumer. The facts were before Congress, which ignored them. For instance, in four cases, tiles and terra cotta, cast iron pipes, sanitary ware and window glass, the industries were under indictment by the Federal courts for price-fixing and for working the public to the very limit of prices.

"The Tariff Commission showed that these products are made cheaper in this country than elsewhere, and yet Congress gave each one of them excessive and most unreasonable tariff duties."

BAXTER ENDORSES SUNDAY SCHOOL DAY

Augusta, Me., Feb 1.—Governor Baxter today issued a statement endorsing Maine Sunday School Day on March 4.

Tariff Labor Protection Fraud Bared by Competitive Figures

	Wages: Per Dollar of Product. Cents.	Underwood Tariff on Each Dollar Imported. Cents.	Fordney Tariff on Each Dollar Imported. Cents.
Oilcloth, linoleum	11½	35	32½
Cotton goods	16 1-3	34	51
Silk goods	15⅝	42½	55
Woolens	15⅝	32	69
Hosiery	17⅝	37	67
Chinaware	51	54	70
Glassware	30½	35	38½
Glucose	8	15	50
Aluminum	17⅝	20½	43
Cutlery	39	39 1-3	$1.82
Stamped ware	33½	20	50
Gloves, leather	17½	13⅝	60
Buttons	33	36	96
Chinaware	41	55	69
Paints, varnishes	7	11½	25
Shoes	27	Free	Free
Sewing machines	44	Free	15
Agricultural implements	—	Free	Free
Cast iron pipe	14.8	20	10
Wire	18½	15	23
Glass bottles	30	60	39
Carpets and rugs	19½	40	45

Above L a table prepared by Mr. Mills to show how advantage is taken of public sympathy for labor to increase tariff rates on the score that the wages of the American workingman must be protected. For instance, though the cost of labor in each dollar's worth of cutlery manufactured is only 39 cents, the manufacturer gets a duty of $1.82, or more than four times the actual earnings of the worker. The labor in paint and varnish manufacture is worth 7 cents on every dollar, but the manufacturer is allowed 25 cents duty to protect his employes.

POLLOCK, STAGE 'MIRACLE MAN,' VISITS HUB

Channing Pollock is here.

Pollock today is one of the most talked-of men in New York. They call him "The Miracle Man of Playwrights" because he took a play he had written and from what seemed to be a certain failure made of it one of the most sensational successes ever produced in this country.

Channing Pollock

The play is called "The Fool." And the fool is what everybody was calling Channing Pollock, the writer, until the very night the play opened in New York.

Al Woods had first option to produce this play. After holding back for months, Pollock returned the advance money and began to hawk the play around from office to office. He finally interested the Selwyns. The play opened in Los Angles. The critics ridiculed it and sent wires to the Selwyns in New York advising them to throw it into the storehouse.

A succession of almost unbelievable setbacks followed. Richard Bennett, who was to have played the leading role, deserted at the last moment to resume his tour in another play, although he played the part on the coast. The production caught fire and burned up. Efforts were made to block the attempt to get a New York house and hold it. When the play opened the business was meagre.

Then, like wildfire, the play caught on. Today it is spoken of in hushed whispers among the producers of the country. No play ever produced has "caught on" like "The Fool" in the face of the most adverse circumstances that ever confronted an author. Already seven companies have been organized. One of these comes to Boston February 12, at the Selwyn Theatre.

POLICE ACCUSE BOY AS "PENNY THIEF"

Police are investigating the activities of Francis W. Fallon, eighteen years old, of No. 24 Denton street, Roslindale, who is charged with being a "penny thief." Fallon has repeatedly stolen pennies left at newsstands by customers, the police charged. He was arrested at the newsstand at No. 12 Huntington avenue, owned by Philip Eastman of 20 Popular street, West End. Police say he picked up twenty pennies and walked away.

BOY DROWNED UNDER ICE OF MERRIMACK

Haverhill, Feb. 1.—Tony Prima, nine years old, son of Mr. and Mrs. Gustno Prima of No. 127 River street, was drowned in the Merrimack River. His body has not yet been recovered. The child, a pupil at the Moody School, was playing on the ice with several companions. The channel of the river is open. Shouting to his friends that they could not catch him, he started running and slipped into the open water.

REPORT LENINE IS INCURABLY ILL

London, Feb. 1 (By International News Service). — Nicolai Lenine, head of the Soviet government, is reported to be incurably ill of hardening of the arteries and increasing paralysis, said a Moscow dispatch printed in the Daily Mail today. It is understood in Russian official circles that Lenine will soon retire and will be succeeded by Leonid Krassin.

20 PERSONS FLEE FIRE IN WORCESTER

Worcester, Feb. 1.—Twenty persons, including numerous children, one being two days old, were forced out of the rooming house at No. 18 Church street, after the building became filled with heavy black smoke from a fire that started in the store of the Worcester Leather and Shoe Findings Company on the street floor. The fire is supposed to have started by an overheated stovepipe in the leather store.

FLORIDA FLIERS CRASH, ONE DEAD, 5 HURT

Norfolk, Va., Feb. 1 (By International News Service).—Engineer J. M. Fields of Raleigh, N. C., was instantly killed and five other persons, two of whom were passengers, injured today when the Seaboard Air Line Florida-Cuba Special No. 1, New York to Havana, plowed into the rear end of the Mid-South Special, Washington-Jacksonville, at Hagood, Va., 83 miles south of Richmond.

The private car of S. Davies Warfield, president of the road, moving "deadhead" on the rear of No. 301 occupied by two negro porters, was demolished. The porters were slightly injured. Engine 209 on No. 1, after plowing through the private car turned over and was wrecked.

The Seaboard operates the "absolute block" system. Failure of a block operator to hold No. 1 until the block was clear, or until No. 301 has passed Hagood caused the accident, it was said.

Seaboard trains were detoured by Virginian and Atlantic Coast Line Railroads.

CAMBRIDGE PASTOR IS HOUSE CHAPLAIN

The Rev. Donald Bradshaw Aldrich of Cambridge, who is attached to the Cathedral Church of St. Paul in Boston, has been appointed chaplain of the House of Representatives to succeed the Rev William F. Dunseault, who resigned following his conviction in the Charlestown District Court of violation of the moral code.

PARALYZED WHEN HIT BY SNOW

Springfield, Vt., Feb. 1.—While mining his house, William H. Higgins, eighty-two years old, was caught in a snow slide from the roof. Several tons of snow fell on him and injured his spine so badly that his legs are paralyzed.

WOODSMAN KILLED WHEN TREE FALLS

Simfsbury, Vt., Feb. 1.—Peter King, seventy years old, was fatally injured when a tree on which he was working fell and fractured his skull. King was an experienced wood chopper and an unusually active man for his age.

10-inch footed colander, 6-cup plain percolator, and a 10-in. frying pan.

BASEMENT

JACKIE COOGAN SIGNS METRO CONTRACT

THERE has been a lively bidding contest going on among film producers for the services of Jackie Coogan, who, it appears, was about to be out of an engagement. Apparently everybody wanted the child-star and the demand for his services became almost a concentrated rush by the giants of the screen. Metro came out of the skirmish a victor, and Jackie has been signed up for a long period. That is, he signed the contract through his father, who acts as agent, guardian, etc., for the boy. Jackie's popularity in pictures has been won in an amazingly short time. Comparatively unknown when he appeared with Charlie Chaplin in "The Kid," his work was commented upon at even greater length than that of the more illustrious Chaplin. From his first picture he has been one of the most popular players of the screen.

Jackie Coogan.

MISS DAVIES BROADCASTS.

MARION DAVIES, the Cosmopolitan star, has turned her talents to the radio—at least, she has given a talk over the radio that was broadcasted over the country. Her subject was "How to Make Up for the Movies," and she told her hearers how to apply powder and grease paint to achieve the proper effect for the camera. Miss Davies' message was broadcasted from Station WEAF in New York, which is one of the largest and most powerful in the country.

NEED HELP FROM FANS

HARRY BEAUMONT, directing "Main Street," has struck a snag and wants some help from the screen fans. For two weeks he has been looking for the Swedish equivalent of "Swedish Carnival," to be used in one of the films. He suggested "yumpsecum," but Julian Josephson, the scenarist, said it sounded like a new groundhog. If you can supply the answer, send it to Beaumont in care of the Warner Studios.

CHID OF A DESERT

THERE'S a boy out West whose birth certificate reads: "Born —Somewhere in Utah." The "somewhere" happened to be the huge camp set up by James Cruze for the filming of the Paramount picture, "The Covered Wagon." While the tents were there it was called Camp Cruze, but after the picture was finished and the happy parents had to register the boy's birth there was no way to describe the place. It was just alkali plains with the nearest town eighty-five miles away.

Studio Notes

RUSSELL Griffin, who barely tips the age of five, will soon be starred in a series of short films depicting the world's most famous fairy tales. Russell has just finished a picture called "You Are Guilty," in which he co-stars with James Kirkwood and Doris Kenyon.

* * *

ANTONIO Moreno has just signed a five-year contract to appear as a featured player in Paramount pictures. He will soon come East from California to begin work in "The Exciter," with Bebe Daniels.

* * *

IN order to sign his contract with Universal, Joe Bonomo turned down an opportunity to play Goliath with a company which is forming to go to Palestine to enact there "The Wandering Jew."

CANTON TOWN CLERK DIES IN BOSTON

Walter Ames, for many years town clerk of Canton, dropped dead from heart failure on Franklin street, Boston, enroute to the South Station to take a train home. He was sixty-nine years old.

Telegraph Brevities

Louisville.—J. D. Fowers, seventy-eight, former president of the American Bankers' Association, is dead. He suffered a stroke of apoplexy last July. His sons, including Tom Fowers of New York, an actor, and two daughters survive.

Chicago.—Automobile accidents and poisonous intoxicants ran an even race in Chicago death tolls for the month of January, each claiming fifty-five victims.

WANT RUSSIANS TO SETTLE IN ALASKA

Anchorage, Alaska, Feb. 1 (By the Associated Press).—A movement among business men here to have the eight or nine hundred Russian refugees now in Philippine ports settle in Alaska was given formal shape today. M. Spaulding, president of the Chamber of Commerce, and the presidents of three banks have joined in a request to the national administration that the refugees be allowed to immigrate to the wheat belt of Alaska between here and Fairbanks.

Kidney and Bladder Troubles Conquered or Money Back

For 40 years, said Dr. Carey, I have been prescribing my Prescription No. 777 known for years as Marshrooi for kidney and bladder sickness and now that I have retired from active practice I have made arrangements with leading druggists to dispense this wonderful prescription at a moderate price, on the money back if dissatisfied plan.

Beware of kidney disease — thousands die of it every year who ought to be enjoying the blessings of life and health. Watch the symptoms. If you have specks floating before the eyes, puffy eyes, clammy feet or moist palms, backache or sidepain, you ought to get a bottle of Dr. Carey's famous Prescription No. 777 right away.

It has wonderfully benefited tens of thousands of cases of kidney and bladder troubles and in the medicine you can always depend upon. Results are guaranteed.

NOTE—Dr. Daniel G. Carey was a practising physician for many years and his great Prescription No. 777 aided thousands of sufferers from kidney and bladder troubles. Marshrooi you can always get this effective prescription in both liquid and tablet form at Peterson Drug Co., Armstrong, Co. Rexall and all reliable pharmacists the country over.

Advertisement

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel.

The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headache, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "logy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c.

CRITICS WRECK THEATRES, SAYS W. A. BRADY

Chicago, Feb. 1. — William A. Brady, New York theatrical producer, who several years ago told Chicago it did not appreciate highbrow drama and closed the theatre where a play by John Galsworthy had been cooked, assailed Chicago dramatic critics last night in a curtain speech for the "flippant manner" in which they had reviewed a play in which his wife is appearing.

"Intelligent people want intelligent dialogue once in a while," Mr. Brady told the audience in his unheralded speech. "The public sometimes wants something better than bare legs and bum jokes. This play is not a song and dance.

"The theatre as an institution in Chicago is being wrecked by the critics."

Grace George (Mrs. Brady), starring in the play, is quoted after last night's show as having said: "The critics have made this play look like a piece of cheese."

GERMAN AUTHOR AND ENGINEER IS DEAD

Chicago, Feb. 1.—Carl Boecklin, famous engineer and author of text books on civil engineering used at Heidelberg University, was dead here today. His body was found impaled on a stairway post in a downtown department store. Friends said Boecklin was despondent because of failing eyesight resulting from a trip to the Arctic region for the former German Kaiser.

CABLE BRIEFS

Rome—Satisfaction was expressed at the Vatican today that President Harding has accepted the role of arbitrator between Chile and Peru in the Tacna-Arica dispute.

DAUGHTER IS SAVED BY MRS. ROCKEFELLER

By International News Service.

New York, Feb. 1.—Mrs. William G. Rockefeller and her fifteen-year-old daughter, Almira, were driven from their home, No. 294 Madison avenue, in sleeping attire early today by a fire which damaged three floors of the dwelling.

Mrs. Rockefeller carried her daughter down the smoke-filled stairways.

The fire originated from a defective flue and spread to nearby wooden partitions. Soon the house was filled with smoke. They went to a nearby hotel.

Mrs. Rockefeller is the wife of the standard Oil magnate, a nephew of John D. Rockefeller.

DANIEL HOPKINSON, PATHOLOGIST, DEAD

Milwaukee, Feb. 1.—Dr. Daniel Hopkinson, forty-seven, nationally known pathologist and bacteriologist, died early today. He fainted Tuesday while appearing as a State witness in a criminal case in his capacity as Wisconsin State Pathologist. Dr. Hopkinson was born in Leeds, England, and came to Milwaukee in 1897. He lost the use of both legs from a rheumatic infection. In June, 1922, he ordered his right leg amputated above the knee in an attempt to better his general condition, but his health steadily failed.

MOTHERS, DO THIS—
When the Children Cough, Rub Musterole on Throats and Chests
No telling how soon the symptoms may develop into croup, or worse. And then's where you're glad you have a jar of Musterole at hand to give prompt relief. It does not blister.
As first aid, Musterole is excellent. Thousands of mothers know it. You should keep a jar ready for instant use.
It is the remedy for adults, too. Relieves sore throat, bronchitis, tonsilitis, croup, stiff neck, asthma, neuralgia, headache, congestion, pleurisy, rheumatism, lumbago, pains and aches of back or joints, sprains, sore muscles, chilblains, frosted feet and colds in the chest (it may prevent pneumonia). 35c and 60c jars and tubes.
Better than a mustard plaster
MUSTEROLE
WILL NOT BLISTER

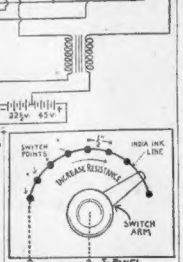
DUPLEX SET HAS INVERSE CIRCUITS

An "Inverse Duplex Receiver" recently devised by David Grimes, a New York radio expert, distributes the load more equally on the duplx tube and is therefore more stable than the general type of reflex receiver.

The two UV 201 tubes in this circuit do double duty, both radio and audio-frequency amplification taking place in them. The new feature of the Grimes set is the rearrangement of those two tubes so that the output from detector goes through the tubes in the opposite order from that in which the radio-frequency oscillations pass through. Thus the first tube is amplifying weak R. F. oscillations and strong A. F. currents with the second tube amplifying strong R. F. currents and weak A. F. currents.

This makes overloading of the tubes less likely and makes for greater stability. Using a foot-loop on Station WJAR, Mr. Grimes was able to pick up Pittsburgh while WJZ at Newark was operating on practically the same wave length. Local stations come in strong enough for loud speaker, using a loop, and many DX stations can be brought in on the phones.

The 200 ohm variable resistance is used to limit the R. F. amplification on nearby stations, and may be omitted if desired.



DUPLEX DIAGRAM.

Hook-up above shows an improved and more staple reflex circuit in which two tubes serve for both radio and audio-frequency amplification. R is a 200 ohm variable resistance. C1 is .0025 mfd. (fixed), and C2, C3, C4, C5 are .001 mfd. (fixed). T1 are radio frequency transformers.

Below is a neat and handy variable grid leak offered by Homer Porter of Union Place, Lynn, in the free tube contest. The India ink line is drawn on the back of the panel, and furnishes the resistance, which is varied by the position of the switch arm. Ink must make good contact with the switch points.

More Vacuum Tubes for Best Radio "Wrinkles"

More vacuum tubes will be given away.

The free tube contest that started last week is going to keep right on as long as the supply of suggestions holds out, and it shows no indication of petering out.

The best suggestion for radio fans each week will win a free WD-11 (dry-cell) vacuum tube. The winner will be announced Monday.

Address: Radio Editor, Boston American, 80 Summer street, Boston.

BABY BARTHELMESS IS RECEIVING GIFTS

New York, Feb. 1.—There is great activity today about the apartment of Richard Barthelmess, motion picture player, for Baby Barthelmess is just one day old, and every one in New York connected with the film industry is "dropping in" to greet the proud papa and inquire after his wife, Mary Hay, also one of the silver screen stars. The little girl is the recipient of many lavish gifts both from persons connected "with the business" and admirers of Barthelmess and his wife.

Mary Hay

Cocoanut Oil Fine For Washing Hair
USE MULSIFIED
If you want to keep your hair in good condition, be careful what you wash it with.
Many soaps and prepared shampoos contain too much free alkali. This dries the scalp, makes the hair brittle and is very harmful. Mulsified cocoanut oil shampoo (which is pure and entirely greaseless) is better suited than anything else you can use for shampooing as this cannot possibly injure the hair.
Simply put two or three teaspoonfuls of Mulsified in a cup or glass with a little warm water, then moisten the hair with water and rub the Mulsified in. It will make an abundance of rich, creamy lather and cleanse the hair and scalp thoroughly. The lather rinses out easily, and removes every particle of dust, dirt, dandruff and excess oil. The hair dries quickly and evenly, and is fine and soft, silky, bright, fluffy and easy to manage.
You can get Mulsified cocoanut oil shampoo at any drug store. It is very cheap, and a few ounces will last everyone in the family for months. Be sure your druggist gives you Mulsified.

Radio Program

HOW TO SLEEP 3-IN-A-BED

YES, it CAN be done—but not like this.

The trouble is, most people go to bed with "something" on the mind—or ON THE STOMACH!

The answer is, no matter what the day has brought forth to upset your mind and digestive organs, take Beecham's Pills when you retire.

Though in no sense a "sleeping potion," this 80-years-famous household medicine so harmonizes the system that you can sleep in quiet and perfect rest, even in two feet of bed space.

Beecham's Pills are as efficient and harmless for children as for adults—sweetening the stomach, invigorating digestion and stirring liver and bowels to natural activity

At All Druggists—25c and 50c

8-HOUR DAY FOR 15,000 RAIL SIGNAL MEN

Chicago, Feb. 1.—Railway signal men of America—15,000 in number—are denied a wage increase in a decision made public by the U. S. Railroad Labor Board, but they are granted the eight-hour day.

There was speculation today as to whether restoration of the eight-hour day to signalmen will be regarded as a precedent from which the maintenance of way men, clerks and freight handlers will benefit. Restoration of the eight-hour day with time and one-half for overtime seems to the signal men as a reward for not joining the shopmen's strike last Summer, it was stated.

The signal men had been receiving time and one-half for overtime only after the tenth hour.

In a dissenting opinion, A. O. Wharton, labor member of the board contended that an increase in wages should have been granted in view of the increased cost of living.

PE-RU-NA
Recommended by an Ohio Farmer

W. J. Temple, 292 W. Central Ave., Delaware, Ohio, for five long years could not eat a meal without distress. His trouble was catarrh of the stomach and bowels brought on by exposure. Mr. Temple says: "A druggist recommended Pe-ru-na. I took five bottles and am a well man. While formerly I could not do a day's work, I now never become fatigued. Pe-ru-na is the best medicine and tonic in the world. It is especially fine for catarrh and colds."
The value of any medicine is determined by results.
Pe-ru-na has been accumulating results for over fifty years.

ACTRESS BLAMES WOMEN AND HORSES

Detroit, Feb. 1.—Fast horses and pretty women wrecked her marriage with Orlando Yzguierdo, 36, wealthy Pelham, N. Y., sportsman, asserts Jean Young of Detroit, his actress wife, who is suing him for divorce today. The defendant is the son of Octavia Yzguierdo y del Rosario, Cuban multi-millionaire Supreme Court judge, according to the wife.

According to the complaint, Yzguierdo now lives with a second wife, Gertrude Rodmen True opera singer, on an estate in Pelham.

CAPE CANAL BILL DYING FROM INACTION

Washington, Feb. 1.—Representative Samuel E. Winslow, Fourth Massachusetts District, today said he has no idea as to what will happen to the bill providing for the purchase by the United States Government of the Cape Cod Canal, although he is chairman of the Interstate and Foreign Commerce Committee before which legislative hearings on this measure have been held.

Winslow says he knows no more as to what will be done about this bill during the remainder of this session of Congress than anybody outside of Congress; that the fate of the Cape Cod Canal, so far as this Congress is concerned, is in the hands of the Republican leaders of the House, and he knows nothing of their intentions.

THOUSANDS OWE SKIN HEALTH TO FAMOUS POSLAM
"Poslam"—Why, that's what healed Mr. Smith's face! That what hundreds and thousands would say if you asked them about that famous skin treatment.
It acts quickly and surely on eczema, rashes and such tormenting eruptions, stopping the itching and smarting from the first application, and rapidly restoring skin-health.
But effective as Poslam is, it is made of the gentlest, most pure things, nothing in it that could irritate the tenderest, most inflamed skin, even of a tiny baby. Use it everywhere. For trial sample, send 10c, to POSLAM, 243 W. 47th St., New York.
Poslam Soap, medicated with Poslam, does wonders for poor complexions.

BIG STORE THEFTS LAID TO DRUG ADDICTS BY FEDERAL AGENTS

Driven to Steal by Narcotics; Most Shoplifters Use "Dope."

Thousands of dollars' worth of merchandise has been stolen from Boston stores by drug addicts, according to Federal narcotic agents, who say that the majority of the cleverest shoplifters arrested during the last few months have been addicted to the use of morphine, cocaine or heroin.

Confirmed drug users generally do not work and they resort to begging and stealing to obtain their supply. The beggars use all sorts of tricks to obtain money, pretending injuries and illness to appeal to the sympathy of those they accost.

PREFER SHOPLIFTING.

One of the favorite schemes is to present cards reading, "I have tuberculosis, contracted in the World War and am trying to obtain money to go to a milder climate; won't you please help?" As soon as the addict has secured enough cash from gullible individuals he quits for the day and makes a bee-line for his favorite "dope" pedlar.

Other drug addicts prefer shoplifting to begging. They have been known to steal suits of clothing, overcoats, dresses, hats, shoes, umbrellas and jewelry. These articles they take to the home of a pedlar and exchange for dope. The pedlar then disposes of the clothing and jewelry for cash. Large quantities of new clothing have been found in the homes of drug pedlars after their arrest.

Federal narcotic agents have noted that nearly every drug addict and pedlar arrested in Boston or vicinity had several pawn tickets on their persons, indicating theft or receipt of stolen property.

ADDICTS CRAVE SWEETS.

Users of dope "seldom steal anything to eat." They eat little anyway, and generally prefer sweets to solid food. Most addicts eat large quantities of cake, pie and candy. The use of drugs creates a craving for sweets, especially candy.

Boldness and cleverness displayed by drug addicts is remarkable. Following the arrest of a woman for aiding and abetting in the sale of morphine and cocaine, she confessed that she went into a store, put on a suit of clothes over her own and walked out, without being detected. When her room was searched two new $50 suits were found as well as several hats, dresses and many articles of jewelry.

WOMAN'S HEALTH RESTORED

She Claims Lydia E. Pinkham's Vegetable Compound Did It After Everything Else Failed

Milwaukee, Wis.—"I feel that I ought to let you know about my case. I was ailing and couldn't do my housework and washing I was so run-down, just from having one child. I took a lot of medicines and had doctors. Then I gave them all up and took Lydia E. Pinkham's Vegetable Compound and I feel wonderfully good now. I do every thing that comes along, and we all take your medicine as a tonic when we don't feel just so. I am thankful for what the Vegetable Compound has done for my health and for my family."—Mrs. MARY SAUERCKER, 944 20th St., Milwaukee, Wisconsin.

Letters like these testify to the value of the Vegetable Compound. These women express the fullness of their hearts. They describe as correctly as they can their conditions: First, those symptoms that affected them most conspicuously; and later the disappearance of those symptoms. They are sincere expressions of gratitude. For nearly fifty years Lydia E. Pinkham's Vegetable Compound has been so praised by women.

FEW FOLKS HAVE GRAY HAIR NOW

Druggist Says Ladies Are Using Wyeth's Sage and Sulphur

Hair that loses its color and lustre or when it fades, turns gray, dull and lifeless is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture improved by the addition of other ingredients by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," which darkens the hair so naturally and evenly that nobody can possibly tell it has been applied. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance.

THEATRE OFFERS $25 FOR TITLE TO PLAY

This week is one of personal triumph for Harry Bond, leading man of the Somerville Players.

His play, temporarily titled "By Right of Purchase," seen at the Somerville Theatre this week for the first time on any stage, has proven a solid hit with the Somerville patrons. He plays the leading part in the play. He staged the play. It's a Bond week.

The theatre is offering a prize of $25 for the best title suggested for Mr. Bond's new play.

The play concerns itself with a wife who, at the terrified plea of a dying husband, agrees to the proposition of a wealthy man to permit him to "make it less lonely for her" when her husband, on funds supplied by this benefactor, is away out West recovering his health. That much is not new.

But the kick of the play comes in the second act, when, after having endangered her good name and sacrificed all she had, the wife receives a letter from the husband for whom she did all this, advising her that he is not coming home, as expected, but was running away with another woman. In the end the good bad rich man and the sacrificial wife embrace for the fade-out.

PIG'S EYE ON BOY SHOWS MORE LIGHT

New York, Feb. 1.—The condition of the right eye of Alfred Lemonowics, Lyndhurst, N. J., upon which Dr. Edward Morgan more than a week ago grafted portions of a pig's eye, continues to improve. Dr. Morgan removed the bandages from the youth's eye again long enough to examine the eye's condition and expressed satisfaction with the progress.

The room at the Manhattan Hotel at Paterson, N. J., where the boy is staying, is now in semi-darkness, instead of the total darkness in which the youth had been kept after the operation. Lemonowics demonstrated again today that he is able to distinguish between darkness and light.

SNOW OR RAIN ON BOSTON BILL TONIGHT

Snow or rain predicted for Boston and vicinity is coming late tonight, says the weather man.

Unsettled weather now covering practically all the interior part of the country is due to arrive in New England at this time.

There will not be much change in temperature tomorrow, and winds will be variable and moderate.

Warmer weather prevails today over the eastern part of the country, and colder in the West and lower Mississippi Valley. Greenville, Me., with 12 above at 8 a. m., was the coldest place in New England, and Boston and Nantucket with 30 above were the warmest places.

PREFERS RADIO TO COUE

LOGUE ASKS U. S. IRISH TO AID PEACE DRIVE

London, Feb. 1.—Cardinal Logue has issued an appeal to Irishmen in Ireland and America to aid in the "peace drive" which has started in Ireland to end the arson, murder and ruin which is following in the wake of the civil war against the Free State.

Cardinal Logue.

Representatives of the Irish Catholic hierarchy, shocked by the increase of pillage and arson in Ireland, held a conference at Dublin last week and decided on the drive for peace.

Archbishop Tuam of Dublin and Dr. Gilmartin were appointed to confer with representatives of President Cosgrave and Eamon De Valera, and to set forth to them that anarchy and absolute ruin faces Ireland unless peace is declared.

Cardinal Logue said: "I am a very old man, but I hope my end will not come until I see my country united and prosperous again. I beg all my friends in America and the whole world to enroll for peace."

300 ENTOMBED, 60 DEAD, IN MINE

Berlin, Feb. 1.—The total number of victims claimed by the explosion of fire damp in a mine at Beuthen, Polish Silesia, was unknown today.

The latest report, filed when 300 miners were still entombed, said that sixty bodies had been taken out while 165 men had at that time been rescued. Of this number eighty were in hospitals suffering from injuries.

CABINET TOTTERING TO FALL IN GREECE

Berlin, Feb. 1.—Private information received here from Athens indicates that the cabinet of Premier Gonatis is on the point of resigning because of manifestations that the people are dissatisfied with the revolutionary government and are demanding the return of constitutional control.

Diamond Dyes

Buy "Diamond Dyes"—no other kind—and follow the simple directions in every package. Don't worry whether you can dye or tint successfully, because perfect home dyeing is guaranteed with Diamond Dyes even if you have never dyed before. Just tell your druggist whether the material you wish to dye is wool or silk, or whether it is linen, cotton or mixed goods. Diamond Dyes never streak, spot, fade or run.

BUDDHISTS PROTEST JAP VATICAN ENVOY

Tokio, Feb. 1 (By Associated Press).—Buddhist priests, supported by some of the leading newspapers, have started a campaign against the government plan to send a diplomatic representative to the Vatican. More than 2,000 priests, organized to carry on the campaign, contend that to recognize the Pope is the sovereign of a state is prejudicial to the religious system of Japan.

MISS MILDRED DONAHUE

Miss Donahue prefers morning exercises by radio in her home at No. 125 Pauline street, Winthrop, to Coue's "day by day." Many of the broadcasting stations throughout the East send out a regular "keep-in-trim" program every morning, and hundreds of Greater Boston radio fans are availing themselves of the opportunity of combining the fun of receiving by radio with keeping in the best of health. Many of the phonograph companies sell records very similar to the series of exercises broadcasted. The exercises are broadcasted between the hours of 7 and 9 o'clock each morning.

2,000,000 GIVEN MEDICAL ACADEMY

New York, Feb. 1.—Gifts of $1,000,000 each by the Rockefeller Foundation and the Carnegie Corporation to the New York Academy of Medicine were reported today. Part of the money is to be used in the erection of a twelve-story home for the academy, which is planning an enlarged program for the information of the medical profession and for the instruction of the public in preventive medicine.

UNITED STUDIOS ARE BOUGHT BY SCHENCK

Los Angeles, Feb. 1.—Completion of a deal by which Joseph M. Schenck, motion picture producer, became principal owner of the United Studios was announced today. Mr. Schenck's expenditures was named as $1,500,000. Marco C. Levy, president of the United Studios Corporation, is associated with Mr. Schenck in acquiring the controlling interest.

Established in 1845

Seventy-seven years is the span of a long life. We are proud of our history—proud of our coffee—proud of what seventy-seven years have taught us in selecting, blending, roasting, and especially in packing fine coffee.

And White House Coffee is brought to your coffee-pot in the most scientific, simple, perfect package yet conceived—to protect and imprison for your profit and delight the rich, appetizing, delectable flavor and goodness of fine coffee, double-packed and double-sealed.

Say to your grocer today: "Give me *that* package of White House Coffee."

ETHYL HAYDEN GIVES SONG RECITAL

By ZOE FABER.

Ethyl Hayden, soprano, who was heard here recently with the Handel-Haydn Society, gave a recital in Jordan Hall before an audience that well filled the hall and that was enthusiastic to the last degree.

Miss Hayden, who is as pretty as a picture with more than the usual allotment of personal magnetism, demonstrated that she was much more to be enjoyed in recital than in oratorio. She needs and can fill the more varied requirements well indeed.

She was in particularly good voice, with the result that a number of encores were added to the program.

The Cyril Scott "Unforeseen" and the Edward Harris "It Was a Lover and His Lass" were notably well sung. The composer of the latter song was at the piano for Miss Hayden and he played exceptionally well. In fact, the background that he furnished contributed much to the success of the evening.

MEDIUM BROWN HAIR looks best of all after a Golden Glint Shampoo.—Advt.

Will Hire Doctors by Year to Keep Patients Well

St. Louis, Mo., Feb. 1.—Speaking today on preventive medical science, Dr. George E. Vincent, president of the Rockefeller Foundation, asserted: "We will soon be paying doctors as we now pay lawyers —a retainer fee by the years to prevent sickness in the family. They will visit the home at certain intervals and by examinations will prevent instead of cure diseases."

SHOTS FIRED IN CAPTURE OF AUTO THIEVES

Two youths charged with stealing the automobile of Charles Tischof from the Boston Arena parking space, while the latter was attending a hockey match, were captured by a policeman and Tischof himself, following a lengthy chase through the Back Bay in which three shots were fired.

Everett Knowlton, eighteen years old, giving a Medford address, and Frederick Fleet, twenty-one years old, of Massachusetts avenue, Back Bay, are the men under arrest.

At Station 16 Knowlton was found to be in possession of an automobile registration bearing the name of George Willinsky, of No. 116 Elm Hill avenue, Roxbury. Investigation shows that the latter's car was stolen in the Back Bay Tuesday night.

Second Assembly of Smart Set Comes Tomorrow Night, Says Betty Alden

By BETTY ALDEN.

As far as the buds are concerned, this week's social calendar has come perilously near to being a total loss. There's been a lamentable dearth of dinners, dances and teas, and, everyone knows, the debs don't attend the Assemblies. Which excludes them from the one big excitement of the week, the season's second Assembly taking place tomorrow night at the Copley-Plaza.

One of the few affairs of the week was the luncheon which Mrs. Ferris Greenslet gave yesterday at her home on Charles River square for her bud daughter, Miss Magdelena Greenslet. Later, the hostess took her thirty-six guests to the Opera House to hear Rimsky-Korsakoff's "The Snow Maiden."

Speaking of the debs and the Opera reminds me that I saw dark-haired Gertrude Russell—leader of this season's Junior Leaguers—listening to Mary Garden the other night. Miss Russell, who is shown in the accompanying picture as she appeared at a recent charity function, wore a draped gown of jade and silver brocade, her wrap of Paisley.

At the same performance was her mother, Mrs. Richard S. Russell, wearing a gown of white chiffon with golden embroidery. I must say, the resemblance between mother and daughter is striking; both have masses of dark hair and lovely brunette coloring. Incidentally, Mrs. Russell (Mary Sutton) is extremely youthful looking.

Quite an attractive figure at the Opera the other night was slender Mrs. Arthur Richmond, the former Jessie Means. Her gown was rather a distinctive affair, one side of the bodice of cloth of gold, the other of black velvet with tomato-colored figures. A bandeau of cloth of gold completed the costume.

Mrs. Richmond, who has light brown hair and hazel eyes, is one of Mrs. Arthur Little's daughters. Her marriage to young Richmond took place a year ago last June, and was naturally one of the season's important nuptial events.

Mrs. Joseph Adamowski (Antoinetee Szumowska) is to be one of the soloists at the concert being given tomorrow night at Jordan Hall in aid of the Conservatory Club's scholarship fund. The club is composed of one hundred girls of the New England Conservatory of Music, who are amassing a fund to pay the tuition of one of the club's members. Mme. Szumowska will play numbers from Szumanowski, Paderewski, Paganini - Liszt, Chopin, Gluck-Brahms, and Gluck-Sgambati.

Charles Amory of Boston gave a luncheon at the Palm Beach Country Club the other day. Also entertaining at the Florida resort were Mr. and Mrs. Henry N. Seligman, whose dinner guests included Dr. and Mrs. Hobart Endicott Warren of Beverly Farms and the Honorable and Mrs. Archibald Lindsay, the latter formerly Miss Ethel Tucker of Boston.

The Junior League members of New York are being showered with congratulations upon the success of "The Gay Pretenders," which they are giving again tonight at the Waldorf-Astoria for charity.

A brilliant audience applauded the affair, which was really a song and dance revue done a la Orientale. Rochansra, who devised and staged the entire production, is said to have achieved some weirdly interesting effects in the way of lighting, scenery and costuming. One of the surprise bits of the evening was "Back from the Front," in which all the characters, as well as the scenery, were reversible. The leading lady, who made a charming heroine front view, became a messenger boy upon turning around. In like manner, boxwood hedges were transformed into bird fountains, rose bushes and sun dials.

Betty Alden

MISS GERTRUDE RUSSELL

GIVES PRIZE MONEY TO RUSSIAN RELIEF

Joseph Gilman of Malden, a freshman at Boston University College of Business Administration, has been awarded the first prize for submitting the best work in income tax procedure at the college. Gilman immediately turned his money ($20) over to the Russian All Public Relief Committee, to be used as a food draft for the needy poor of Russia.

CAPT. BOWEN WANTS TO BE A SELECTMAN

Commander Denis F. Bowen, retired, of the Coast Guard Service, well known in Boston as a former commander of the cutter Winnisimmet, has thrown his hat in the Brookline political ring. He is a candidate for selectmen, and the fact that he is the thirteenth candidate to enter the field doesn't frighten him.

SEES PERIL TO THOUSANDS AT EGLESTON SQ.

Charging that the lives of thousands of persons are menaced daily by the exits from the Egleston square Elevated station, Senator James J. Mulvey of Boston has asked for an investigation to determine the cost and feasibility of removing the Elevated structures and of the construction of a subway from Dudley street to Forest Hills.

MENACE TO LIVES.

"The exits from the station are a menace to lives," said Senator Mulvey. "They empty into a square which is crossed by two main highways and into which a third empties. There exists a serious congestion of auto traffic, which is dangerous to any person leaving the exit into the street.

"I have protested repeatedly to the police and asked for the assignment of traffic officers. A serious accident will happen and then we will read about what they are going to do."

Edward R. Goodwin, a gassed veteran of the war, said that plaster is falling off the ceilings of houses near the Elevated structures from the constant jarring of passing trains.

OPPOSED BY ELEVATED.

General Counsel H. Ware Barnum of the Elevated protested against the investigation. "It would be a waste of time," he said, "and would result perhaps in kidding some of the public."

He said there are more important projects that should demand attention first, such as the extension of the Boylston street subway beyond Governor square, a new subway under Huntington avenue, a tunnel to Chelsea and the extension of the Dorchester tunnel.

BRITISH REDUCE FARE TO AMERICA

London, Feb. 1.—The Atlantic steamship companies announce a cut in fares of $15 first class, $10 second class and $6 third class, for passage between England and America. The improvement of British exchange was given as the reason for the reduction.

WORKER'S FOOT CUT BY FALLING KNIFE

Raymond Avtt, nineteen years old, of No. 1054 Washington street, South End, is at the Relief Hospital suffering from a punctured wound of the left foot. He was injured while working in a Washington street lunch room when a knife fell from a counter, striking him in the foot.

Two New Domino Products

Sugar-Honey

Domino Sugar-Honey brings you the flavor of pure honey in a delightful form, economical enough to enjoy often. It is a pleasing combination of fresh honey and invert sugar, pure and of exceptional quality. Use it as a table spread and for cooking those good things to eat which can be made so appealing with honey.

Cinnamon and Sugar

Every one knows what a delicious flavor is added to pies, cookies and toast by sprinkling them with cinnamon and sugar. Domino Cinnamon and Sugar brings you this delightful mixture, ready prepared for the first time, in convenient, shaker-top cans. It is a popular new product of Domino Quality.

Important—Every woman will appreciate our Sugar Recipe Chart and the helpful book of Domino Syrup Recipes. We will gladly send you both of these, together with the interesting "Story of Sugar" and a book of gum and labels for your preserve jars. They are free upon request. Address American Sugar Refining Company, 117 Wall St., New York, N. Y.

CRIPPLED GIRL'S PRAYER FOR 'ONE GOOD TIME' FULFILLED

STARTS ON WEEK'S TOUR OF SIGHTS IN NEW YORK CITY

New York, Feb. 1.—The great electric engine that drew the New York & New England express into Grand Central station purred to a halt. It was late afternoon. In the gloomy light on the subdued platform even the vivid red on the caps of the porters seemed to exude sadness.

But back in a drawing room Pullman car No. 85 sat a young girl. Her face, a face of fluid darkness, was glowing with color and the excitement of anticipation.

WITH CENTURY CINDERELLA.

Helen Violet Collins, the Cinderella of the twentieth century, had arrived in New York.

Pandora's box was open. Far, far behind, oh eons and eons away, from a tenement home in Amsterdam, N. Y., was the past—the past with which a sensitive girl would press or reforget, a past filled with poverty and pain and other things.

Ahead was New York—New York, magical; New York, the mystical; New York, the city of dreams—the island to which the poor little Cinderella referred when she wrote: "Oh, to have a good time for a day. A good time for a girl who has but a year to live. Just to see a city and watch them dance."

ECCENTRIC HER HOST.

So talked things like this with him after she had been enveloped in the welcoming arms of Mrs. Florence Bergere McManus, wife of George McManus, famous cartoonist. They are to be her hosts for a week, and we found it was in a regally appointed flat, No. 141-5 in the 23d Biltmore at that.

Helen is just an ordinary, sweet American girl of nineteen, who weighs a little but does not seem plain because her frail body (she's four feet eleven inches tall and weighs only nine pounds) has been racked by pain since babyhood and makes neighborhood doctors have told her she may live a year at the outside.

WANTS TO SEE WONDERS.

She wants to see all the things that are to be seen in the greatest city in the world, so that she may tell of the wonders to the three kids she has mothered for years. Dorothy, nine; Edward, six, and Stanley, three.

She would like to do something for her mother, who works in a mill, and who has worked herself to the bone striving to keep together the little family her weak willed husband had bequeathed to her.

After these ambitions are gratified—why—in the words of this adorable child:

"I don't care what happens. I am not afraid to die. I expect to die. A sharp, steady pain like a toothache is always with me. But I don't care. I dream and imagine things. But I do wish I could make mother happy."

Crew and passengers of the train crowded around her when she came to town. Complex problems are so simple when you meet them face to face. Helen walked to her wheel chair and smiled—with a smile that seemed to take in the world.

VEIL TO AVOID FLIRTS.

Accord ng to her companion, Mrs. C. E. Miller, Jr., some remarkable energizing process had taken place since their departure from Helen's home in the Grove street, Amsterdam, tenement. Helen wore a veil. She laughingly remarked to Mrs. McManus when she took off her trim little hat in her Biltmore apartments:

"I wanted a veil because my gray-green eyes are so fascinating. I didn't want any men flirting with me!"

The child's eyes are gray-green. They are fascinating. There is a ghoulish light in them. Yet, she says, quite seriously:

"I don't trust men. I have my father's example before me. I could never love a man, but if he had a lot of money and would help my mother, I would give myself to him."

Last night Helen dined at the Biltmore and later went to the "Ziegfeld Follies." Although many looked at her in the dining room, she ordered a simple meal. At the "Follies" her eyes grew round with wonderment. She remarked:

"Somehow the pain is with me, and yet I don't feel it. I wonder why it does not seem to hurt me as it used to."

HIDES TEARS WITH SMILES.

Outside, enraptured upon the faces of young girls, an observer asked casually:

"Helen, how can you keep so cheerful?"

Mr. and Mrs. McManus leaned forward for the answer and it came quickly:

"When I was a little kid, years ago, I read in a book that we must always hide the tears behind the smiles. I am trying to do it."

This is the spirit of the child who has come to see New York before she dies. Coming down to the big city may be of the odd little twists of her imagination found voice.

Before she went to bed and took her final look at the twinkling lights of the city, Helen toed off on her slender fingers the places she most wants to see, places Mr. and Mrs. McManus will take her to, beginning today. She speculated:

WANTS TO SEE "LIBERTY."

"Oh, I want to see the Statue of Liberty.

"Then I want to see Wall Street. I want to go in the place where they deal in stocks."

"Then I want to see Broadway from one end to the other. Every one of every southern wants to see Broadway. I want to see Chinatown, too, and the big hotels and the Metropolitan Tower and Grant's Tomb and Greenwich Village. I want to go in a real artist's studio and see the daubers and the artists in flowing hair and smock.

"I want to eat chop suey! Say, I wonder what that is, anyway?"

MALDEN BOY SECOND TO REPORT ATTACK

EDWARD J. O'BRIEN

This five-year-old boy is the second to report an attack in Malden. He is the son of Mr. and Mrs. George N. O'Brien of No. 65 Charles street, Malden. On his description the police are seeking a negro.

MALDEN POLICE SEEK NEGRO AS ATTACKER

A general search is on in Malden for the assailant of two small boys.

The police are hunting Clifford Trott, a mulatto, whose description is said to tally with that given by Packard Wright, seven years old, the attacker's first victim.

The second case which was brought to the attention of the authorities was that of Edward J. O'Brien, five years old, son of Mr. and Mrs. George W. O'Brien of No. [illegible] street, Malden, who was lured into a house in Middlesex street, also attacked.

The child's outer clothing was torn from him. He ran home clad in his underclothing and shoes. His mother went with the boy as a guide to the Middlesex street house and found two negroes. She accused one of them of the attack, but he denied it.

MAY CUT TERM OF MAYOR TO TWO YEARS

Some of the serious changes by which the Republican Legislature will be asked to emasculate the present city government of Boston have been enumerated to the Joint Rules Committee by Representative Martin Hays of Brighton. They are:

To cut the Mayor's term from four years to two.

To abolish the City Council and elect a new council by districts.

To restore party designation.

To prevent the "buying" of signatures for nomination papers.

Hays indicated he would take no part in any attempt to cut the term of Mayor Curley to two years.

"He was elected by the people for that term," said Hays, "and I don't see how you are going to get away from it."

The proposed changes in the Boston city charter ought to be submitted to the people at the State election in 1924 and, if adopted, become effective in 1926, at the end of the Mayor's term."

REVERE GIRLS WIN POPULARITY PRIZE

Lillie Lombardi

Angelina Fellosi

Misses Lillie Lombardi and Angelina Fellosi have been chosen the most popular girls in St. Anthony's parish, Revere. Both excelled in selling tickets for the annual dance to be given by the church at the Revere City Hall on Friday evening. Not only that but the two have been guiding lights in the organization of the social life of the younger set of the parish, and Miss Fellosi has the distinction of having been called on from time to time to audit the parish books.

RHODE ISLAND GEM THEFT

Central Falls, R. I., Feb. 1.—Three hundred dollars in cash and more than $700 in jewelry were stolen from the home of Oliver Lefebvre, No. 26 Garfield street, by false key workers. Most of the money belonged to students of the Rhode Island College of Pharmacy who recently conducted a dance, the receipts being in the custody of Frank Lefebvre.

TODAY

Continued From Third Page.

truck for freight and the flying machine for passengers.

Ninety-five transcontinental trains in Europe, cut off for lack of coal or because of labor troubles, will be replaced by flying machines ready and eager for the work. Who knows that the trains will ever come back? A flying machine will take you from London to Constantinople for less than the railroad cost.

As to the high prices, railroad men should remember that the Manhattan Elevated Railroad in New York began to make money AFTER the fare was cut from 10 cents to 5 cents, in spite of the owners' bitter tears."

Star is Drug Addict

PAULA IVES.

Photo by International News Reel.

Miss Ives, noted vaudeville star, gave her promise to take the cure for drug addiction in the police court at Los Angeles. Her appearance before Judge Richardson in Los Angeles came as the sequel to a sensational raid on her Hollywood home by members of the narcotic squad.

Receives Contributions

The Massachusetts Near East Relief Committee has received contributions of $37,479.53 during the month of January, according to Dr. W. A. Bartlett, State director.

BANK ACCUSED OF FINANCING RUM-RUNNING

Bridgeport, Ct., Feb. 1.—An alleged adventure in rum running by a reputable banking institution was revealed in Superior Court here today.

The institution is the Greenwich Trust Company of Greenwich and the accuser is Jacob Levy, self-confessed rum smuggler of Norwalk.

Levy charges that the trust company through Vice President A. W. W. Marshall, arranged with him and two other rum runners to secure a schooner, obtain whiskey at Havana and run the cargo ashore at Greenwich. Marshall was to dispose of the whiskey, Levy alleges.

The accusation is contained in Levy's answer to a civil action for $2,000 brought by the trust company against him and John A. Montgomery, also of Norwalk.

The trust company bought the schooner Freed, Levy states and he together with Sterling G. Winestaw and Sigmund Rosenfeld, made the trip to Cuba where 1,000 cases of whiskey were obtained. The liquor was landed at Greenwich and disposed of by the trust company through Marshall, Levy charges.

An agreement was made by the trust company through its vice president, Levy says, whereby he and Rosenfeld were to receive 30 per cent each of the proceeds, the remainder to be divided between Winestaw and the trust company.

RUSSIA WARNS U. S. TO BAN FUR LOOTERS

London, Feb. 1 (By the A. P. Press).—Maxim Litvinoff, assistant commissar of Foreign Affairs, in a note to Secretary of State Hughes at Washington, declares remnants of the counter-revolutionary bands in Siberia intend to cross into Alaska in the Spring to dispose of furs looted in Russian territory. The note expresses the hope that the American government will bar the admission to Alaska of all Russians not possessing proper Soviet documents.

Children Can Learn New System of Shorthand

The efficiency expert has taken a wallop at Isaac Pitman. According to an announcement made by the Board Schools of Boston, the old-fashioned shorthand, with its thousands of combinations and word symbols, is a thing of the past. In its place is the new system which employs only 112 syllables and three simple rules.

The claim is made that the new system is so easy to learn that it may be mastered by a child.

MRS. LOIS L. PATTEN (at top), MRS. CHARLES P. BARNES (centre)

MRS. PAUL M. KEENE (bottom)

America, spoke at conference of Republican Women's Club delegates in session in Boston.

[illegible] Bill" [illegible] Boston also spoke. [illegible] Mrs. Paul M. Keene of Brookline, Mrs. Ruth Litt of Washington, Mrs. W. R. Kreger of Fall River, Mrs. Mary Dolmen, Lawrence, and Mrs. George [illegible] Newton, Mass., and Mrs. George Knowlton, president of the Massachusetts Women's [illegible] eration of Women's Clubs who have made a careful study of the problem. They consulted competent legal minds. The American Bar Association also has recommended uniform divorce laws."

SENATE DIVORCE BILL IN FOR A HARD FIGHT

Washington, Feb. 1 (By Universal Service)—The forces of the liberal as opposed to the conservative in love, marriage and divorce are planning to wage a nation-wide fight over the uniform divorce bill, Senator Capper, sponsor for the measure, declared today.

He revealed for the first time plans for having the law enacted and the reasons which prompted him to introduce such legislation.

"The bill which I have introduced is essentially a reform measure and would abrogate the divorce laws in a great many States," he said. "I realize of course, that the Senate cannot change the State laws by direct action so we will have to first submit the proposition in the form of a constitutional amendment.

"The urgency for such an amendment is well known to all students of marriage and divorce, and I shall endeavor to have the matter submitted to the States at the earliest date. If the States approve the amendment, the bill now before Congress will be acted upon.

"This particular bill was drawn up by a special committee of the Federation of Women's Clubs who have made a careful study of the problem. They consulted competent legal minds. The American Bar Association also has recommended uniform divorce laws."

"There are those who do not believe that divorce should be made more difficult, but that it should be made extremely easy," he said. "These will oppose this bill.

"There are those who believe in abolishing the marriage ceremony those who believe that the only needed ground for divorce should be that two persons no longer care to live together as man and wife.

"There are those who believe that marriage should be purely a business matter, that the parties should sign a contract fixing their obligation to one another."

Bancroft, Ont.—Three children were burned to death when the farmhouse of William Thompson, Monteagle township, North Hastings, was destroyed by fire. A fourth child was so badly burned and frostbitten that he died.

REAL VARNEY CASE VICTOR IN DOUBT

MRS. FLORENCE VARNEY AND SON

The $13,000 settlement made by principals in the Varney alienation suit definitely satisfies all claims that the former housemaid, who was married to the patent medicine king's son, might have had against the estate.

For $13,000, the $25,000 suit Mrs. Florence O. Varney brought against her mother-in-law was ended. No further action to be brought by either party for the same cause," is the official entry which dismissed the case.

The $13,000, it is apparently open to indited, also settled the claim which a wife and mother generally possesses for support of herself and children. The wealthy mother-in-law fought the unwanted wife of the scion of the house and lost—apparently.

WONDER WHO WON.

Hundreds who followed the case with interest, however, are wondering who really won. Immediately after the settlement was announced, the younger Mrs. Varney filed suit for divorce from the man whose affections she alleged were stolen and gave the conventional grounds — desertion. The papers were served on William Varney today.

The strange angle of the controversy is that payment of the $13,000 settlement in the alienation case is to be held in escrow until the divorce suit is settled.

AGREES NOT TO CONTEST.

Damages for the alleged spite of the mother-in-law and for the alleged promise of undue intimacy between the husband and Edna Pevear of Newton, N. H., and possible alimony and maintenance from the man she says deserted her in 1915, are included in the $14,000, is the general understanding.

Attorneys for the younger Mrs. Varney announced publicly that a settlement had been reached favoring the plaintiff, providing she would take steps to obtain a divorce from her husband, who in turn, would not contest.

MALDEN MAYOR IS LEARNING TO DANCE

Introducing Mayor John V. Kimball of Malden and his dancing Board of Aldermen and Council

Boy, page Flo Ziegfeld. These dancing city fathers shake a wicked shoulder, and they can step.

Mayor J. V. Kimball.

Tired of being "wall flowers" at social functions to which they are invited, the Malden city government decided to take dancing lessons. So "the jazz boys" from City Hall are "one-two-three-ing" and gliding over the waxen floor of a Malden dancing studio to the tune of New York's latest dance music hits.

BIT OF ENJOYMENT.

Among those present: Mayor Kimball, President C. Lester Bacon of the Common Council, Aldermen Harry N. Jacques, Albert W. Lovejoy and Dr. Ralph N. Brown and Dr. W. W. Hartwell. There are others from City Hall, too.

"Only a bit of enjoyment," explained Mayor Kimball, mopping his perspiring brow. "We city fathers have to go 'round a lot and we are tired of being 'wall flowers.' Most of us knew the older dances but with the rush of city affairs we haven't been able to keep up with the new changes in dancing. So we got together to improve a bit.

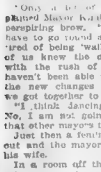
"I think dancing good exercise. No, I am not going to recommend that other mayors take it up."

Just then a feminine arm reached out and the mayor was away with his wife.

In a room off the dancing studio sat a man at a radio set. "It's Schenectady," he remarked. "Guess the mayor and aldermen of that town must be dancing too." The man at the radio set could hear a rumbling, like a building falling down.

HENRY CLEWS NOTED FINANCIER, DEAD

New York, Feb. 1.—Henry Clews



Henry Clews.

head of the banking firm of Henry Clews Co. and dean of Wall Street financiers, died at his home here after a lingering illness. He was in his eighty-third year. Mr. Clews was one of the leading authorities on matters of finance in the country.

Funeral services will be held from Grace Episcopal Church next Saturday morning.

BOXER O'BRIEN AND WIFE FIGHT FLAMES

Weymouth, Feb. 1.—William O'Brien of Lake Wood Grove, East Weymouth, former bantamweight boxer of renown, and his wife, fought vainly today to save their home from being burned and to save their five young children.

At the end of the battle the home, furnishings and clothing were gone, the parents and children were suffering from flame blisters on their arms, necks and faces and were nearly suffocated by smoke and were shivering with cold. All needed medical treatment.

O'Brien and his wife were clad only in their night clothing and shoes. The children were wrapped in blankets. All were taken into a neighbor's house. O'Brien had to borrow a pair of trousers.

The loss on house and contents was estimated by O'Brien at $3,000.

'SABOTAGE' IS NEW HAVEN ROAD'S ALIBI

"Adamless" Pastor Believes In Evolution

SCIENTISTS ARE HIS BIBLE

Cambridge Cleric Defends His "Babylonian Myth" Talk at the Forum

Adam and Eve and the celebrated Snake are knocked out of the Garden of Eden and the garden is K. O.'d along with them, all with one ecclesiastical punch.

The punch is delivered by Rev Kenneth C. MacArthur, pastor of Old Cambridge Baptist Church.

"I don't believe there ever was an Adam," says Pastor MacArthur and he defends his assertions today in answer to cries of "heresy, heresy" from the literal believers in the Bible.

Pastor MacArthur believes in God and His doctrines. But, when he wants "information" he goes, not to the Bible, but to a scientist. He said so today at his home, No 12 Sacramento street, Cambridge.

BELIEVES IN EVOLUTION.

He believes in evolution and that God created the world by evolution. Hence his assertion—which has created another religious furore, that "Adam is a Babylonian myth."

He made his anti-Adam statement in course of an address at the Open Church, South End, and met immediate protest. But today in his own defence, Pastor MacArthur declared:

"The Bible is a source of inspiration, rather than of information, and its teachings are not accepted literally by the better educated class of clergymen. Much of the Bible is based on tradition and the story of Adam is but one of those traditions.

"I believe the Hebrews received a legend of Adam from the Babylonians and that there was no real being as 'the first forefather.'

GOES TO SCIENTISTS.

"I am not an atheist. I believe in God and his doctrines. But I do not go to the Bible when I want information. I go to the scientist.

"I believe God created the world by means of evolution, but just what that evolution included I will leave to the scientists."

Pastor MacArthur served in the 76th Division as chaplain of the 301st Military Police in the World War.

He made his anti-Adam statement at the conclusion of a talk on "Marriage and Race Improvement," in which he denounced the failure, as he views it, of college graduates to marry and raise families.

NEGLECTING DUTY.

"Of the 200 members of my wife's class at Vassar," said the speaker, only 126 married in fifteen years. According to the year book of the class only 218 children have been born as a result of these unions. They are neglecting their duty to civilization, for they have not even reproduced themselves and their husbands.

"President Eliot point out the laxity in propagating the race among Harvard and Yale students several years ago. Wellesley graduates, Mount Holyoke graduates and alumnus of practically every woman's college in the country are guilty of that same neglect.

"The system of monastic celibacy is no more vicious than the condition of a half million old maid school teachers in this country, who will probably never marry," the speaker said, as he decried the inhibitions of certain creeds concerning marriage of ecclesiastics."

Says Adam and Eve a Myth

REV. KENNETH MacARTHUR.

WIFE RECANTS CONFESSION OF INFIDELITY

To shield the girl she accuses of "stealing" her husband, Mrs. Louise S. Savage wrote a false confession of infidelity to give her husband grounds for divorce, according to her testimony in the East Cambridge Divorce Court. Harley Savage, a Scituate grocer, charges his wife with improper conduct with Wallace Higgins of Baltimore. Mrs. Savage denies the charges.

The real reason for the divorce action, according to Mrs. Savage, had nothing to do with her own behavior. Savage had long been interested in Stella Phipps of Greenbush, according to Mrs. Savage.

"I wrote a confession of my guilt because he told me that he was the father of Miss Phipps' unborn child, and that he wanted a divorce so he could save her reputation. I was sorry for her, so I wrote what he dictated," the wife said.

Mrs. Carrie D. Handley, Savage's sister, testified that she found Mrs. Savage and Higgins, who was a guest with Mrs. Higgins in the Savage house, in a compromising position. Mrs. Handley called Savage on the phone and he came immediately home and ordered Higgins to leave his house in thirty minutes.

Stella Phipps, according to Savage's own testimony, is at present living in the same house with him, and is working for him in his grocery store.

KLAN THREAT FOR SOUTH END CRUSADER

Rev. E. C. Heck.

The Rev E C Heck pastor of the Morgan Memorial Church No 81 Shawmut avenue, South End, as for the past several weeks been preaching forceful sermons against the sales of moonshine liquor.

As a result he has received by mail a letter ostensibly from the Ku Klux Klan.

The letter, which was written in ink, was signed "K.K.K."

It continued Mr. Heck not to preach on the liquor question, and threatened him if he did not leave the city.

GOULDS SIGN PACT TO PART

Former Hub Dancer to Get Half of Husband's $1,600 a Month

A separation pact has been signed by George Jay Gould, Jr., and his wife, who was Laura Carter of Boston, professional dancer.

Word to this effect came today from Paris, where the beautiful young dancing wife of Gould awaits her children, who are to join her from the Riviera. Gould is with his father in Egypt.

Mrs Gould denies that anything definite has been done. She said:

"I am here to decide whether to sue for absolute divorce or just separation. No one is mad at anyone and there won't be a sensation in this case. It's just a family affair."

It is said that George, Jr., gets an allowance from his father of $1,600 a month, and that an arrangement has been made to settle half of that sum on Mrs. Gould, pending a legal adjustment of their differences.

Meantime the young wife plans a return to her work as a dancer, as offer having been made her by a Parisian restaurant.

AUTOS INJURE FOUR, ONE LIKELY TO DIE

Four persons were injured, one probably fatally, in automobile accidents in the city.

Sheldon Andrews, nineteen years old, of Princeton, Maine, is in a critical condition at City Hospital from injuries received when he was struck by an automobile truck in Neponset. He suffered concussion of the brain and cuts and bruises of the head. The automobile was operated by Edward Hubert.

James O'Connor, seventy-three years old, of No. 91 Hampden street, Roxbury, was injured when a truck ran over and fractured his right foot as he was waiting to cross the street opposite No. 464 Boylston street. He is at the City Hospital.

Bernard Fiedler, eleven years old, of No. 423 Geneva avenue, Dorchester, was thrown from a road wagon upon which he was riding when the wagon was struck by an automobile on Dorchester avenue. He suffered compound fractures and lacerations of the left hand. The little finger of his left hand was amputated at City Hospital.

Albert Perkins, sixty years old of No. 103 Pearl street, Malden, was struck by an automobile at Hanover and Washington streets. He was removed to the Haymarket Relief Station suffering from multiple injuries.

WHY NOT TRY MR. COUE ON MR. GROUNDHOG?

EVELYN RAFFTREY AND THE GROUNDHOG

You keep out a sight, you ill rascal. Us girls don't want to see you tomorrow. If we're gonna have more Winter, it's only going to delay us bringing out our Summer furs." Thus Miss Evelyn Rafftrey of Roxbury challenges Mr. Groundhog, who, you will remember has a day all to himself tomorrow. If he shows his shadow, more Winter is coming, but if he doesn't, ah, Sweet Spring, and pomes an' things. At least that's the tradition.

WHY NOT?

By Morton Birge

BE careful, Mister Groundhog, when tomorrow you come out
And cast your canny little eye in glances roundabout,
For, if you see your shadow, we shall have more Winter yet
And you will be unpopular—and that's no idle bet.

Be careful, Mister Groundhog, when you come up from below.
Don't strain your eye in looking for your shadow on the snow,
If there should be a shadow, we will very gladly pay
A clever little Groundhog just to look the other way.

4,000 DELAYED BY STALLED B. & M. TRAIN

More 4,000 or more commuters from north of Boston were late for work today when the 7:03 a. m. train leaving West Medford stalled, causing a tie-up that held up a string of trains reaching beyond Woburn station.

The dead engine was eventually hauled by a switching engine to a spur track and a substitute locomotive was used to pull the train into North Station.

For some reason the arrangement failed to work satisfactorily, for the engine would go a short distance and then stop. Eventually, by this jerk-and-stop program, all the trains arrived, some getting in after 8 o'clock, more than an hour late.

NORTHCLIFFE'S EARLY WILL SUBSTITUTED

London, Feb. 1 (By International News Service).—The Probate Court today upheld the validity of the 1918 will of Lord Northcliffe, throwing out the will in 1921. The later will was made public by Lady Northcliffe immediately after he, husband, died. The issue of Lord Northcliffe's sanity was raised. It is understood that those interested in the testament reached an agreement by which the earlier document is substituted. It contains many bequests for Northcliffe employes.

SCHOFIELD HAS NOT VISITED BRITISH KIN

London, Feb. 1.—Universal Service learned from the father and brother of Thomas Schofield, missing treasurer of a shoe company at Brockton, Mass., that Schofield has not been home from America since last July, but said they had received a letter and a box from him January 2. They said they did not know of his present whereabouts or that he was known to be missing. The father and brother live at No. 14 Tithebarn road, Southport, Lancashire.

HERO WITH JAW OF GOLD DIES AT STATION

Herman W. Kuchmeister, the man with the golden jaw, a Congressional Medal of Honor winner, fell dead today (Thornton station of the Narrow Gauge" in Winthrop.

Kuchmeister gained national fame first when he and two other Marines attempted to run the cable between Cuba and Spain under fire during the Spanish War. This was on May 11, 1898.

Wounded three times in the head, he was carried for dead to his ship, the Marblehead, and later taken to the naval hospital at Brooklyn, where he remained three years.

It was while a patient that he came into national prominence a second time for then did surgeons build a jaw almost entirely of gold to replace the shattered bones. This was the first time such a surgical feat had been undertaken.

On his release from the hospital he was appointed customs inspector and assigned to the Boston office. He was on his way to work from his home No. 8 Lewis street, Thornton section, when stricken.

Kuchmeister was adjutant of the League of Valor, national organization of medal of honor men, a leader in Winthrop Masonic circles and active in the Odd Fellows. He leaves a wife and two children. He was forty-five.

MAINE GIRL DIES IN FALL OF 80 FEET

Monmouth, Me., Feb. 1.—Toppling over an eight-foot [illegible] Hot Springs, Arizona, Marguerita Marston of this town fell to her death.

Miss Marston studied for some time at a Boston school of expression. She declared that her life would be happy if she could spend her time wandering in the hills. She cautioned her mother not to worry, as her wolf hound followed her everywhere.

SABOTAGE IS ROAD'S ALIBI

New Haven General Manager Says Strikers Ruined 20 Engines in Day

Hartford, Ct., Feb. 1.—"Sabotage" is the official alibi of the New Haven Railroad for the imposition on the public which the road calls "service."

General Manager C. L. Bardo of the New Haven system preferred the charge of sabotage against striking shopmen in an address before the joint legislative committee on railroads, which is considering a resolution calling for an investigation of railroad conditions.

He declared that the strikers had put twenty locomotives out of commission in one day. He declared that they had disabled other locomotives by loosening nuts on the driving rods. He said that most of the locomotives used in passenger service between Boston and Providence were rendered useless by emery placed in the journal boxes.

ACCUSES SCHLEIFER.

He charged that he had affidavits to prove that Ernest Schleifer, labor leader, had urged strikers to "muss things up," declaring the railroad was "too prosperous." When asked to answer directly the question whether he knew Schleifer had urged the taking of life if necessary, Mr. Bardo refused to answer. He declared that 99 per cent. of the present force was loyal to the road.

He did not say whether the disloyal 1 per cent. were New Haven "commuters" when off duty.

Several members of strikers' committees were present at the hearing in the hall of the House of Representatives. Lieutenant-Governor Bingham and Speaker of the House Nickerson presided jointly.

PROMISES PROOF.

It was Speaker Nickerson who attempted to pin Bardo down when he made vague mention of Schleifer. He declared that he would send the committee affidavits which would substantiate some of the things he had said. These are awaited.

When asked what the Legislature might do to help the road, nothing suggested itself to Mr. Bardo. "All we want is to be let alone," he said. "We are doing all that human endeavor can accomplish." It is considered unlikely that supernatural intervention will be made to help out the road.

EMERY IN BOXES.

The road's general manager declared that one day last Fall twenty locomotives were removed from the Boston-New York service because of "hot boxes." Investigation disclosed, he said, that the engines had been doctored in the Cedar Hill yards, near New Haven. Emery, he said, was found by chemists in the oil reading cars and had ruined the journals of the locomotives and made the trains late.

Why the trains have seldom been on time since he did not attempt to explain. Why five cars for thousands of commuters were the road's general allotment in winter rush hours, he did not attempt to explain. Why unlighted cars were for weeks the rule rather than the exception he did not attempt to explain. Why unheated cars were the winter time conveyance of thousands of commuters, he did not attempt to explain.

FIRE KILLS MOTHER AND 2 DAUGHTERS

Baltimore, Md., Feb. 1.—Mrs. Elizabeth Phillipe, forty-nine years old and her two daughters, Elizabeth thirteen, and Esther, ten, were suffocated by smoke when their home caught fire early today.

Firemen rescued them, unconscious, but they died in a hospital.

GEORGE CALZA IS STORM CENTRE OF WRESTLING WORLD

HILLS MEETS ITALIAN CHAMPION TONIGHT

By JACK CONWAY.

Fame often brings bitter attacks, creates jealousies, results in fiery challenges.

Geo. Kotsonoros

Anybody who basks under the glare of the public spotlight will corroborate this statement. George Calza, Italian wrestling champion, is beginning to feel the prominence of his position. He is being assailed on all sides by those who would pull him down from his present lofty pedestal.

George Hills, Milwaukee Swedish wrestling champion, gets the first opportunity to prick the Calza bubble when he clashes with the Italian idol in a finish mat bout at the Old Howard's show at the Grand Opera House tonight. It is a best two falls out of three match. So the fans will get an added dose of action.

It will be the second meeting between Calza and Hills. When they recently clashed in Chicago, they furnished a torrid match for thirty minutes. Hills then sprained his right ankle and was obliged to default.

The Wisconsin champion [illegible] Calza has challenged him and [illegible] to come down to defeat.

• • •

If Calza wins, he won't have peace. George Kotsonaros, Greek champion, will insists upon a finish bout with the Italian title holder. Calza was unable to toss Kotsonaros in a recent handicap match. In fact, Kotsonaros had the best of things. The Greek says he would be able to dispose of Calza in a longer contest.

• • •

Then there is John Pesek greatest wrestler in the world, who is anxious to get a shot at Calza.

Windek Zbyszko is also clamoring for a match with the Italian.

Such a fume

• • •

Eddie [illegible] of Florida will battle [illegible] the semi-final on the Italian [illegible] Kasai vs. Mme. [illegible] ponent in the prelim.

• • •

Our selections are Calza, Shabon and Perelli.

Armory A. A. Card One of the Best Ever.

The Armory A. A., with a record [illegible] years' existence [illegible] in boxing [illegible] will depart from its policy of staging [illegible] shows when it puts on a [illegible] affair [illegible] Mechanics' Building next Tuesday night. Match maker Alex McLean says the fans can look to cheer about when he announced the [illegible] wagon [illegible] Tony Julian

Johnny Dundee, world's junior lightweight champion vs. Tony Julian, Brockton, ten rounds.

Paul Doyle, world's junior welterweight champion vs. Pete Latzo, Taylor, Pa., ten rounds.

Willie Harmon, with twenty-nine straight victories to his credit vs. Jimmy Armato White, New York, ten rounds.

The [illegible] is made at the [illegible] of the writer. We opposed Dundee meeting Willie Jackson. Jimmy Harlon or Gene Delmont on the ground that none of these men would be able to make things interesting for the famous Scotch Wop.

Julian, on the other hand, [illegible] youth, courage, aggressiveness and a punch in his favor. He may not defeat Dundee, but he will make the latter realize he has been in a regular quarrel. Like Joe Tipitis, Julian's two fisted fighting [illegible] compel Dundee to step at a [illegible] clip every second he is in the [illegible]

Jimmy Armato White.

Shevlin or Shade? A [illegible] something easy. The [illegible] right place to [illegible] at Mechanics Building next Tuesday night when the [illegible] Shevlin and Shade [illegible] pick'em. It looks like [illegible] of guessing [illegible] correct, especially [illegible] when Dundee and Latzo [illegible] punches to [illegible] placed a remarkable [illegible] and grubbed a hair [illegible]

As Shevlin [illegible] Shade [illegible] edition [illegible] Boy Shade [illegible] battled Shade [illegible] ing like Alex McLean and Jack Williams [illegible] to think that Fairbairn will win. But what will happen if Shade is fortunate enough to get over a right hand [illegible] the jaw!

World's Record for Women's Relay Smashed

New York, Feb. 1.—A world's record for women went clamoring when the New York Valeour Club quartet won the quarter mile race in 52 2-5 seconds at the Millrose games. They broke their own old record of 53 3-5 by quite obvious margin. Misses Dixon, Fisher, McCartie and Kelly were the winners.

NEW MARKS IN PROSPECT AT B. A. A. MEET

[illegible] follows—at [illegible] enough to [illegible] tickets for B. A. A. games at the Arena today night. Two record breaking achievements [illegible] In the marks set for B. A. A. [illegible] in the all-star Games at New York Wednesday night. No less than four world's records went by the boards in that great meet of [illegible] and [illegible] and nine new [illegible] in three of the new marks are due to [illegible] in the 2 mile relay.

Our own Jerry Connolly of Worcester, Georgetown and the B. A. A., who is due to meet Joe Ray in the former city, was one of the record breakers. Jerry [illegible] a mark of 9 minutes 43 3-5 seconds for the two miles [illegible] Ray [illegible] The Bay Worcester [illegible] Boston [illegible] and [illegible] of the [illegible] Joe Ray [illegible] Connolly [illegible] Worcester [illegible] Connolly [illegible] Ray [illegible] Connolly [illegible] Ray [illegible] Connolly [illegible] Ray

GOLD SKATES RACE CONTESTANTS WILL WEAR NUMBERS

JAMAICA COURSE IDEAL

By CHARLES E. PARKER

Arrangements were completed today for the staging, on the ice of Jamaica Pond, of the semi-final and final tests of Greater Boston's First Annual Ice Skating Derby—the GOLD SKATES RACES.

Boston Park Department set a large force at work laying out and preparing the course, outlining the track with cement-bottomed posts, to which will be attached the ropes to restrain Saturday's throng of onlookers from encroaching upon the racing area.

Superintendent Michael J. Crowley of the Police Department made arrangements for the detail of officers to properly police the area.

James A. Tower, vice-president of the New England Skating Association, completed plans for the fancy skating exhibition, and expects that Mrs. Theresa Weld Blanchford, national women's champion, and Nathaniel C. Niles, who, with Mrs. Weld, holds the national pair skating championship, will be among those who will treat the GOLD SKATES RACE gathering to one of the most graceful exhibitions of fancy skating ever witnessed on an outdoor surface in this section.

The list of officials who will conduct the races was completed by the GOLD SKATES EDITOR, thus assuring the proper handling of the events, and recognition for any records that are made, for among the officials will be William T. Richardson, president of the New England Skating Association; James A. Tower, vice-president of the New England Skating Association, and William Carroll Hill, secretary of the New England Skating Association. That association is to amateur skating what the New England A. A. U. is to track and field athletics, and their action determines whether the records, if made, shall be forwarded to the skating record books.

One Hundred and One Details Are Arrange.

And the one hundred and one smaller details connected with the staging of such an event were all arranged.

The only thing weather man can prevent Saturday's big skating docket from becoming a huge success in every way, and it will take some very, very warm or disagreeable weather to spoil the fine ice surface that now exists, or reduce the throng of onlookers who plan to attend.

Letters have been sent each of the 107 boys and girls who in last Saturday's Franklin Field trials qualified for Saturday's Jamaica Pond semi-finals and finals, telling them the hour they are to report for their heats, and urging them to report promptly at that hour ready to race.

Complaints Made Against Two Boys Who Qualified

Yesterday complaints were made concerning two of the boys who are listed as qualified for the semi-final heats under fourteen years of age. The complaints stating each was over fourteen. Consultation of the entry blanks furnished by the boys showed they had given their ages as thirteen, and to satisfy the complainants or correct the errors both boys have been instructed to present birth certificates or letters from parents or school principals stating their correct ages. These must be shown to the GOLD SKATES EDITOR before either will be allowed to compete.

This action has been taken both to protect the boys in the event the accusation is false, and to protect the other skaters if by chance the boys gave incorrect information on their entry blanks, and are over the age limit for that class.

The senior races—the Greater Boston amateur 880 yard championship for men, and the Greater Boston amateur 880 yard championship for women—are arousing much speculation among speed skating enthusiasts.

Able Performers in the Greater Boston Half-Mile

In the former there are such able performers as Walter Thorn, New England champion for 1922; his brother, Harry Thorn; Lester Geddes, T. A. Corcoran, Israel Danis, Cecil Atkins, Morris Frank and many others who have scored heavily in skating tournaments throughout New England and New York, and their meetings in the semi-final and final heats of the senior race will probably prove the most thrilling ever staged locally.

In the senior women's race the list of qualifiers is equally imposing. They include Agnes Seimens former New England women's champion; Mrs. Eunice Buckley, who just nosed Miss Seamans when they met in the trials; Mary Dyson, the leading woman skater of Cambridge, Helen Charlton, a star entrant from Newton; Bertha Finny, the Quincy girl who won a fast trial heat last Saturday; Kathleen Conway of Jamaica Plain, another speedy performer, and several others whose work in the trial heats stamped them as formidable speed specialists.

Will Not Outmatch the Thrills of Junior Race

But the thrills promised in the senior races will scarcely outmatch those which will come in the junior events. There are seventeen boys in the under 14-year-class, each of whom believes he will win the prized GOLD SKATES, and their battles through the semifinal and final rounds are bound to be thrilling.

There are six girls under 14 years, each of whom is out to capture the final in that event. Fifteen boys will respond to the clerk of the course when the races for boys 14 to 16 are called, fifteen girls 14 to 16 are ready for race of their lives in that number; fifteen boys in the 16 to 18 class, and nine girls in the 16 to 18 class complete the list of junior contestants, each of whom is out to win one or the other of the prizes in their respective events.

To aid observers in following their favorites each will be assigned a competitors' number which will be worn on the contestants' uniform during the races. These numbers will be announced in the early editions of Saturday's Boston American.

MILWAUKEE LOSES TO HARVARD TEAM

"Flying Squirrel" Smith and the other Milwaukee A. C. players concluded their two days' visit here and submitted to another defeat. Harvard won, 3 to 1. The Westerners did not display the brilliant brand of hockey exhibited in the battle against the B. A. A., and abandoned team work for individual play.

On the other hand the Crimson showed a wonderful brand of hockey which made them look good. Hill Beals and Walker showed a brilliant passing game on the forward line and thrilled the spectators. The visitors were obliged to play defensively about all the time. Harvard did score neat body checking which helped when the visitors had a chance to score.

Not until late in the first period was there any scoring. The first goal was made when Beals, the Crimson centre ice player, passed the puck to Walker, who shot the rubber by Dinty Moore. Smith wigged his way around the Harvard forwards several times only to be stopped by George Owen.

LOU PALUSO IN TUSSLE WITH CHAPMAN

Lou Paluso will be the next world's featherweight champion. That is the opinion of Leo P. Flynn.

Lee P. Flynn.

You may not like the way Flynn combs his hair. You may also disagree with him in regard to politics, but you must admit he knows the finer game.

Leo manages a regiment of scrappers. Ten years ago he was campaigning around the New England circuit glad to pick up $100 here and there. Today Leo is worth a quarter of a million dollars and has more secretaries than President Harding.

All of which has not anything to do with Lou Paluso.

This youth is nineteen years of age. He has been schooled in the boxing game by Bill Brennan, Kid Wolfe, Panama Joe Gans and Izzy Shade, all expert teachers. He has also listened to the words of wisdom that have dropped from the lips of Flynn.

And Lou has profited. He has been matched carefully, he has fought well, he has won his bouts.

Winning battles make for success in the boxing game. That's why Paluso has kept going forward.

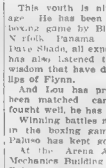
At the Arena A. C. show at Mechanics Building Saturday night Paluso will receive an opportunity to win the world's junior featherweight championship when he clashes with Red Chapman of Dorchester. Chapman won his laurels when he recently handed a decisive defeat to Charley Beecher of New York.

Like Paluso, Chapman is a sensation. Six months ago he was but drifting in the preliminaries. Today he is a national boxing figure. Charley Cardin, his manager, is besieged with offers for the services of his protege from all parts of the country.

Eddie Shevlin, New England welterweight champion, and Dave Shade of California clash in the feature ten-round bout at this show. Mickey Walker, world's champion, has agreed to meet the winner and will probably be at the ringside Saturday night.

Rocky Smith will try to knock out Young Gould, while Billy Shyne will take on Tommy Early.

A clever card; a capacity crowd will attend this show.



Mickey Walker.

PADDOCK IN BEST SHAPE OF CAREER

C. W. Paddock

Los Angeles, Feb. 1.—Charles W. Paddock, world's champion sprinter, is in the best condition of his career and it will have to be a better champion to defeat him this season, if records are to be broken, according to Coach Dean Cromwell of the University of Southern California who is in charge of Paddock's training.

"Paddock should have the greatest year ever experienced by any sprinter," said Coach Cromwell. "I have never seen a runner in finer condition after a year's lay-off. He is in as good shape now as when he raced at Antwerp. He was not at Antwerp when he defeated the world's best runners.

"Since then he equaled all sorts of world's records on the Pacific coast. Now he is twenty-three years old. His leg muscles have developed and he has lost none of the never-say-die spirit. If ever a sprinter has a chance to go under nine and three-fifths seconds for the 100-yard dash, Paddock has it."

It is said Paddock will run on a number of Eastern cinder paths this year.

BOSTON COLLEGE '26 TO HOLD A BANQUET

There will be plenty of action at the Boston College Hall Nov. 7th night, when the freshman class will put loose with a bang-up entertainment and banquet. The class of 1926 is preparing to launch a campaign to open a way for the younger students of the college on the Heights so the Maroon and Gold fans can look forward to some good athletes in the future.

The banquet is a starter and before many moons the youngsters will have their names on the books in the Hall of Fame.

AMATEUR BOXERS CLASH TONIGHT

East Boston fans are in for a real treat at the amateur boxing tournament of the Sacred Heart A. C. this evening at Columbus Hall. East Boston Hunchy Beale, Joe Sermin, Bat Sears and Al Gatenby, all of East Boston, have entered the 147 and class.

Many bitter controversies will be settled when these boys meet. The winner will be regarded as the best 147-pound boxer of the district. They are very evenly matched and the bouts between them should be worth the price of admission alone. There is a possibility of Eddie Davis of the South End A. A. appearing in this class.

The classes are 112, 126, 135, 147 and 160 pounds. Entries close with Jimmy Regan, No. 36 Neptune road, East Boston.

VICTORIAS REARRANGE THEIR LINEUP

Firm in the belief that they can capture the championship of the East and qualify for the national championship with the Western winner in March, the Victoria Hockey Club, with a rearranged lineup, will endeavor to show the hockey fans some lively work tonight in its United States League game with the Boston Hockey Club.

Everybody has conceded the potential strength of the Vics this season. It has only been a question of when the team would start to utilize its power to the best effect.

Since Coach Stoke Doran took hold of the Vics the team has shown improvement. Doran's first task was to get his squad down to a working basis rather than carry along a lot of deadwood. The Victoria squad numbers only eight men, and it is Doran's plan, as far as feasible, to keep the same six men constantly on the ice.

Red Synnott

Send 10c with coupon below for a trial tube of Stacomb.
Controls the most unruly hair, only in a neatly combed effect.

This Ends Unruly Hair

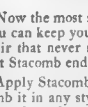
Now the most stubborn hair can be kept neatly combed all day. You can keep your hair looking as well as your clothes and shoes. Hair that never stays combed is a fault to otherwise smart dress that Stacomb ends at once.

Apply Stacomb in the morning when you comb the hair. Then comb it in any style you like and see how it stays. Rub on palms of hands, and apply to the hair—easy and quick to do.

Stacomb is winning millions as it will win you, too, if your hair won't stay combed. It's the fastest selling product ever made for the hair. Unkempt hair is a flaw in men's appearance that all should overcome. Stacomb will do it.

Ideal After Washing Your Hair

Apply Stacomb also after washing your hair; then comb it any style you like. It will stay that way.



Women

Women who know Stacomb no longer say, "I've just washed my hair and can't do a thing with it." Stacomb restores the natural oils and makes the hair easy to dress.

Stacomb controls short hair and straw locks. Particularly helpful if you are letting bobbed hair grow long again.

Excellent in training young boys' hair.

Greaseless, stainless, *not a liquid*. It shows only in a neatly combed effect.

Dry and brittle hair is unknown to users of Stacomb.

Men, women, children—all will find Stacomb most effective.

Ask your barber for a Stacomb Rub.

At all druggists.

Bobbie and His Pa

By W. F. Kirk

LAST nite Pa was nail-ing a picter up in the parlor & Pa hit the frame of the picter and broke it.

Now you have done it, clumsy, sed Ma.

Clumsy nothing, sed Pa. I started the hammer rong. Pa sed, & with my litening brane & quick eye I seen that it was going to hit my thum unless I cud dyvert it a littel sed Pa, so I dyverted its coarse a littel, sed Pa, & hit the frame of the picter, sed Pa. Had I reecved that blow on my thum, sed Pa, that blow declivered with all the terribul powr of my rite arm, sed Pa, I mite have got the lockjaw, Pa sed. So I choose the lessor of two (2) ecvils, sed Pa.

That is quite a monner-log, sed Ma, but that dosent mend the picter frame. I wuddent have lost that picter frame for worlds, sed Ma. I got that frame from dere old Uncle Hubert, sed Ma, before he passed caver the grate divide, sed Ma.

I wish he had took this frame with him when he passed over the grate divide, sed Pa. It wud have been melted beefoar now, sed Pa, & I wuddent have broak it & got balled out, sed Pa.

I cant understand why sum men is so clumsy with a hammer, sed Ma. You shud have seen my dere old father with a hammer, sed Ma.

Oh, yes, yure old gent was a wonder, sed Pa. Well do I know it, having herd it so often from yure chiefd lips, sed Pa.

I knew he was giving his dauter to a grate geenyus, sed Ma, a geenyus who cud do big things such as making picter frames & argewing with his wife, etc., sed Ma.

So Pa he calm down off of the stepper-ladder & went in the library & beegan to read. Wen I grow up I will lern how to finnish everything I start. That is the statem O. K.

ONCE OVERS

(Copyright, 1923, by International Feature Service, Inc.)

THE BENEFIT OF RIGHT ASSOCIATIONS.

Every man should accept the opportunity to mingle with men who have been more successful than he has been.

Such companionship should not excite envious thoughts.

If it does, it is doing harm where it might do much good to be able to study the man and the reasons for his greater success.

If a successful man is able and willing to talk about the plans he made and carried out to success, listen and learn by it.

When a man is made of the right stuff, association with men who are doing big things in the world should rouse his ambition to extend his own efforts.

If the architect is carried far enough by the one who wants success, and he finds he is helped by personal contact with the bigger man of affairs, it proves the value of making and keeping that sort of friend.

Appreciate and take advantage of opportunities to meet and talk with the man of higher attainments and you will have learned valuable lessons.

Dotty Dill's Diary

By La Monte Waldron

JANUARY 31. — Two minits late this mornin an got bawled out. Well, I forgot to crank the larm clock, but that excuse has got gray whiskers on it an I doesnt use it. So I let it go at that. Gee but what a long day! Didnt feel no more like workin an a scotty queen. But ol' Hoy Polloys has to jest the same. Even tho our harts is brakin we has to make it snappy.

Rolly Keats rings the bell tonite and ask do I wanter marython to a dance over on the west side. Says Bus Kelly is still laid up tho dark lampa Chet handed him when he tride to put across the Nitehend War in Flour stuff for yours truely. Bus dont mind the color of his lampa but Kelly says he cant pry em open so as he kin see to git around. Poor ol Bus, poor ol skate, your like a reel hero in the fillums.

Well me and Rolly goes over to the dance of the Class Fittin helpers. Soon as we give a howdydo to the joint someone rushed me and give Rolly a hundred yard dash into the fresh air. He remained absent. Soons I could brake away from Lucas I tazzled home on my french heals thinkin of I bet an whit a tough world we all len sentenced to fer life. Time fer the downey couch again an more work tomorrer. Gee

January 32.—Me to the pichers tonite accompanyed only by myself. An had the rotten luck to run into a fillum entitled Brakin Harts. Fi paidnt paid my fare ld of beat it but but my I had to sit throo. Dame in the pitcher got a raw deel just like I—a vamp copped off her own trew one an she weeps real tears in leat four acks of the show. I could see em runnin down her map jest as plain.

Some livly nite for me I'll tell the pitcher fans. Beat it out of the show thinkin I mite find Chet waitin' to pologize. No Chet. Vamp stuff is still aces with him I guess. Et a hot dog at corner lunch room and hustled to my boodoor. Took plenty of paraso to give that larm clock plenty of gas tonite. Wich reminds me of more work tomorrer. Aint it awful sister? Gee!

The Winning Nifties

YES AN' I HEARD-

The World We Live In

By Dave Sentner

IT IS reported that Henry is steering for the White House. Folks always said that a Ford would try to go anywhere.

Our idea of a spectacle is a bootlegger riding a camel through prohibition headquarters.

French troops are occupying the German coal district. Who wouldn't join the army if it occupied somebody's coal yard?

Narrow minded people do the most broadcasting.

Undoubtedly a prison laundry does a heavy business in ironing handcuffs.

Nero fiddled while Rome burned. When the janitor sends up the heat it's only natural for a fellow to turn on the graphophone.

Wonder what the wife of a divorce lawyer thinks of her husband's business.

One reads that Parisiennes are wearing handkerchiefs for scarfs, waists and dresses. Judging from the size of a lady's handkerchief promises to be heavy traffic on outgoing American steamers to France.

Many a poor fish has been caught by a hair net.

Alongside a hotel doorman an army general looks like a pall-bearer.

Mr. Potts, M. V. (married veteran) says he bought his mother-in-law a house in the suburbs as a matter of foreign policy.

England's jobless getting married, says dispatch. That's one way to find a boss.

Father over a bowl of alphabet soup would make a star feature for any radio concert.

Statistics record eleven and one-half million automobiles in the United States. There's only a few of us jay walkers left.

Old age pensions are being proposed by leading sociologists. Jokesmiths will soon be able to retire their brain children.

Some men burn the light all night trying to figure out ways to cut down household expenses.

Some folks think that a veterinary is the French name for horse radish.

Today's slogan: A square deal for every square head.

IT'S TOUGH WHEN—

YOU discover that your wife gave the present you bought her to the janitor's wife.

You find out that the guy you struck with your car last year has started suit for damages.

You are told that the flivver needs to be overhauled.

You discover just two nights' supply of coal in your bin.

You are told by the revenue department that you should have paid the last instalment on your income tax last month.

You find out that your mother-in-law is coming to spend a vacation at your house.

You are told that your manuscript is not fit for publication.

You find out that the boss is not going to give you the expected raise.

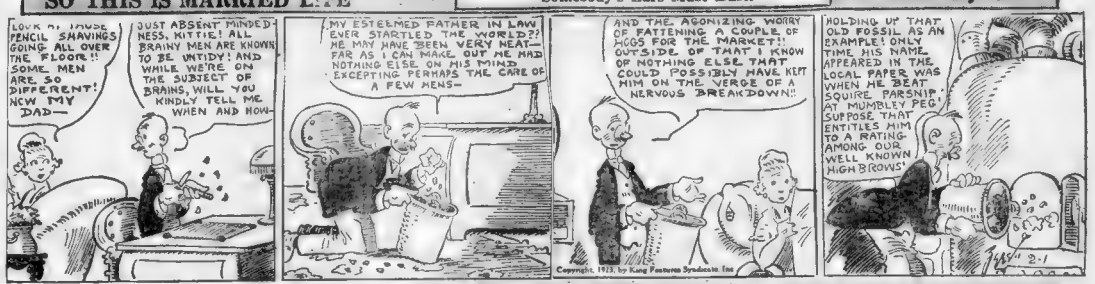
You discover that your cook is about to get married.

You are told that your rich aunt did not mention you in her will.

SO THIS IS MARRIED LIFE

Somebody's Ears Must Burn

By Zere.



LOOK AT THOSE PENCIL SHAVINGS GOING ALL OVER THE FLOOR!! SOME MEN ARE SO DIFFERENT! NOW MY DAD—
JUST ABSENT MINDEDNESS, KITTIE! ALL BRAINY MEN ARE KNOWN TO BE UNTIDY! AND WHILE WE'RE ON THE SUBJECT OF BRAINS, WILL YOU KINDLY TELL ME WHEN AND HOW—
MY ESTEEMED FATHER IN LAW EVER STARTLED THE WORLD?? HE MAY HAVE BEEN VERY NEAT—FAR AS I CAN MAKE OUT HE HAD NOTHING ELSE ON HIS MIND EXCEPTING PERHAPS THE CARE OF A FEW HENS—
AND THE AGONIZING WORRY OF FATTENING A COUPLE OF HOGS FOR THE MARKET!! OUTSIDE OF THAT I KNOW OF NOTHING ELSE THAT COULD POSSIBLY HAVE KEPT HIM ON THE VERGE OF A NERVOUS BREAKDOWN!!
HOLDING UP THAT OLD FOSSIL AS AN EXAMPLE! ONLY TIME HIS NAME APPEARED IN THE LOCAL PAPER WAS WHEN HE BEAT SQUIRE PARSNIP AT MUMBLEY PEG! SUPPOSE THAT ENTITLES HIM TO A RATING AMONG OUR WELL KNOWN HIGH BROWS!

HELPFUL HENRY

He Helps the Dog

By Arnot

Medbury Says—

By John P. Medbury

VERY few people appreciate our big hostelries until they have stopped at a country hotel where the only thing they know about Service is the "Shooting of Dan McGrew."

YOU order ice water in a country hotel and by the time you get it you're afraid to touch it for fear of scalding yourself.

A TRAVELING salesman who is used to these hotels never pours any of their ice water into a tumbler without putting a spoon in it first. He doesn't want to break the glass.

IT'S impossible to get any liquor in one of these places. Their beds are soft but their beds are hard.

ONE guy said he didn't know why they called them box coaches until he slept on one.

THEY have no more spring to them than the sidewalks on Fifth Avenue.

THEY'RE as hard as rocks. The hotels must hire bricklayers instead of chambermaids.

IF you complain about the blankets not being large enough to cover you they'll tell you that it's your fault—you're not underneath them far enough.

ONE guy said if the blanket had been a little longer he could have used it for a necktie.

HE had to sleep with his shoes on to keep his feet from getting cold.

THEN the manager wanted to charge him extra because he had hooks on them and tore the sheets.

HE told the manager that he didn't tear the sheets, they were broken before he went to bed.

THE walls were so thin that he had to call to the guy in the next room to turn over because he was breathing in his face.

HE was restless all night and [illegible] down to the manager in the morning and asked if he served breakfast in bed. The manager [illegible] "Not for this guy says, [illegible] crackers any [illegible] I'm going to sleep."

YOU can eat crackers in bed and [illegible] crumbs won't bother you at all if you let you soak them in your coffee first.

COFFEE, milk or water will take the pep out of any cracker.

THE pillows always give you a headache. A man and his wife came down from their room one morning all battered up and when asked what the trouble was they said, "Nothing, we just had a pillow fight."

THE pillows in a country hotel may be stuffed with feathers, but most of them feel like the feathers came off a Plymouth Rock.

Copyright 1923, by King Features Syndicate Inc.

THEN AND NOW

First photographs taken, 1839. Girls entertain callers by showing them family album, 1840-1923.

First steam fire engine used in New York, 1841. Two thousand kids play hooky.

Factory established in Connecticut to make pocket knives, 1843. Mumble-peg becomes grand American game.

First woman lawyer practices before U. S. Supreme Court loses case, 1879. Opposing lawyer is first man on record to win argument with a woman.

EZRA OBSERVES

FOUND a dollar bill in the road this mornin'. Sore because it wasn't a five spot.

If gals wants to paint, let 'em. Mebbe's well, they'll paint anyhow.

Slim Snip has got a new pair of suspenders. Pink ones. O gosh!

Never bust a sheestring when you was in a hurry? Guess you said jest what I did, didn't ye?

Perkins' dog is barkin' nights again. Oughta call him Radio—you kin hear him so fur.

I hear tell that they've discovered a king's tomb in Egypt or somewhere with $13,000,000 valybles buried in it. Howsomever, he's still dead.

Flapper Fairy Tales

Ludwig—I can't take you to the big dance tonight, darling, but there is a college boy visiting here who says he will be glad to go with you. He'll call for you at nine in his limousine.

Georgette—No, don't do that, Ludwig. If I can't go with you I don't want to go at all. I'll stay home and send father's coupe.

This Day in History, February 1, 1923

THIS is the anniversary of the discovery of Alexander Selkirk, unmissed prototype of Robinson Cruso, on Juan Fernandez, in 1708. Left from the ship Cinque Ports, he remained on the island to maintain more than four years.

Mammals That Lay Eggs

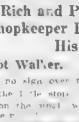
THE duck-billed platypus of Australia is the most curious instance of mammals that lay eggs. The nest is underground, has two entrances and may contain from one to three eggs. The ant-eating porcupine is another egg-layer.

THE PAPER OF PINS

A Story of Rich and Poor and How an Old Notion Shopkeeper Failed to Recognize His Old Love

By Elliot Walker.

THERE was no sign over the door of the little store, no name painted on the small window. But if the needles, or fishhooks or razors or any one of fifty other things, the man in to see Silas



Much loved much scorned at, and was frequently reviled when Silas Latimore did not mind. He could not hear.

Any one who knows the day in a city knows that a quiet

The morning car which he usually caught his attention. He looked up and stood transfixed. Seated were red rage. Up the automobile was a large and had several people. To him was unusual. He stepped on the step and drew to start.

Some vigilant of his cat was speaking to a passer. He looked across the road. Silas heard him laugh. Then a lady quickly disappeared and came toward the shopkeeper.

An Unusual Visitor

She was a handsome woman, even in her furs with her regular, high-bred features set her mouth and eyes had not lost. Light. Tall, supple, graceful, with an elegant and distinguished little room.

"How nice she said. "Brilworth coming out to get away from the dust and everlasting chatter. Have you any nice pins—black ones?

"I have, madam. How are they? Or these? I have a large assortment, madam, of all sizes, but my—of—is—

At the sound of the woman, who seemed to look at him a second and kept it, he at his face.

"Am I—am I—he stammered, clearing his throat. I—I—you mean Mr. Latimore?

"Yes, madam," he said slowly. "I'm Silas Latimore. I was to receive from it. I—I—my eyes no longer serve my knowledge of her face and said, "You will find here, excellent pins. I sell a great many. Anything else I can show you?

Across the years with the woman loved so long ago. Her features became more and more distinct.

A bit of red on each of the cheeks. Her eyes were strange and bright. Her hand resting on the counter, was white and slender.

His Way of It

"You do not remember me?"

"No, madam, I—no, I'm quite sure. I never had the pleasure of meeting you before, I—"

"Unless what she said sharply, a note of scorn in her voice.

"My accident. A shock. I—he said. I never heard she exclaimed as if to herself. Her fingers unclasped and she put her hand. "Why, Silas," cried she, impulsively, "I'm Helen Fenner—Helen Fenner—don't you know me?"

"Yes" he said at last. "Helen—Fenton—but no. No. I'm sorry but—"

Slowly she withdrew her hand. A flash of scorn, then bewilderment, then her

The woman leaned forward, with tears in her eyes. "Oh, Silas, I've been a cruel woman. I've suffered, too, but it's useless to try to explain. Maybe you would like to hear the way of it?"

She nodded.

He began a recital and said:

"Sometimes I can't make me what and how well God knows sent me off tangent when I was twenty-six years old. They say I was reckless and I suppose I went away, travelled around, ran off a bridge. I got a mark on my leg and I now forward that. I guess about seven years of my existence is wiped off my slate. The next I recall I remember my school days.

For a long long time after [illegible] Then I seemed to decide, [illegible] and had to [illegible] over a [illegible] [illegible] [illegible]

Three Morning Glories of the Sky

JUPITER, Saturn and Venus make a splendid display in the dark hour before sunrise. Venus is brightest and nearest the sun, in Scorpio. Next westward and next in brightness, is Jupiter. Saturn, leaden hued, is farther west.

THE PRIDE OF PALOMAR By PETER B. KYNE

An Engrossing Story of Southern California by the Author of "Kindred of the Dust"

It is a Cosmopolitan Production, ‡ direction of Frank Borzage, and featuring Forrest Stanley and Marjorie Daw. It is released as a Paramount picture.

DON MIKE, returning from the paddock after saddling Panchito and giving Allesandro his final instructions, sat majestically in his seat, but Father Dominic, Brother Anthony, Pablo and Carolina paid vociferous tribute to their favorite and the little lad who rode him. Allesandro's swarthy hands and face were sharply outlined against a plain white jockey suit; somebody had loaned him a pair of riding boots and a cap of red, white and blue silk. This much had Don Mike sacrificed for convention, but not the willow switch. Allesandro waved it at his master and his grandparents as he filed past.

Pablo stood up and roared in English: "Kal! Allesandro! Eef you don' win those race you grun' father hee's goin' cut you throat sure. I look to you all the time, muchacho. You keen the mind on the bus'ness. You hear, Allesandro mio?"

Allesandro nodded, the crowd laughed, and the horses went to the post. They were at the post a minute, but got away to a perfect start

"Sancho Panza leads on Panchito!" the book-maker, Joe, declared as the field swept past the grand-stand. He was following the flying horses through his racing glasses. "Quarter horse," he informed his companion. "Beat the gate like a shot out of a gun. King Agrippa, the favorite, second by two lengths, Sir Galahad third. At the quarter! Panchito leads by half a length, Sir Galahad second, King Agrippa third! At the half! Sir Galahad first, Panchito second, King Agrippa third! At the three-quarter pole! King Agrippa first, Panchito second, Polly P. third, Galahad's out of it. Polly P's making her spurt, but she can't last. Into the stretch with Panchito on the rail and coming like he'd been sent for and delayed. Oh, Lord, Jim, that's a horse—and we thought he was a goat! Look at him come. He's an open length in front of Agrippa and the chola hasn't used his willow switch. Jim, we're sent to the cleaner's—"

It was a Mexican crowd, but not the American audience was American and it is the habit of Americans to cheer a winner, regardless of how they have bet their money. A great sigh went up from the big holiday crowd. Then, "Panchito! Come on, you Panchito! Come on, Agrippa! Ride him, boy, ride him!" A long, hoarse howl that carried with it the hint of sobs.

At the paddock the gallant King Agrippa gave of the last and the best that was in him and closed the gap in a dozen furious jumps until, as the field swept past the grand-stand, Panchito and King Agrippa were for a few seconds on such even terms that a sudden hush fell on the race-mad crowd. Would this be a dead heat? Would this unknown Panchito, fresh from the cattle ranges, divide first money with the favorite?"

The silence was broken by a terrible cry from Pablo Arriola.

"Allesandro I cut your throat!"

Whether Allesandro heard the warning or whether he had decided that affairs were assuming dangerous pass, matters not. He rose a trifle in his saddle, leaned far out on Panchito's neck and deliberately delivered himself of a tribal yell. It was a cry meant for Panchito, and evidently Panchito understood, for he responded with the only answer a gallant race-horse has for such occasions. A hundred feet from the wire King Agrippa's wide-flung nostrils were at Panchito's saddle-girth; under the stimulus of a rain of blows he closed the gap again, only to drop back and finish with daylight showing between his head and Panchito's flowing tail.

Father Dominic stood gazing down the track. He was trembling violently. Brother Anthony turned lack-luster eyes toward Farrel.

"You win, Brother Anthony," Don Mike said quietly.

Don Mike turned to the stunned book-makers. "For some reason best known to yourselves," he addressed them in English, bowing graciously, "you two gentlemen have seen fit to do battle with me through this excellent representative of the civil authority of Tia Juana. We will dispense with his services, if you have no objection. Here, my good fellow," he added, and handed the policeman a ten-dollar bill.

As Don Mike and his retinue passed the Parker box, John Parker and Danny Leighton fell in behind them and followed to the judge's stand. Five minutes later the anxious crowd saw Panchito's number go up as the winner. Don Mike's frank explanation that he had deceived nobody, but had, by refraining from willing things in his usual manner, induced the public to deceive itself and refrain from betting on Panchito, could not be gainsaid—particularly on when an inspection of the records at the betting ring proved that not a dollar had been wagered on Panchito.

"You played the books throughout the country, Mr. Farrel?" one of the judges asked.

Don Mike smiled knowingly. "I admit nothing," he replied.

The testimony of Parker and Danny Leighton was scarcely needed to convince the judges that nothing illegal had been perpetrated. When Don Mike had collected his share of the purse and the bookmakers, convinced that they had been out-generaled and not swindled, had issued checks for their losses and departed, smiling, John Parker drew Farrel aside.

"Son," he demanded, "did you spoil the Egyptians and put over a Roman holiday?"

Again Don Mike smiled his enigmatic smile. "Well," he admitted, "I'm ready to do a little mortgage lifting."

"You've given me a first-class thrashing and the man who can do that is quite a fellow. Nevertheless, I cannot see now where I erred in playing the game. Mind telling me, boy?"

"Not at all. It occurred to me—assistance by Bill Conway—that this property must be of vital interest to two power companies, the Central California Power Company and the South Coast Power Corporation. Two hypotheses presented themselves for consideration. First, if you were developing the property personally, you had no intention of operating it yourself. You intended to sell it. Second, you were not developing it personally, but as the agent of one of the two power companies I mentioned.

"Proceed. You're on the target, son, and something tells me you're going to score a bull's-eye in a minute."

"When you had acquired the mortgage following such patient steps, my father checkmated you by making and recording a deed of gift of the ranch to me, subject of course to the encumbrance. The war-time moratorium which affected men in the military or naval service from civil actions, forces you to sit tight and play a waiting game. Then I was reported killed in action. My poor father was in a quandary. As he viewed it, the ranch now belonged to my estate, and I had died intestate. Probate proceedings dragging over a couple of years were now necessary, and a large inheritance tax would have been assessed against the estate. My father broke under the blow and you took possession. Then I returned—and you know the rest.

"I purchased, through my attorney, a fat little block of stock in each company. That gave me entree to the company books and records. I couldn't pick up your trail with the first company I investigated—the Central California—but before my attorney could proceed to Los Angeles and investigate the list of stockholders and directors of the South Coast Power Corporation, a stranger appeared at my attorney's office and proceeded to make overtures for the purchase of the Agua Caliente property on behalf of an unknown client. That man was in conference with my attorney the day we all motored to El Toro via La Questa, Valley and the instant I poked my nose inside the door my attorney advised me—in Spanish —which is really the mother tongue of El Toro—to trail his visitor.

"Out in the hall I met my dear friend, Don Nicholas Sandoval, the sheriff of San Marcos County, and delegated the job to him. Don Nicolas trailed this stranger to the First National Bank of El Toro and observed him in conference with the vice-president; from the First National Bank of El Toro

Don Mike announces his engagement and kisses his future bride

‡ Don Nicolas shadowed his man to the office of the president of the South Coast Power Corporation, in Los Angeles.

"We immediately opened negotiations with the Central California Power Company and were received with open arms. But, strange to relate, we heard no more from the South Coast Power Corporation. Very strange, indeed, in view of the fact that my attorney had assured their representative of my very great desire to discuss the deal if and when an offer should be made me."

John Parker, was smiling broadly. "Hot, red hot, son," he assured Farrel. "Good nose for a long, cold trail."

"I decided to smoke you out, so arbitrarily I terminated negotiations with the Central California Power Company. It required all of my own courage and some of Bill Conway's to do it, but—we did it. Within three days our Los Angeles friend again arrived in El Toro and submitted an offer higher than the one made us by the Central California Power Company. So then I decided to show you, the president of the Central California Power Company. On the fifteenth day of October, at 3 o'clock p. m., all three of you met in the office of your attorney in El Toro, and when this was reported to me, I sat down and did some thinking, with the following result:

"The backing so mysteriously given Bill Conway had you very rled. You abandoned all thought of securing the ranch by foreclosure, and my careless, carefree, indifferent attitude confirmed you in this. Who, but one quite certain of his position, would waste his time watching a race-horse trained? I knew then that news of my overtures to the Central California people were immediately reported to the South Coast people.

Evidently you had a spy on the Central California payroll, or else you and Bill Conway were entrenched both companies. This last hypothesis seemed reasonable in view of the South Coast Power Corporation's indifference when it seemed that I might do business with the Central California people, and the sudden revolt of the South Coast interest when it appeared that negotiations with the Central people were terminated.

"My position was very trying. Even with the dam completed, your power and financial circles might be such that you could block a new loan or a sale of the property, although the completion of the dam would add a value of millions to the property and make it a very attractive investment to a great many people. I felt that I could save myself if I had time, but I might not have time before the redemption period should expire. I'd have to lift that mortgage before I could smoke you three foxes out of your hole and force you to reopen negotiations. Well, the only chance I had for accomplishing that was a long one

Struggle of the Last of an Ancient Line to Save Estate From Hands of Japanese

—Panchito, backed by every dollar I could spare, in the Thanksgiving Handicap. I took that chance. I won. Tag! You're it."

"Yes, you've won, Miguel. Personally, it hurt me cruelly to do the things I did, but I was irrevocably tied up with the others. I hoped—I almost prayed—that the unknown who was financing Bill Conway, in order to render your property valuable and of quick sale, to save your equity, might also give you a loan and enable you to eliminate me. Then my companions in iniquity would be forced to abandon their waiting game and deal with you. You are right, Miguel. That waiting game might have been fatal to you."

"It would have been fatal to me, sir."

"Wouldn't Conway's friend come to your rescue?"

Not Interested

"I am not informed as to the financial resources of Bill Conway's friend and, officially, I am not supposed to be aware of that person's identity. Conway refused to inform me. I feel assured, however, that if it were at all possible for this person to save me, I would have been saved. However, even to save my ranch, I could not afford to suggest or request such action."

"Why?"

"Matter of pride. It would have meant the violation of my code in such matters."

"Ah, I apprehend. A woman, eh? That dashing Sepulvida girl?"

"Her mother would have saved me—for old sake's sake, but—I could have been expected to secure her investment with collateral in the shape of a six-dollar wedding ring."

"So the old lady wanted you for a son-in-law, eh? Smart woman. She has a long, sagacious nose. So she proceeded, unknown to you, to finance old Conway, eh?"

"No, she did not. Another lady did."

"What a devil you are with the women! Marvelous—for one who doesn't pay the slightest attention to any of them. May I ask if you are going to—ah—marry the other lady?

"Well, it would never have occurred to me to propose to her because Panchito reached the wire first, but now that I am my own man again and able to match her, I'm not so sure. It may be that I shall consider an alliance, provided the lady is gracious enough to regard me with favor."

"Then you do," John Parker replied coldly. "Let us join the ladies."

Three Days Later

Three days later, in El Toro, Don Mike and his attorney met in conference with John Parker and his associates in the office of the latter's attorney and completed the sale of the Agua Caliente property to a corporation formed by a merger of the Central California Power Company and the South Coast Power Corporation. A release of mortgage was handed Miguel Farrel as part payment, the remainder being in bonds of the South Coast Power Corporation, to the extent of two million dollars. In return, Farrel delivered a deed to the Agua Caliente property and right of way and a dismissal, by Bill Conway, of his suit for damages against John Parker. In return for which John Parker presented Farrel an agreement to reimburse Bill Conway of all moneys expended by him and permit him to complete the original contract for the dam.

"Well, that straightens out our muchly involved affairs," John Parker declared. "Farrel, you've gotten back your ranch, with the exception of the Agua Caliente Basin, which wasn't worth a hoot to you anyway, you have two million dollars in good sound bonds and all the money you won on Panchito. By the way, if I may not be pardoned for my curiosity, how much money did you actually win that day?"

Don Mike smiled, reread his release of mortgage, gathered up his bundle of bonds, backed to the door, opened it and stood there, paused for flight.

"Gentlemen," he declared. "I give you my word of honor—no, I'll give you a Spaniard's oath—I swear, by the virtus of my dead mother and the honor of my dead father, I did not bet one single centavo on Panchito for myself, although I did negotiate bets for Brother Anthony, Father Dominic and my servants, Pablo and Carolina. Racing horses and betting on horse racing has proved very disastrous to the Noriaga-Farrel tribe, and the habit ceased with the last survivor of our dynasty. I'm not such a fool, Senor Parker, as to risk my pride and my position and my sole hope of a poor but respectable future by betting the pitiful remnant of my fortune on a horse race. No, sir, not if Panchito had been entered against a field of mules. Adios, senores!"

That night at the hacienda, Don Mike, taking advantage of Kay's momentary absence, drew Mr. and Mrs. Parker aside.

"I have the honor to ask you both for permission to seek your daughter's hand in marriage," he announced with that charming, old-fashioned Castilian courtliness which never failed to impress Mrs. Parker. Without an instant's hesitation she lifted her handsome face and kissed him.

"I move we make it unanimous," Parker suggested, and gripped Don Mike's hand.

All Gaelic American

"Fine," Don Mike cried happily. He was no longer the lenat bit Castilian; he was all Gaelic-American. "Please clear out and let me have sir," he pleaded, and fled with the room. In the garden he met Kay, and without an instant's hesitation took her by the arm and led her over to the sweet lime tree.

"Kay," he began, "on such a moonlit night as this, on this same spot, my father asked my mother to marry him. Kay, dear, I love you. I always shall. I have never been in love before and I shall never be in love again. There's just enough Celt in me to make me a one-girl man, and since that day on this same spot my pet cat my roast beef because my hand was crippled you've been the one girl in the world for me. Until Kay, however, I did not have the right to tell you this and to ask you, as a poor do, if you were man enough to marry me; if you think you could manage to live with me here most of the time—after I've restored the old place somewhat. Will you marry me, Kay—ah, you will, you will!"

She was in his arms, her flower face upturned to his for his first kiss.

They were married in the quaint, old-world chapel of the now restored Mission de la Madre Dolores by Father Dominic, and in accordance with ancient custom, revived for the last time, the master of Palomar gave his long-delayed fiesta and for three days the rich and the poor, honest men and wastrels, the genia and the peons of San Marcos County came to dance at his wedding.

THE END.

ACID IN STOMACH SOURS THE FOOD

Says Excess of Acids Is Relieved by Jad Salts

A well-known authority states that stomach trouble and indigestion are nearly always due to acidity—acid stomach—and not, as most folks believe, from a lack of digestive juices. He states that an excess of hydrochloric acid in the stomach retards digestion and starts fo.l fermentation. Then sour stomach, burning acrid fluids and gases, which inflate the stomach like a toy balloon. We then get that heavy, lumpy feeling in the chest, we eructate, belch, belch gas or have heartburn, flatulence, water-brash or nausea.

He tells us to take some old digestive aids and instead go to any pharmacy four ounces of Jad Salts and take a tablespoonful in a glass of water before breakfast while it is effervescing, and furthermore, to continue this for one week. While relief often follows the first dose, it is important to neutralize the acidity, remove the gas-making mass, start the liver, stimulate the kidneys and thus promote a free flow of pure digestive juices.

Jad Salts is inexpensive and is made from the acid of grapes and lemon juice, combined with lithia and sodium phosphate. This harmless salts is used by thousands of stomach sufferers with excellent results.

WHY CHEAT YOURSELF

AN ARTICLE WORTH PONDERING OVER

By Beatrice Fairfax,

Who Occupies a Unique Position in the Newspaper World as an Authority on the Problems of Girls.

SUPPOSE you were perishing of thirst in an arid desert and someone told you there was an oasis a mile away? Fancy yourself replying:

"I'm tired and the sun is hot and I'm not sure I can make it if I do start to walk that mile. I'll just stay here and either die quietly of thirst or wait for a miracle to move the oasis up to me." Of course you would say nothing of the sort. The mile walk over the hot sands wouldn't be the thing to occupy your mind. The blister on your foot wouldn't count. The burning sunlight with its enervating rays and blinding glare wouldn't seem the thing on which to focus your attention. What you would have your mind on is the oasis and the mile journey. You'd think of the cool water with its life-giving refreshment. You'd start off to ward that shade on the oasis and the cooling draught waiting you there.

You make that mile because it would never occur to you that you couldn't. What waited you at the end of your journey would be so all-important, would become so alluring and inspiring that nothing would seem too wonderful to exert to get to that haven.

Oases walk for us all through life.

When defeat seems very near, when discouragement has you by the throat, when you are so weary you can scarcely go on—the oasis that will refresh you is probably only a mile away. Perhaps no one will come to tell you of it. But if you keep going and hold firmly to the feeling that you are going to find a restful station or wayfare somewhere along your path—that refuge will presently appear.

Why defeat yourself by failing to believe in yourself and in life?

The power to succeed belongs to those who never entertain thoughts of failure. Failure is a negative and negative things are just denials of true and positive ones. They couldn't exist if we didn't call them up out of our consciousness. Failure is no more real than a ghost—which is as real as reality to the one who lets it haunt him.

If you know earnestly and in every fibre of your being that you are working out your life's problems and that there is a right answer—how can you fail to get it?

Don't fail. You don't have to unless you refuse to walk the one more mile between you and the refreshing oasis—and the few miles beyond to the goal which you can reach once you are renewed and refreshed. Each effort makes the next one easier—more possible. You have only to make one at a time. Don't fail to make that one effort.

INDIGESTION !!! STOMACH UPSET, ATE TOO MUCH

Instantly! Stop Gas, Sourness, Heartburn, Stomach Misery

Chew a few pleasant, harmless tablets of "Pape's Diapepsin" and your distressed stomach will feel fine at once.

Correct your digestion and ease your stomach for a few cents. Don't let your stomach keep you miserable! Druggists recommend it.

DAILY HOROSCOPE

Elsa Allen Says:

Today Unlucky for the RECKLESS.

YOUR nature is unusually cold and calculating. At times you are apparently sympathetic, but in reality you are fabricating an emotion in order to have your own way.

You are interested in the arts and literature, although you also have a capable business mind, particularly skilful in organization.

The women born this date are loving and domestic if married; if unmarried they must find outlet for their parental impulses in managing and interfering in the intimate lives of their friends. They are particularly energetic as match makers.

The men born this date are neither affectionate nor home loving, and it is just as well that they are not for when married they would organize their families as they do their office forces.

You should undertake no new ventures today and be very cautious about changing the plan of anything already undertaken.

Children born today will be rash and temperamental and should have marked talent for music.

ETIQUETTE POINTERS

By Ann Adams

DEAR MISS ADAMS:

Will you please tell me where the guest of honor sits at a dinner table? I have heard various opinions on this question.

READER.

ANSWER: The guest of honor is seated at the right of the host. Miss Adams will gladly answer questions on etiquette submitted by readers.

GOOD NIGHT STORIES

Be Sure to Read Them to Your Children

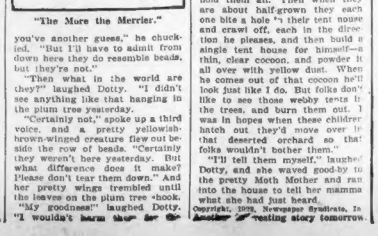
By Blanche Silver

Dotty Learns Something New About Mrs. Moth

MY! but Dotty was excited when she saw the dear little bead-like bracelet hanging around branch of the palm tree!

"I'll bet anything it's some fairy's, and she washed it out and hung it up to dry," Dotty mused. "Maybe she's lost it and is wondering where it is."

"One more guess then you're through," laughed a merry voice, and Happy Glegles, the little elfin from Makebelieve Land, hopped down from the plum tree on the grass beside Dotty. "No, Dot,



"The More the Merrier."

you've another guess," he chuckled, "But I'll have to admit from down here they do resemble beads, but they're not."

"Then what in the world are they?" laughed Dotty. "I didn't see anything like that hanging in the plum tree yesterday.

"Certainly not," spoke up a third voice, and a pretty yellowish-brown-winged creature flew out beside the row of beads. "Certainly they weren't here yesterday. But what difference does it make? Please don't tear them down." And her pretty wings trembled until the leaves on the plum tree shook.

"My goodness!" laughed Dotty. "I wouldn't harm them for the world. They look so much like fairy beads I just thought that's what they were. I never dreamed of them being butterfly eggs."

"They're not butterfly's eggs, either," laughed the yellow-winged creature. "They belong to me, and I'm a moth—Mrs. Moth, if you please, Mrs. Butterfly's cousin."

"Well, I'm glad to see and know you, Mrs. Moth," said Dotty, trying not to laugh. "And pray tell me what will your children look like when they hatch out? Will they still live in that circle until they're grown?"

"I'd suggest you ask one question at a time," laughed Happy Giggles. "It's rather confusing to Mrs. Moth."

"Don't you believe it," laughed Mrs. Moth gayly. "The more the merrier. It does me good to have little folks ask questions, for I'm sorry to have to tell you that grown-folks don't like my children, and when they see their cradles hanging in the trees they burn them up."

"What, they burn up your children?" Dotty fairly gasped.

"Certainly they do," replied Mrs. Moth. "You see, when they hatch out from these cradles they are only tiny little caterpillars, and don't know very much. So they go to work at once and build a little silken bag large enough to hold them all. Then when they are about half-grown they each one bite a hole in their cradle and crawl off, each in the direction he pleases, and then build a single tent house for himself—a thin, clear cocoon, and powder it all over with yellow dust. When he comes out of that cocoon he'll look just like I do. But folks don't like to see those webby tents in the trees, and burn them out. I was in hopes when these children hatch out they'd move over in that deserted orchard so that folks wouldn't bother them."

"I'll tell them myself," laughed Dotty, and she waved good-by to the pretty Moth Mother and ran into the house to tell her mamma what she had just heard.

Another exciting story tomorrow

WHEN DID IT HAPPEN?

1—When was the Council of Five Hundred overthrown?

When was the Fortnightly Review first published?

3—When did the Red Cross become affiliated with the United States government?

5—When did Benedict Arnold, who tried to betray the American colonies, die?

ANSWERS

To Yesterday's Questions

1—Nelson destroyed the French fleet at anchor in the harbor of Abukir, August 1-2, 1798. This is known as the Battle of the Nile.

2—Acetylene gas was invented by Edmund Davy, in 1836.

3—Providence, R. I., was founded by Roger Williams in 1636.

4—Brigham Young, Mormon leader, died at Salt Lake City, August 29, 1877. At his death he had seventeen wives.

5—Fahrenheit introduced the use of mercury in the thermometer about 1714.

Gargle Throat With Aspirin

Clip This if Subject to Sore Throat or Tonsilitis

Prepare a harmless and effective gargle by dissolving two Bayer Tablets of Aspirin in four tablespoonfuls of water. Gargle throat thoroughly. Repeat in two hours if necessary.

Be sure you use only the genuine Bayer Tablets of Aspirin, marked with the Bayer Cross, which can be had in tin boxes of twelve tablets for few cents.

Fisher Body Breaks 10 Points in Irregular New York Market; Renewal Money 4¾%

DURANT MOTORS SLIPS DOWN ON BIG CURB

Fisher Body broke 10 points at 185 on the New York Stock Exchange today which represented a drop of 6½ points from its high of the year. As it is controlled by General Motors and W. C. Durant's "interest" seems confined to more or less favorable "bidding" for shares, its collapse can hardly be taken as pure war on the big auto manufacturer.

On the New York Curb today, however, Durant Motors, Inc., shows further selling of 4⅜ against yesterday's low of 47 and against a recent high of 84.

Call money renewed at 4½ per cent. Continental Motor sold at a low since listed on the big board, off 7/8 at 9¾.

GENERAL ELECTRIC UP.

General Electric and Westinghouse showed strength and activity, the former up 3¼ at 187 and Westinghouse 1¼ at 65¾.

Steel stocks overcame initial heaviness and were stronger by noon. Equipments were weak, with American Locomotive and Baldwin off a point or more.

Owens Bottle advanced over a point on overnight announcement of an extra dividend of 1 per cent. on common stock. American Works 5 per cent. preferred advanced a point and Bethlehem B ¾.

Rails and oils were mixed, the early changes being of a fractional nature. Coca Cola opened nearly 2 points lower.

STERLING ADVANCES.

Losses of a point each also were established by Pressed Steel Car, American Smelting and Int. Paper.

Chicago & Eastern Illinois preferred advanced 1¾ points and gains of 1 to 1½ points were recorded by Phillips Petroleum, Royal Dutch and Famous Players.

Chandler Motors also made partial recovery from its heaviness of yesterday.

Foreign exchanges opened irregular. Demand sterling advanced ¾ of a cent to $4.65¾. French francs dropped 6 points at 5.24 cents and Belgian francs dropped 10 points to 5.11 cents. German marks were noted at .0025 cents.

OWENS BOTTLE ON 12 PER CENT. BASIS

The Owens Bottle Company has declared regular fifty cents quarterly dividend on common and an extra of twenty-five cents. This is the equivalent of 12 per cent. annually, although it is not officially indicated that the higher rate will be a permanent feature. Regular $1.75 quarterly preferred dividend also declared. All dividends are payable April 1 to stock of record March 16.

SEES MENACE FOR VALUE OF SILVER

Vice-President Brownell of American Smelting & Refining Co says greatest danger to silver mining industry lies in continuance of steady decrease of its use as money. Unless some remedy action is taken he foresees ultimate destruction of intrinsic value of silver.

FORBES' VIEWS ON FINANCE

—By B. C. Forbes—

Have you set your insurance matters in order?

It does credit to human nature, all this intense interest in the well being of dependents. I recently referred in this column to the fact that the largest national bank in America has organized a department to handle insurance funds for those intended to be benefitted and from readers already more than one thousand inquiries have been received by the bank. Not only so, but insurance companies in all parts of the country have written me on this subject and other phases of insurance.

Several unfortunates describe their cruel experiences with fraternal society insurance schemes and use my trumpet in warning against insecure plans of this nature. I hereby do so.

* * *

William Alexander, secretary of the Equitable Life Assurance Society, New York, writes in part:

"I have read your very interesting article on 'how to provide for your wife and children.'

"The chief service of the dictaphone is recording of the human voice for commercial purposes. It is of especial interest to Boston because its origin was in the laboratory of Alexander Graham Bell here. The Boston sales manager of the dictaphone is Samuel Q. A. McClure, No. 1000 Washington street.

GET READY TO FILE INCOME TAX PAPERS

Count yourself fortunate that you have to do it, and get ready right away to file your returns on Federal and State income taxes. Services of an expert in accountancy are placed by the Boston American's financial department at convenience of its readers to solve problems without charge. Address inquiries to Attorney Oliver A. Wyman, No. 150 Congress street, Boston. He is known as one of Massachusetts' leading authorities on income tax details. State questions clearly and enclose stamped envelope for reply.

BANK OF ENGLAND'S RESERVE DECREASE

[illegible] England shows the following changes: Total reserve, decreased £3,217,000; circulation, increased £1,220,000; bullion, increased £2,706; [illegible] ties, increased £270,000; other deposits, increased £8,108,000; public deposits, increased £3,103,000; notes reserve, decreased £1,218,000; government securities, decreased £4,625,000.

Boston Notes

EASTERN Steamship receded slightly in the face of its fine earnings showing for 1922, when there were profits of around $12 a share after taxes and preferred dividends.

MIAMI is expected to benefit largely by red metal price advances, in view of its low costs, around 9 cents.

ANACONDA and Chile must be considered aided by copper rise, as they are low-cost producers.

COPPER Range is making a small gain in man power, and production continued in excess of 3,000,000 pounds of refined copper per month. All new openings in Champion and Trimountain are in good ground, and there is no diminution in high average yield per ton.

THREE engineers are making a study of the fuel problem at Calumet & Hecla mines with view to lowering costs. Although Calumet & Hecla is operating only 50 per cent. of normal and has only three mines open, it is large consumer of coal.

MOHAWK'S January production will show increase, due to improvement in the labor situation, production is now back to normal, and output of all grades is running close to 1,000 tons daily, or at annual rate of above 350,000 tons. Low water has been hampering operations somewhat This is expected to finish.

BOSTON Curb is digging a few of the old mining favorites out of the scrap pile now underground issues are coming into renewed speculative favor with higher metal prices that offer possibilities.

PROGRESS with United Shoe Machinery Corporation plan for merging subsidiaries and effecting recapitalization is still confined to bookkeeping detail. Auditors are hard at work upon year-end figures assembling data to guide directors.

MUCH of Punta Alegre production is sold under contract to the Pennsylvania Sugar Refinery.

GOLD Road Annex is expected soon to be listed on the Los Angeles Stock Exchange.

NEW COMPANY WILL MARKET DICTAPHONE

Announcement is made in New York that a group of bankers has bought the dictaphone department of the Columbia Graphophone Company. Under the official title of Dictaphone Corporation the new company will sell dictaphones and supplies, rendering direct service to dictaphone owners in the leading cities of the United States and Canada. The company starts without bonds or debts and with cash resources for doubling the present volume of business.

C. K. Woodbridge, for five years head of the Dictaphone organization, is active head of the new company. He is president of the Advertising Club of New York. His assistant and sales promotion manager, L. C. Stowell, becomes secretary. Morgan L. Mercer of New Haven treasurer. The board of directors consists of Richard H. Swartwout, chairman; George A. Ball, Marsden J. Perry, R. C. Sculley, Clarence Appenheimer, H. R. Swartz, J. Russell Clarke, C. K. Woodbridge and Alfred C. Andrews.

The chief service of the dictaphone is recording of the human voice for commercial purposes. It is of especial interest to Boston because its origin was in the laboratory of Alexander Graham Bell here. The Boston sales manager of the dictaphone is Samuel Q. A. McClure, No. 1000 Washington street.

REAL ESTATE HAPPENINGS

Eight one-family brick dwellings at Nos. 172, 150, 182, 188, 192, 196 and 198 Bay State road, together with 20,478 square feet of land, have been sold by Wm. A. Moulton to John K. Lukas. The total assessed value is $120,000.

The four-story building at Nos. 233-248 Warren street, Roxbury, known as Vann Ness terrace, also two two-family frame houses at Nos. 1-1A Dunreath street, and Nos. 5, 10 Van Ness place, Roxbury, comprising a total of twenty-four suites, has been conveyed to Vera B. Woodward by Anthony Saparnis. The total assessed value on the property, including the land, is $113,000. Vincent A. Jenkins was the broker in both transactions.

CHESTNUT HILL LAND

Harold G. King, trustee of the Fisher Hill Company, has purchased through the office of A. Nicholas Reggio, No. 110 State street, 72,000 square feet of land on Middlesex road, corner of Reservoir road, upon which he will erect six high class dwellings. The assessed value is $14,900. This land was formerly owned by the Clara S. Gallup Estate and was taken over, about a year ago, by the late George S. Baldwin and John C. Kilroy for the purpose of perpetuating the restrictions.

JAMAICA PLAIN AND ROXBURY.

Edward F. Cassell has sold to Daniel J. Finnerty the property at Nos. 108 and 112 Sheridan street, Jamaica Plain, consisting of two single houses, garage and 11,500 square feet of land. The total assessed valuation is $10,600.

William F. Natale has conveyed to Edward F. Cassell the property at Nos. 64-66 Bradley street, Roxbury, consisting of two single houses, a duplex house and 14,000 square feet of land, all assessed for $9,400.

Edward F. Cassell has sold to Frank A. Connors the property at No. 8 Batavia street, Boston, comprising a two-story brick building and 1,418 square feet of land. The total assessed value is $7,500, of which $2,200 is on land.

Beautiful 320-Acre California RANCH

Opportunity of a Lifetime to Own Show Place in the "Land of Sunshine"

Heavily laden fruit orchards, green shade trees, a beautiful view from a high mesa, a lovely bungalow, with garage, out-houses, etc., a perfect irrigation system and a big swimming pool; 320 acres of rich soil; five crops of alfalfa a year; low taxation; abundant wild game nearby, and 360 days of sunshine!

80 acres of apples, pears and peaches, 10,000 boxes of fruit are expected to be packed next year from the famous Hansen ranch to the heart of Apple Valley, eight miles southeast of Victorville and north of Riverside, California.

Is there anywhere else such a rare combination of worth-while qualities for a home, ranch and orchard? The Ihnsen Rancho represents an investment of $110,000, and

The total number of passengers carried by the North and South Ferries in 1921 was 4,413,832, or 12,092 daily average.

Pres. Harding on Religion

How Different From Old Times!

Copyright, 1923, Star Company

President Harding writes a very interesting letter to Mr. Ochs of the New York Times and to other gentlemen on the occasion of a great Jewish religious jubilee dinner.

He says he has noticed "the strength and persistence of the Jewish faith, the continued influence and power of the Jewish people," and believes that is largely "owing to the Hebrew conception of a personal God."

He urges the importance of getting the human race back to "its religious moorings."

That's an interesting message from the head of the most powerful government in the world and it's a considerable improvement on the time when Jews, gathering to express their faith, would have been in danger of their lives. We become civilized slowly, but surely.

"Get Out," Says Turkey

And, Horrors! to the Y. M. C. A.

Copyright, 1922, Star Company

A radical paper in Constantinople demands that the Y. M. C. A. and the Y. W. C. A. be expelled because they are "poisoning the future motherhood of Islam."

No more missionaries trying to convert Turks will be tolerated, if the Turks have their way. They couldn't have had their way without beating at least one Christian nation, as they did recently.

When you win a fight it even makes your religion respectable.

Poor Pharaoh

Once a King, Now an "Ad."

Copyright, 1923, Star Company

There is great excitement in all the Upper Nile Valley over the discovery of Tutankhamen's tomb. The Egyptians say that the King's body, if found—it hasn't been found yet—must be left where it is, *in order to attract visitors that will spend money.*

How has the mighty Pharaoh fallen? From ruler of all Egypt, intimate friend of the sacred cat and ox, he becomes now like the artificial mermaid in the dime museum, a curiosity to gather the crowd.

Boston Stands the Cost

City Is Being Financially Ridden by the Rest of the State Through Control of Legislature

To illustrate the way that Boston is being financially ridden by the rest of the State through its gerrymandered control of the Legislature, we want the people of the State who are naturally honest and fair-minded to consider this example:

Nathan A. Tufts was the district attorney of Middlesex County. The district attorney's duties, his powers, his services were all confined and devoted to Middlesex County and to Middlesex County alone. The city of Boston is not in Middlesex County; it has no more to do with Middlesex County than with Barnstable County. The city of Boston is in Suffolk County and constitutes with the cities of Chelsea and Revere and the town of Winthrop the whole of Suffolk County.

Yet the cost of removing Mr. Tufts from his office in which the city of Boston had absolutely no interest except the same interest that Barnstable, Hampden or Berkshire County may have had as part of the State as a whole, was borne entirely by the city of Boston.

Moreover, our Boston City Law Department calls attention to the fact that even the rest of Suffolk County itself makes no contribution to the cost of the courts of Suffolk County which administer justice for the whole of Suffolk County. That is to say, the cities of Revere and Chelsea and the town of Winthrop pay nothing toward the expense of the Suffolk County courts.

In addition to the $40,000 which the city of Boston paid for the cost of the Tufts trial, the Law Department claims also that in the past five years more than two thousand cases in the Superior Court, which did not originate in Suffolk County, but were transferred here either for the convenience of a judge or some lawyer or a few litigants, were also borne by the city of Boston without justice.

These are just examples. Suppose that the tables were turned, and they may be turned any time, and the city of Boston smarting under the long injustice of her treatment turned about and treated the other counties as she has been treated?

Embargo on Coal

Committee on Rules of the House Will Undoubtedly Be Able to Get Its Resolution to Congress Passed

The Committee on Rules, which is the policy committee of the Republican majority of the House of Representatives, which is presided over by the Speaker, has unanimously adopted the order offered by Representative Mellen of Charlestown, asking Congress to establish an embargo against the exportation of American hard coal until such a time as the American people who need it are decently supplied with it.

We presume that this most important committee of the House of Representatives, which includes the leaders of the majority and minority, will be able to secure the passage of the order.

It ought not to be necessary for Congress to establish such an embargo. There ought not to be men in charge of such necessaries of life as coal who deliberately and wilfully ship to foreign countries precious coal for the want of which American families are suffering great physical discomfort and much physical danger from illness.

Other peoples do not suffer so unnecessarily. They are prompt to put on an embargo when they need it. Canada herself put an embargo on wood pulp, though it was not a necessary of life. She is constantly giving deliberate preference to British goods over American goods, and we have no criticism of her for it; but we need our own coal very much these days and we must have it. It is not that we would deprive Canada of it, but that we would get some of it ourselves.

From all reports Canada has a surfeit of American coal, certain fuel commissioners to the contrary notwithstanding.

SOMETHING TO THINK ABOUT

A SENSE OF HUMOR

By Bruno Lessing

HAVE you ever attempted to figure out just what part your sense of humor plays in your life? I'm asking the question in good faith. I haven't been able to reason it out satisfactorily myself, and I would like to get other minds thinking about it.

I suppose it is largely a matter of temperament. A person who has no sense of humor and to whom wit and merriment do not appeal, would, naturally, find neither pleasure nor consolation in the most ludicrous situation. But ought such a person strive to cultivate a sense of humor? Is the effort worth the while? What good will a sense of humor do him?

There is no doubt that a sense of humor helps a great deal to smooth the rocky road of life. It divorces us from worries and troubles—and when we cannot rid ourselves of these worries and troubles, the next best thing, assuredly, is to have our minds occasionally diverted from them. It acts, frequently, like a pair of spectacles through which we see some of our little foibles, such as conceit, vanity, selfishness, etc. And the moment we see these defects in ourselves, we try, instinctively, to remedy them.

But, seriously, try to figure out how much laughter you ought to have in life. If you are not enjoying enough, cultivate your sense of humor. Read what the statesmen of Europe are saying or the speeches in Congress or the famous testimony of Henry Ford. If you laugh too much, put on the soft pedal.

Husband Won't Be Target

ELYRIA, Ohio, Feb. 1.—His wife was handy with a revolver, shooting him three times on one occasion and giving him a close invitation to the undertaker, is the allegation made by John Rabish, South Amherst business man, seeking a divorce.

Rabish also declared that his wife helped herself to cash from the register.

THE VOICE OF NEW ENGLAND

No Attention Paid to Anonymous Communications

Court Committees

Editor Boston American:

I hope you will be so good as to give me space to say that the publicity concerning a committee to visit our courts went somewhat wild. No one believes that social service alone can clean up bootlegging, though it has its place in all evils.

I believe in men and women seeing cases through the courts, because by this process one comes to see whether a town has a police force that is doing what it is paid to do, keeping the town free from criminals of every sort. Also one comes to see the customs of the courts, to know judges who, throwing legal technicalities aside, make the law a red-blooded instrument to protect the community.

One comes to know whether the findings of such judges in the lower courts are sustained by the upper courts or changed to small fines. Small fines are often no more than a license paid for wrongdoing, sending the criminal directly back to his evil ways.

By watching cases through the courts one comes to sense why there must be at times real penalties if the community is to get from the courts and the police the protection it is paying for.

In short, the object of a visiting committee is to learn to know your town in its most vital part—its execution of the law—and if this execution is imperfect to clean it up. It is a call to all wholesome elements to work for a clean town.

ELIZABETH TILTON.

Electrify Railroads

Editor Boston American:

As usual, and it was to be expected, Governor Cox has frowned on the plan of Mayor Curley to make Boston's transportation service up to date by electrification of its steam railroads, etc., similar to New York. (Politics again.) Anything that is progressive for Boston is always sat on at the State House, but if a historical affair similar to the farce shown at Plymouth last year the State House will put its O. K. on it. We need men on Beacon Hill who have forgotten the old New England puritanical conservatism (the vintage of '92), men who have travelled and are up to date, men who will vote to put Boston on the map, men who will see that all steam railroad lines running into Boston are electrified today, not tomorrow. A PROGRESSIVE.

THE HELPING HAND

Do Not Inclose Stamps. Letters Will Not Be Answered Personally

Will Get Puppy

Editor Helping Hand:

I am a little girl ten years old and wish you could help me. I lost my dog five months ago. His name was Fannie. Could you mend a broken heart? He was so dear to me. I don't care what kind of a dog it is, and I will give him a nice warm bed and all he wants to eat. I am one of the little girls that got the Ma Ma doll. We just love your paper. We love "Stumble Inn."

EDNA.

ED. NOTE — We are rushing your name and address to E. F. K., who recently offered a brindle bull pup. Hope it takes Fannie's place.

Rubber Boots to Give

Editor Helping Hand:

My husband has an almost new pair of hip rubber boots, size 9. If J. L. M. could use them, will be pleased to give same to him.

MRS. F. L.

ED. NOTE—J. L. M. has been supplied, but there is no doubt some other worthy man who works in wet places and needs boots.

Dog Offered

Editor Helping Hand:

If J. J. D. will communicate with me I will see that he gets a very nice male dog about seven months old, whose mother is a full-blooded airdale. H. C. M.

ED. NOTE—J. J. D. has been supplied, but you will be put in touch with J. P. L., who asked for a dog.

Wants a Stove

Editor Helping Hand:

I have a pretty little female dog that I will give someone in exchange for a baby walker, crib, or anything of equal value for a baby. I would like to get a good second-hand kitchen stove. Perhaps Mrs. J. T. has not sold hers yet. MRS. D. C.

ED. NOTE — The name of a buyer has been sent to Mrs. J. T., but there may be other stoves for sale.

WORDS FROM THE LIPS OF WISE MEN

When two friends part they should back up one another's secrets and interchange their keys.

* * *

Great works are performed not by strength, but by perseverance. A falling drop at last will cave a stone.

* * *

However wretched a fellow-mortal may be, he is still a member of our common species.

* * *

There is no cure for the follies of youth but age.

* * *

Flattery will not hurt us if we don't flatter ourselves.

* * *

Men of genius are often dull and inert in society, as a blazing meteor when it descends to earth is only a stone.

* * *

Joys are not joys that always stay—and constant pleasures don't delight, but cloy.

* * *

Labor, if it were not necessary to the existence, would be indispensable to the happiness of man.

* * *

Nature knows no pause in progress and development, and attaches her curse on all inaction.

* * *

Self-reverence, self-knowledge, self-control—these three alone lead life to sovereign power.

* * *

It is not good to speak evil of all whom we know bad—it is worse to judge evil of any who may prove good.

Irish Open Fight on Cancer

DUBLIN, Feb. 1.—The Irish government has awakened to the fact that 4,000 people in Ireland die of cancer every year, and a vigorous campaign to raise funds to combat the disease is being organized.

Students from the Dublin hospitals, clad in grotesque costumes and wearing masks, have paraded the sidewalks appealing for funds, and the authorities claim that they have already raised $20,000 in this way.

The government is considering a suggestion of initiating a scheme whereby every industrial worker in the Free State should contribute to a national fund to fight cancer.

TAKE OFF YOUR HAT AND BOW TO THE DOLLAR

By Herbert Kaufman

TAKE off your hat to our sixty-three-cent dollar. Worth forty thousand German marks today.

Price sharks find that we still need a third more income to buy 1914 quantities from the butcher, baker and candlestick maker. But the difference is in the pay envelope.

There's a difference in the country's treasury, too. Better business methods at Washington and increased Federal returns from sounder administration of private business has just wiped out seven hundred and thirty millions of national deficit.

Lower Taxes Later

Wages are on the ladder again—the stock ticker is betting that we'll stay home and mind our own healthy business. Sears Roebuck's recently announced surplus was harvested in the wheat fields and clipped from the sheep fold. It's farm and ranch cash. Mail order sales are the best possible index of rural prosperity.

The Capper, Norbeck and Lenroot bills will bring many more millions out of the agricultural districts, to spin factory wheels and speed employment.

The steel mills are still behind on their orders. Notice the tang of optimism in the air.

Pretty sound country to manage so well with so many bankrupt customers and backward debtors. And with no overseas dominions, either, helping to lift the mortgage off the old home.

Austria Has Money in the Bank

Ex-Governor Lowden, who once ran the Pullman Company and now runs a farm, isn't so happy at the prospect. The League of Nations looks better to him. He reminds us of locally unconsumed crops and can't imagine how we shall dispose of extra grain and meat and cotton without first helping Europe out of her muddles and deficits.

Senator McCormick, also from Illinois, but decidedly not also for the League of Nations, thinks that Europe is old enough to know better and should be left to her own devices.

Poor mangled Austria, cut off from her wealths by Versailles surgery and forced to struggle along without economic hands and feet, has found that the only way to get the water out of money is to work it out.

Between September and December her bank deposits increased from eleven to eighty-seven billion paper crowns. The crown, you may notice, is steadily picking up.

Armies and Revenges Must Demobilize

M. Poincare boasts of lancing the reparations problem. Such lances as his reinfect the sullen boil with fresh hates and further obstructions.

He won't collect heavily from Germany with marks running at forty thousand to the dollar, nor can France profit from an adventure which constantly pounds down the franc and sends national bonds below ninety.

Let him learn from Austria. Demobilize force and revenge and permit intelligence and energy on both sides of the Rhine to resume production.

Europe doesn't deserve credit or support until uniforms are doffed and overalls donned.

We won't finance bankrupting militarism; but we offer liberal terms to civilian market baskets.

The Lady Seems Somewhat Peeved

Mrs. Miles Poindexter, whose husband received demobilization orders from his constituents at the last election, seems to feel that "now it can be told" and invites us all to hear what she thinks of Washington.

It is very easy to figure what Washington, in turn, thinks of Mrs. Poindexter.

She tosses her nosegays from department to Capitol. Congress is filled with "blockheads." La Follette is not even nearly a friend and "has no following." Secretary Wallace "fills his home with government flowers" and the Denbys with their "official automobile, naval trips and marine band concerts" are presented as choice exhibits of her irritation.

Mrs. Poindexter's frankness comes rather late. Its inspiration appears clouded with resentment and possibly envy.

On the eve of enforced retirement the role of—shall we says analyst?—is not admirable. She tells us much about late friends, but more about herself.

A Challenge to Spiritualism

Conan Doyle and Sir Oliver Lodge, two very great and sincere men, insist upon personal knowledge of life beyond the grave. Dr. Owen, a recent visitor whose greatness is still to be established, claims still closer intimacy with the ways of the departed.

Together or severally they may now silence scepticism for all time. Let them simply page the ghost of Pharaoh and have him describe the contents of a single unopened coffer in the tomb at Luxor.

If successful, the world would be pleased to interview Tutankhamen on further matters. If it is true that our spirits do not leave the earth, but wander invisible through the centuries, reading the minds of men and witnessing their follies and triumphs, we would inherit a wealth of wisdom from the experience of so ancient a soul.

One who had looked upon Tyre and Babylon and stood beside Alexander or ridden with Tamerlane might speak a helpful word in the Ruhr or at Moscow or at Constantinople.

Nathan Straus Is 75 Today

Before 1891, as in Tutankhamen's time, every tenth child died before reaching five. Last year all but twenty-four out of a thousand lived.

Nathan Straus, who celebrates his seventy-fifth anniversary today, is the man who changed the mortality table. He taught the world the difference between good and bad milk. He invented pasturization and then personally financed its course around the earth.

He drove death out of the nursing bottle.

Greater honor hath no man.

(Copyright, 1923, by King Features Syndicate.)
